Covers Distance of Ninety Miles in Flight Lasting Over Two Hours.

[ASSOCIATED PRESS NIGHT REPORT.]

LE MANS (France) Dec. 31.—Wilbur Wright beat all previous aeroplane records here this afternoon with a flight that lasted two hours and nine minutes.

He covered officially, a distance of seventy-three miles, but as a matter of fact, made over ninety miles.

The feat was more remarkable because of the intense cold.

Later Mr. Wright went aloft with M. Barthou as a passenger.

Taft's Act Pleases Washington.

President-elect's Settlement of Ohio Fight Augurs Well for Administration.

Suppresses Brother When He Finds Relationship Is Being Counted on.

Peaceful Arrangement Could not Have Resulted Without His Intervention.

BY WALTER WELLMAN.

[BY DIRECT WIRE TO THE TIMES.]

WASHINGTON, Dec. 31.—[Exclusive Dispatch.] President Roosevelt and almost every one else in the national Capital is mightily pleased with the outcome of the Senatorial struggle in Ohio.

There is general recognition of the fact that the election of Mr. Burton was brought about by the intervention of the next President. If it has not been for the influence of W. H. Taft, exerted through Atty.-Gen. Ellis, it is pretty certain the peaceful arrangement announced at Columbus today could never have been reached.

Mr. Taft has from the first taken the ground that his brother Charles had the right to win the Senatorship if he could do so off his own bat, so to speak, without drawing too heavily upon his relations with the coming administration.

When it became apparent that Brother Charles's personal strength was a minor factor and his relation to the incoming President the major part of his capital, the President-elect interposed a veto.

STRONG MAN'S ACT.

There is much comment upon the resoluteness displayed by Mr. Taft in this delicate matter, a phase of his character which is generally held as boding well for his administration. He gave his brother a fair chance, stopped Mr. Burton from trading too much on administration assets and then in an even handed way stopped his brother from doing the same thing. It takes a strong man to do things in this big, broad way.

William H. Taft has never felt that his brother's election to the Senate would be embarrassing to himself, provided it could be brought about in a natural and proper way, but he did object to having his administration used as an asset in the struggle and realized that there was imminent danger of scandal coming out of the contest—the scandal of defeating the will of the people by the use of power of patronage promised in the same on "Mr. Taft himself."

VERY HAPPY OUTCOME.

The opinion here, not only at the White House, but in all circles, is that the outcome is a very happy one. It is a fortunate one in its broader aspect and on the personal side. For Mr. Burton is known as one of the ablest men in public life, one well worthy a place in the Senate and sure to prove a most useful member of that body. He is a student, a philosopher, a powerful speaker, a disinterested public servant. He will easily rank among the dozen ablest men in the upper branch when he takes his seat next March.

TAFT AND FORAKER ISSUE STATEMENTS.

[ASSOCIATED PRESS NIGHT REPORT.]

COLUMBUS (O.) Dec. 31.—Congressman Theodore E. Burton was today looked upon as the next Senator from Ohio.

Charles P. Taft withdrew from the race, and Senator Foraker issued a statement later that his defeat for re-election was certain.

All the minor candidates have either withdrawn or will get out of the race.

It is said that Mr. Taft will remain in virtual control of the Republican organization, and that he will have the united support of the party for the Senatorship in 1911, if he desires it.

The election of Mr. Burton, it is said, will eliminate Senator Dick and Myron T. Herrick from the 1911 Senatorial situation.

Senator Foraker will again oppose Mr. Taft in that year, but some of the leaders here were inclined today to interpret Mr. Foraker's statement as in the nature of a valedictory. It was as follows:

"The withdrawal of Mr. Taft simplifies the situation. Under all the circumstances, I would have been glad to have been reelected, but inasmuch as that seems impossible, I feel that there is a great compensation for any personal disappointment involved for myself in the result that has been reached.

"If nothing more has been accomplished, a lesson of lasting value has been taught in the demonstration that a party organization is powerful only when it confines itself to its legitimate business and duties as the agency and representative of the whole party, and that it loses its force and power when it becomes a personal asset of an individual.

"The party, the State and the country are to be congratulated upon the assured election of Mr. Burton. He is well qualified by experience, ability and character for the high and dignified office to which he has been chosen.

"I extend my most heartfelt thanks to all my friends who have so loyally stood by me during this trying contest. The recollection of their zeal and fidelity, while struggling under such disadvantages, will always be cherished and appreciated."

Later in the day Gov. Andrew L. Harris and Gen. J. Warren Keifer also withdrew, and it was stated former Lieut.-Gov. Harding would drop out.

Mr. Taft issued the following statement:

"My candidacy from the beginning seems to have been misunderstood. I have been represented as urging my own personal ambition at the expense of Republican harmony and success. The imputation is unjust, but that is of no moment now.

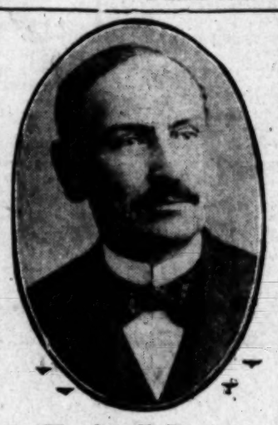

"The cause of it shall exist no longer. I yield the personal ambition for the accomplishment of better and more important things.

"I have been a sincere and consistent Republican all my life. I have served my party and the people of my community as a member of the Legislature of Ohio, and of the Congress of the United States. It was my privilege to be one of those who nearly forty years ago in the General Assembly of this State stood for the authority of party judgment as formed in public sentiment and expressed in party caucus, when John Sherman was sent to the Senate of the United States.

"I have long had an ambition to be a Senator from Ohio. I have sought this great honor without reliance upon the popularity or prestige of any other man.

"Conditions have now arisen which impose a higher duty upon me than the gratification of any personal ambition. It is clear that a prolonged contest for the Senatorship would divide the Republican party of Ohio, and I am not willing to be in any way responsible for such division. Although it does not appear at present that any candidate has enough votes to win a caucus nomination, and though many of my friends insist that I can and will be elected, I put these considerations aside to meet worthier obligations.

"I withdraw as a candidate for Senator, and with grateful appreciation release my friends from further effort in my behalf. I will resume my place in the councils of the Republican party and give to its welfare and to the splendid policies for which it stands the same service and devotion which have been the great privilege and pride of my life."

Theodore E. Burton,
the next Senator from Ohio.

Lipari Group Gone Is Report.

Twenty-eight Thousand People Must Have Drowned in Disaster.

Warship Rushed to Investigate Latest Addition to Horror.

Officials Give up Attempt at Estimating the Number of Victims.

[ASSOCIATED PRESS NIGHT REPORT.]

ROME, Dec. 31.—The "Vita" states that a wireless message from the Strait of Messina reports that the Lipari Islands, a group of volcanic islands in the Mediterranean near the coast of Sicily, have disappeared.

The total population of the group numbered 28,000 and must inevitably have perished.

The Minister of Marine has rushed a torpedo boat to ascertain the facts.

ROME, Dec. 31.—Estimates of the death roll of the earthquake now cease to concern the Italian people. It is enough to know that the catastrophe is overwhelming. Figures would add nothing to the grief of the stricken nation, nor move to greater efforts those upon whom the work of relief and rescue has fallen.

Every channel open to the government has been utilized to this end, and other nations have been quick to come to its assistance, even before the cry for aid went up.

Shipments of fugitives have been carried out of the stricken zone to Naples, Palermo, Catania and other ports, and, according to the Minister of Marine, rescue vessels to the number of thirty-six are now centered in the Straits of Messina, and 5000 soldiers are being landed on the two coasts.

THOUSANDS STARVING.

Most important of all now is the question of the living. Thousands of those who escaped the falling walls and the sweep of the tide are starving and without clothes or shelter. They cannot long survive their sufferings. The thought has been to carry food and covering for those helpless people, and it has been decided by the government to send a fleet of emigrant steamers to transport them to other places.

The latest reports received at Rome state that there have been many intermittent shocks following the first to which the greater part of the destruction is attributed. The British warship Minerva reported by wireless to Malta that two severe shocks occurred at Messina last night.

FORTY-TWO SHOCKS.

Prof. Ricco, director of the observatory at Mount Aetna, states that his instruments recorded forty-two distinct shocks after the first, but that during the last fourteen hours the instruments have been almost motionless. Aetna and Stromboli are now quiet and he is certain that the earthquake was not of volcanic but geological origin, similar to that of 1783.

Ambassador Griscom will leave here tomorrow and will proceed to Messina and other places in the south on an Italian warship in search of information concerning missing American travelers.

The horror of the situation at Messina and Reggio grows with every fresh dispatch. One of the correspondents places the death roll throughout the entire territory as high as 300,000, but this appears to be extreme. Others make their outside estimates 200,000, but the official estimate as made by the Minister of Marine still holds to 115,000.

MARCH NAKED WITH IMAGES OF SAINTS.

[ASSOCIATED PRESS NIGHT REPORT.]

ROME, Dec. 31.—Scenes of the weirdest nature are being enacted at Messina and other ruined cities.

Grim advices reach Palermo to the effect that flocks of crows have descended on the stricken district, having crossed the sea in response to some mysterious intuition of the disaster.

In Messina the rescuers frequently encountered processions of naked persons bearing images of the Saints.

It is exceedingly difficult to deal with these frenzied survivors.

SICILY.

Bride of the Sea and mistress of the Sun,
Ravished and wronged, but ever loved the best—
Oh, weep for Sicily that lies undone,
Her children dead upon her withered breast.
Oh, weep for her whose beauty Homer sang,
Whose bosom knew a thousand lovers' tears,
Whose smile to gain the world with battle rang,
And tides ran red through thrice a thousand years.

Of every sail the morning winds saw rise,
Of every spear and sword that served a King,
She was the best-beloved, the fairest prize—
She that is now this broken, blackened thing.
Where crossed the trails she sat with luring lips,
Her breath like lemon-bloom when day is sped,
The wanton plaything of the wandering ships—
Oh, weep for Sicily that now lies dead.

They who long wooed her in the storied past,
Her lovers all, what would they say if now
They could but see how she lies prone at last,
Beaten and scarred with black and bloody brow?
What would the old Phoenician say to this,
That was the dream to which with life he clung—
Vandal and Goth that died upon her kiss,
And they who loved her when the world was young?

Her sun is set as e'en the proudest's must,
But she has stood 'gainst wrath of sea and fire
Till Rome and Carthage humbled were in dust,
And Time had blasted Nineveh and Tyre.
Them that she warmed within her sunny heart,
Whose star and crescent and whose cross she wore,
They, too, are dead, and come not thus to part
With Sicily, whose beauty is no more.

APPEAL FOR AID.

AMBASSADOR CALLS ON ITALIANS HERE.

[BY DIRECT WIRE TO THE TIMES.]

WASHINGTON (D. C.) Dec. 31.—[Exclusive Dispatch.] Baron Edmundo Mayor des Planches, Italian Ambassador to the United States, today issued a proclamation to the Italian people of America appealing for aid for their stricken countrymen in the earthquake region. The proclamation and a translation follow:

"Italiani di America:

"I disastre di Calabria di Sicilia devono accomunare glie animi nostri in un pensiero di amore per la grande madre antica, orbita di tanti sucfigli, in un pensiero di solidarieti col fratelli afflitti da tanta sventura.

"Membri di una vasta famiglia, dimostriamo col fatti che la disgrazia dei nostri connazionali e' da noi sinceramente e profondamente sentita. Non vani compianti, ma efficaci soccorsi si richieggono.

"L'italia sopporto' altre prove dolorose e risorti. Cost' anche questa volta, merce' il volere intelligente e concorde del popolo e del suo augusto sovrano, corso, come sempre, in doloroso pellegriniggio, sui luoghi piu' colpiti, l'etali trionfers' delle citche forze della matura. E' proprio die forti lo attingere dalla calamita' nuove energie. Sulle rovine di Messina e die Reggio noriorranno ben presto, in un ricoglio di nuove primavero, citta' piu' prospere e piu' belle. Il popolo Italiano puo' essere colpito, non abbattuto.

"Intanto se nel momento piu' grave alcunche' puo' lenire l'esacerbazione del nostro dolore, valgano a cio' le simpatie del mondo civile, valda la generosa fratellanza che ci dimonstra il gren poppolo americano.

"In alto i cuol'.

"Ambaciatori di su maesta.

"Washington, D. C., 30th Dicembre, 1908."

"Italians of America:

"The disasters at Calabbria and Sicily must join our souls in a thought of love for the great ancient mother country, deprived of so many of her sons; in a thought of complete sympathy with our brothers afflicted by so many trials.

"Members of one great family, let us show that the misfortune of our fellow countrymen is felt by us deeply and sincerely. Let us show this, not by lamentations, but by material assistance.

"Italy has supported other grievous trials and risen from them. So now again, thanks to the intelligent willingness and concord of her people and her august ruler, embarked as always in a pilgrimage of mercy, Italy will triumph over this blind fury of nature.

"It is the quality of the strong to gather fresh energy from reverses. Upon the ruins of Messina and Reggio soon there will flourish again in the pride of new life cities more prosperous and beautiful.

"The Italian nation is hardened to blows and does not lie down under them.

"Meanwhile if in such a grave moment anything can soften the acuteness of our grief, it is the sympathy of the civilized world and the generous feeling of brotherhood manifested towards Italy and the Italian people by the great American nation.

"In heartfelt sympathy,

"The Ambassador of His Majesty.

VIVID.

TALES OF HORROR BY REFUGEES OF MESSINA.

[ASSOCIATED PRESS NIGHT REPORT.]

ROME, Dec. 31.—A young doctor named Rossi, at Messina, gives a vivid account of his experience.

The doctor was preparing to leave Messina by an early train the day of the disaster.

"Suddenly, the profound silence was broken by an extraordinary noise, like othe bursting of a thousand bombs," he says. "This was followed by a rushing and torrential rain. Then I heard a sinister whistling sound that I can liken to a thousand red-hot iron rods hissing water.

"Suddenly, there came violent rhythmic movements of the earth and the crashing down of near-by walls made me realize the awful fact of the earthquake. Falling glass, bursting roofs and a thick cloud of dust, added to the horror of the situation, while the extraordinary double movement, rising and falling at the same time, crumbled walls and imperiled my life.

"I rushed into the room where my mother and sister were, and succeeded in rescuing them. I was also successful in getting out of the house a number of other persons who had given themselves up for lost. Then some soldiers came and helped me, and together we dragged forth several women and children from the tottering walls of a palace."

AS IN TOMB WITH DEAD.

Another survivor of Messina says:

"The first thing I knew I was thrown out of bed. The floor collapsed, and I fell into the apartment under me. Here I found a distracted woman searching for her sister and son, whom she found dead. We remained in the ruins for twenty-four hours, entirely alone, without food or drink. Our ears were assailed with the cries and moans of the wounded. We were as in a tomb with dead bodies beside us.

"Every time sounds were heard from the street there would come an outburst of piercing cries for help from the injured hidden and pinned down in the wreckage.

"Tuesday morning we finally ventured forth. We passed over streets that were vast crevasses, and climbed over great mounds of ruins and wreckage that were all that remained of the finest palaces of Messina."

This refugee lost his two children. He arrived in Rome half-clad, while his wife was clothed in little else than an old counterpane.

Just as the British steamer Ebro was preparing to leave Messina with refugees an outburst of frightful cries was heard from the shore. The refugees on board saw a crowd of maddened persons of every age break into the customs house. Some were naked, all were half-demented, and they were injured and bleeding. They sacked everything that came to their hands, seeking food, drink and clothing. Revolver shots rang out over the horrible din and confusion.

FIRE COMPLETES DESTRUCTION.

Finally, tongues of flame shot up in the darkness. Messina was burning and masses of flames in the darkness showed where the fire was completing the destructive beginning of the earthquake.

As the Ebro steamed through the straits it was seen that many once-smiling villages on the neighboring shores had been completely obliterated, or were nothing more than heaps of shapeless ruins.

Breathitt County Judge Asks Governor to Put End to Warfare.

[BY DIRECT WIRE TO THE TIMES.]

LEXINGTON (Ky.) Dec. 31.—[Exclusive Dispatch.] The war between the feudists headed by Ed Callahan on one side and the Smiths and Deatons on the other, has broken out again in Jackson, Ky.

S. S. Taulbee, county judge of Breathitt county, wired Gov. Willson this afternoon to hasten a company of soldiers to Jackson to prevent a battle.

Callahan was to have been placed on trial today for shooting Rand Sebastin several days ago, when his home was fired into. To reach Jackson in safety from his home at Crockettville, he was accompanied by twenty-five friends, heavily armed.

Jackson was today invaded by sixty-five armed men from factions opposing Callahan. They sought shelter in a vacant house in town, and runners were immediately sent out by Callahan, warning his friends.

Tonight both factions have been swelled to more than 100 to a side. One-fourth of the homes in Jackson have been deserted.

Callahan's trial today was postponed and he gave bond to appear at any time wanted.

It is believed the night will witness the bloodiest battle in the history of Kentucky feuds.

CITIZENS BARRICADED.

[BY DIRECT WIRE TO THE TIMES.]

JACKSON (Ky.) Dec. 31.—[Exclusive Dispatch.] Terrorized by two camps of armed men, allies of Former Sheriff Ed Callahan and James T. Deaton and Rush Sebastian, for shooting whom Callahan was to have been tried today, citizens of Jackson are spending New Year's eve barricaded in their homes.

The two factions are fortified in the courthouse and general store of the late Judge James Hargis, respectively, and only the main street, the scene of murderous rioting in the past divides the warring factions.

County Judge S. S. Tolbee, declaring he will not return to try Callahan unless the Governor sends troops to protect him from the opposing feudists in Jackson, remains in the woods. Gov. Willson is out of the State, and Lieut.-Gov. Cox thus far has refused to send any troops.

Callahan declares if he is not given his third trial here it will have to be in his home at Crockettsville.

At the calling of Callahan's trial today it was postponed, and he gave bond, after which he joined his faction ready to fight for his life and liberty.

ORDER SURVEY FOR NEW CANAL.

IRRIGATION PROJECT FOR VALLEY OF COACHELLA.

Government Will Secure Estimates on Cost and Value of Plan of Bringing Water from Yuma Dam, a Distance of One Hundred Miles, to Indio, Thermal and District.

[BY DIRECT WIRE TO THE TIMES.]

WASHINGTON, Dec. 31.—[Exclusive Dispatch.] Another enterprise of immense importance for Southeastern California was started today, when Director Newell of the Reclamation Service issued orders for a survey of a canal line from the Yuma dam for a distance of about one hundred miles to Coachella Valley. Owners of land at Coachella, Indio, Thermal and throughout that region have long been clamoring for some such action.

One difficulty in granting their request has been the conformation of the country, a long ridge of sandy hills offering a natural barrier between them and the river. This ridge ends at the southern end in Pilot Knots, which is on Mexican territory, and the canal, if constructed, must run south some distance and around Pilot Knots before it can be headed toward its ultimate destination. It will then take a northwesterly course, following the ridge of sandy hills. If the canal were to be headed directly toward Coachella it would have to pass under hills by means of a tunnel fifteen miles long.

The survey will begin at an early date, some time this winter, and when it is finished the service will know how much land can be irrigated by such a canal and at what cost.

State Department Ready to Send Fleet.

Italian Representative Is Now Offering Thanks.

Ambassador Griscom Going to Messina.

[ASSOCIATED PRESS NIGHT REPORT.]

WASHINGTON, Dec. 31.—A memorandum showing the location and proposed disposition of the Atlantic fleet is now before the State Department for use when the decision is announced to offer the Italian government the assistance of these vessels and their crews in caring for the sick and wounded. The matter has not yet been taken up with the Italian government.

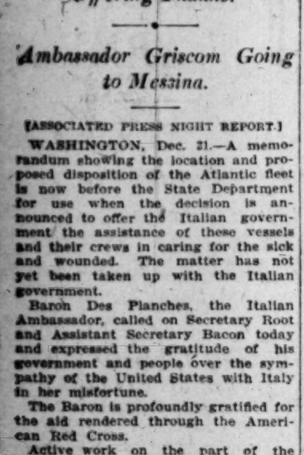

Baron Des Planches, the Italian Ambassador, called on Secretary Root and Assistant Secretary Bacon today and expressed the gratitude of his government and people over the sympathy of the United States with Italy in her misfortune.

The Baron is profoundly gratified for the aid rendered through the American Red Cross.

Active work on the part of the American Red Cross characterized the day. Approximately $100,000 already has been made available by it from previous funds or has been promised, much of which already has been cabled to the American embassy at Rome to be turned over to the Italian Red Cross Society. That society, the Italian embassy at Washington reports, is the organization through which all relief will be administered.

for sufferers in Calabria and Sicily.

Among the contributions is one of $25,000 from the Anheuser Busch Brewing Association of St. Louis. The Governors of Illinois, Mississippi, New York, Virginia, New Hampshire and California have issued appeals for contributions. President Roosevelt personally will subscribe $500 toward the relief fund.

Because of the immensity of the disaster, the Italian government will greatly appreciate aid from foreign countries. Ambassador Griscom made this communication to the State Department today, having been notified to this effect by the Italian Foreign Office, the officials of which think that the estimate of 100,000 dead is not exaggerated.

Ambassador Griscom will go to Messina tomorrow in order to avail himself of the opportunities of getting transportation for two or three consular officers and to profit by the special opportunities there for obtaining news. He will take with him Vice-Consul Cutting from Milan, who will be placed temporarily in charge of the Consulate at Messina. He will take also with him the interpreter of the embassy at Rome and one of the staff of the consulate at Naples, also Winthrop Chandler, a private citizen, to do special work searching for, and relieving American citizens. Mr. Griscom says in his dispatch that he would be glad to have a few thousand dollars for the possible relief of Americans.

Mr. Griscom's dispatch says a local newspaper has a telegram this morning from Messina, which says that Stuart K. Lupton, the American Vice-Consul there, is dead, as well as Consul Arthur F. Cheney and his family, whose deaths have been heretofore reported. Some doubt is expressed at the State Department as to the correctness of this report, because only recently a dispatch presumed to have been sent by Lupton, came to the department from Malta. The newspaper dispatch also recites the death of Vice-Consul Pierce and family. This presumably refers to the predecessor of Mr. Lupton, who had been relieved by the latter recently. Mr. Pierce or Peirce, as his name is spelled in the State Department register, was an Italian by birth.

Further confirmation of the death of Consul Cheney and family has reached the Ambassador from the nephew of the German Consul at Messina, who has just arrived at Naples.

Mrs. Donald McLean, president of the Daughters of the American Revolution, issued a call to members of that organization throughout the country to contribute to a fund for the Italian sufferers through the National Red Cross Society.

In co-operation with the members of the local Italian colony and the various civic bodies of Los Angeles, The Times will help raise a fund for the benefit of the suffering people stricken by the most tragic disaster of modern human history.

The Times subscribes for this fund $1000

The Times invites further subscriptions. They may be sent directly to this office or to Niles Pease, president of the City Council, or to the Italian Consular Agent for Los Angeles, Luigi Dell' Orto. All moneys received by The Times will be forwarded immediately to the Italian Consular Agent, at the Italian Relief Headquarters, No. 229 North Main street, and will be acknowledged by him, or forwarded to Niles Pease, as may be directed.

From day to day The Times will print the names of the donors sending contributions in this way, the list being furnished from the Italian headquarters.

That the response of Southern California will be prompt and generous goes without saying. The Times expects to print tomorrow a generous list of donations.

QUAKE SINKS ISLAND.

(Continued From First Page.)

making their way to Reggio have encountered tremendous obstructions all along the route. They report eighteen provincial villages, beside those already mentioned in Calabria, as having been completely ruined. This would indicate that the earthquake did not confine its work of havoc to the coast. What has become of the inhabitants of these villages is not known. Those that were left alive after the destruction of their homes doubtless joined the great army of refugees seeking safety or have fallen by the wayside.

The Calabrian coast for thirty miles has been torn and twisted.

PRUNING-KNIFE SURGERY.

From Bagnara to Reggio, a distance of twenty-five miles, the country is half demolished. Assistance has reached but few of the villages, and they are practically without supplies of any kind.

At Bagnara surgical operations are being performed with pruning knives, but at Reggio even that is impossible. Thieves infest the country, and the despair of the unaided villages is complete. Hunger supplies the motives for scenes of shocking violence, and robbers defy the few surviving policemen and soldiers.

AMERICAN TOURISTS AND CONSUL LOST.

[BY DIRECT WIRE TO THE TIMES.]

ROME, Dec. 31.—[Exclusive Dispatch.] The report of the death in the earthquake of Arthur S. Cheney, the American Consul at Messina, and of a number of American tourists who were passing the night in the Hotel Trinacria, has been confirmed from various sources. Private telegrams were received this morning from an American woman living in Palermo, announcing the fact, and later in the day the same news came from Naples, to which city it had been brought by the admiral of the Russian squadron, arriving direct from Messina with wounded and other refugees.

The telegraph wires to the south being monopolized by official business, little can be learned by means of private messages to or from Messina. The American Ambassador, however, is sending several consular agents to that city. He says that persons in America having friends in Reggio or Messina, wishing to ascertain their fate, should cable to the American Embassy here.

In Messina immense quantities of quicklime are being scattered over the ruins to prevent as far as possible the outbreak of a pestilence. This, however, makes it impossible to identify the bodies, as also does the fact that in thousands of cases the clothing and other articles, which might have helped in the work of recognition have been burned from the victims.

In spite of the efforts of the troops, who are for the most part actively engaged in rescue work, looting continues, and also crimes worse than looting, for many cases have occurred in which young women have been stunned, robbed of their jewels, maltreated and left to die, or have been murdered by escaped prisoners. Looters who are detected are immediately shot.

Beneath the ruins there still remain many living persons, whose cries, growing fainter hourly, can be heard plainly by the rescuers, who are able to do little to help them. The deaths from cold and hunger must run into many thousands.

No words can describe the sorrow and desolation of spirit to be witnessed in Rome today. Pope Pius has again fallen ill, owing to his great sorrow. It is feared in some quarters that he may be dangerously weakened through continual fretting over his inability to go personally, as the King has done, to the scene of the disaster.

KING SENDS OUT LOAD OF WOUNDED.

[ASSOCIATED PRESS NIGHT REPORT.]

ROME, Dec. 31.—King Victor Emmanuel, who left Messina last night with Queen Helena, arrived early this morning at Reggio, and after visiting the town in company with the Queen, reëmbarked on a warship and sent the following wireless telegram to the Premier:

"I return from Reggio which I found in a condition no less disastrous than at Messina. The Prefect of Reggio says that grave injury has been done to the communities of his province.

"A Russian warship with 500 wounded on board will arrive at Naples this morning and everything must be prepared for their landing and housing. Another Russian ship will carry wounded to Syracuse. It is desirable to provide at Naples a Russian ship and an abundance of medical supplies."

Marquis Vicenso Genose, a refugee from Palmi, near Reggio, in telling of his experiences at the time of the earthquake, says that he was awakened by a tremendous roar and a severe shock. It seemed as though the house was whirling around, like the wings of a windmill. The wall of his dwelling cracked, and through it came a cloud of suffocating dust.

Stunned but uninjured, the Marquis tried to escape to the streets, but he found it impossible. The stairs had fallen with the first shock.

After numerous efforts he succeeded in getting out of a window and descending to the ground from the third story by means of a rope.

Walking, he says, was difficult, owing to the fact that the streets were filled with débris. He helped in the work of rescue and in a short time had assisted in dragging from beneath the ruins in the street eighty-six persons all of them dead. The faces of every one of them, he says, showed the agony they suffered in death. Many of them had their arms across their faces, as though to protect themselves from the falling débris.

It was necessary to release the prisoners at Palmi and many of them succeeded in making their escape.

The Marquis said he tried in every way to enter the town of Reggio, but his efforts were useless. He compared Monday's earthquake with the disturbances of 1894, and 1905, and said it was immeasurably worse.

In fact, he declared, Palmi was absolutely destroyed.

SYMPATHETIC.

MONEY FLOWS TO SUFFERERS.

LOS ANGELES CITIZENS SWELL THE RELIEF FUND.

For Second Time Within Three Years City Responds to Call for Aid from Victims of Earthquake and Fire—Mayor and Others Issue Appeal for Cash at Once.

Already more than $2000 has been subscribed in this city for relief of the earthquake victims of Italy and Sicily. With the San Francisco disaster still fresh in their minds the sympathetic people of Los Angeles have opened their purses wide and at least $10,000 is expected to be raised within a few days.

Yesterday more than $2000 was given to the various committees and several of the checks were of large denomination, the largest, from the Los Angeles Produce Exchange, for $300. The Italian Consular Agent, Luigi Dell' Orto, Morris Orsatti and Secundo Guasti are devoting their entire time in soliciting funds to aid their fellow-countrymen.

The relief headquarters are at the Morris Orsatti Steamship Company's office, No. 220 North Spring street. Stations are open at No. 493 North Main street, No. 600 San Fernando street, No. 648 North Main street and other leading Italian business houses. Subscriptions can also be sent to Niles Pease, president of the Los Angeles City Council. Besides these, many clubs are helping to put the amount up as far as possible. All of the money given here will be sent to the Italian representative at San Francisco, who will send it to the headquarters of the Italian Red Cross Society at Rome.

OFFICIAL APPEAL.

Mayor Harper called a meeting yesterday morning of the various civic organizations at the rooms of the Merchants and Manufacturers' Association, where the following appeal to help the sufferers was issued to the "People" of Los Angeles:

"The entire world has been appalled by the terrible catastrophe that has befallen the southern part of Italy, where sorrow and disaster reign supreme from the effects of the earthquake, tidal wave and pestilence.

"We, of this land of sunshine and flowers, should stretch out a helping hand to the unfortunates who have suffered from the effects of the terrible calamity, and liberally respond to the appeal that is being made to alleviate to some extent the suffering of the survivors, in this faraway land.

The undersigned, representing the city of Los Angeles, and its commercial and civic life, appeal to the kind-hearted people of Los Angeles, who have never been asked in vain in time of distress and sorrow, to send their subscriptions to Niles Pease, president of the Los Angeles City Council.

The appeal is signed by Mayor Harper, Niles Pease, president of the City Council; T. L. Duque, Dean of the Consular Corps; J. M. Schneider, president, and F. J. Zeehandelaar, secretary of the Merchants' and Manufacturers' Association; George H. Stewart, president, and Frank Wiggins, secretary of the Chamber of Commerce; J. O. Koepfli and C. D. Willard of the Municipal League.

Signor Pietro Buzzi is arranging for the monster benefit performance to be given, Sunday afternoon, at the Mason Operahouse. The Lambardi Grand Opera Company, The Belasco, Burbank, Majestic, Orpheum and Unique Theaters will each contribute a number, and the programme is to be arranged at a meeting of the committee this morning at 11 o'clock, in the offices of the Morris Orsatti Steamship Company. Mayor Harper will sell at auction the box seats for the performance, at 2 o'clock tomorrow afternoon, at the Mason Operahouse.

GOV. GILLETT'S APPEAL. FOR RED CROSS.

[ASSOCIATED PRESS NIGHT REPORT.]

SACRAMENTO, Dec. 31.—Gov. Gillett issued an appeal today, calling upon the citizens of the State to contribute money to relieve the earthquake sufferers in Southern Italy and Sicily.

The Governor suggests that committees be organized to take charge of the collections and forward them to Allen Knight, treasurer of the Red Cross Society, No. 502 California street, San Francisco.

San Jose Mayor Asks Aid.

SAN JOSE, Dec. 31.—Mayor Davison last evening issued a call for aid for the earthquake sufferers in Italy, contributions to be handed to the local officers of the Red Cross. The local Italian residents have called a mass meeting of Italians to be held here Sunday afternoon to raise a fund for the sufferers.

Busch Gives $25,000.

ST. LOUIS, Dec. 31.—Adolphus Busch sent a telegram from Pasadena, Cal., today directing that $25,000 be subscribed toward the Red Cross fund for relief of the earthquake sufferers.

AMERICAN INSPIRATION.

SUPPLIES FOR FLEET DIVERTED TO SICILY.

[ASSOCIATED PRESS NIGHT REPORT.]

NEW YORK, Dec. 31.—The United States supply ship Celtic, which was to have met the returning battleship fleet with holiday cheer, sailed out of New York harbor this afternoon on an entirely different mission, but without changing a single item of her cargo. She will go direct to Messina to give a million and a half of navy rations to the earthquake sufferers.

The idea of changing the Celtic into a relief ship came to her commander, Harry McL. P. Huse, last night. It met with the immediate approval of Rear-Admiral Casper F. Goodrich, commandant of the navy yard, who promptly communicated with the State Department at Washington. Red tape was quickly cut, necessary preparations were hurried, and the Celtic sailed with Christmas trees still lashed to the mastheads. It had been designed to make the Celtic the Christmas ship for the fleet.

In the face of the overwhelming need of the Italians the department is considering its own men second; how they will be provided with food is something that will be considered later.

The Navy Department takes full responsibility for this sudden gift of government supplies to the Italians, and the expectation is that Congress will be only too well pleased at this evidence of American pluck and "get there" qualities of the American navy.

Just as its ships were the first to reach Kingston after the West Indian earthquake, so the American naval flag on the Celtic may be the first to bring actual food supplied to Messina from any country.

The ship was dispatched less than eighteen hours after her captain conceived his humane idea.

BLAKE GIVEN FOUR YEARS.

Contractor Who Attempted to Bribe Ruef Juror.

District Attorney Asks for Light Sentence.

Murphy Said to Have Hired Him, Goes Free.

[ASSOCIATED PRESS NIGHT REPORT.]

SAN FRANCISCO, Dec. 31.—E. A. S. Blake, the contractor convicted of attempting to bribe J. M. Kelly, a prospective Ruef juror, to vote for acquittal, was sentenced today by Judge Dunne to four years' imprisonment in the penitentiary at San Quentin.

Appeals for a light sentence were made to the court by Dist.-Atty. Langdon, Attorneys Matt I. Sullivan and Barclay Henley, who based their plea on the ground that Blake had made a full confession, stating that he committed the crime at the instigation of Frank J. Murphy and A. S. Newburgh, two of Ruef's attorneys, who were indicted on his testimony before the grand jury.

Blake was also an important witness for the prosecution at the recent trial of Murphy, who, however, was acquitted by a jury.

Blake will also be the principal witness for the prosecution at the trial of Newburgh, which is set for January 5.

COLORADO BROKE BANKS.

Several Farms Below Yuma Inundated During Recent Rise in the River.

[SPECIAL CORRESPONDENCE OF THE TIMES.]

YUMA (Ariz.) Dec. 29.—With the late rise in the Colorado, seven breaks were made in the levee south of Yuma, within a distance of a couple of miles. Several farms were inundated and a number of families were compelled to vacate their homes for the time being. No lives were lost and the damage is such that small loss will ensue. The levee can readily be rebuilt and strengthened as soon as the river falls to a normal stage.

The coffer dams at the Laguna dam stood, though only with the use of sand bags. It is probable that another foot of raise would have been almost too much for the Reclamation Service force to combat and that the river fell just in time to save weeks of labor and the immense amount of money needed to rebuild the coffer dams. Now it seems to be assured that the permanent dam will be completed across the stream before the time for the late spring floods.

NAT GOODWIN AT RENO.

[ASSOCIATED PRESS DAY REPORT.]

RENO (Nev.) Dec. 31.—Nat C. Goodwin and his bride, accompanied by fourteen trunks, arrived here today from New York. Goodwin comes to appear in the suit brought by Warren Miller to dissolve the Nat C. Goodwin Brokerage Company of Reno. The case is in progress in the District Court.

GOLD AND SILVER PRODUCTION.

FALLING OFF FOR YEAR.

[ASSOCIATED PRESS DAY REPORT.]

WASHINGTON, Dec. 31.—The United States produced $90,435,700 worth of gold and $37,299,700 worth of silver in 1907, according to statements obtained from mints assay offices, smelting establishments and the products of mines. As compared with the previous year 1907 showed a decrease of $4,000,000 in gold production and about $1,000,000 decrease in the silver production.

BILLY SUNDAY CARRIES GUN.

YEGGMEN SENT TO KILL HIM.

[ASSOCIATED PRESS NIGHT REPORT.]

SPOKANE (Wash.) Dec. 31.—Evangelist "Billy" Sunday is carrying a revolver in his hip pocket and so is every man in his party.

A letter from a converted ex-convict has brought warning that two yeggmen—"Brickyard Jimmie" and "Kid" Harrington—just out of Joliet prison, are believed on their way to Spokane, having been promised $2500 if they will kill Sunday.

The evangelist and all the men in his party promptly bought guns. They charge that Illinois saloon men are trying to put the revivalists out of the way to prevent the proposed revival meeting at Springfield during the coming session of the Legislature.

ARIZONA LEADS IN COPPER.

PRODUCTION INCREASING.

[ASSOCIATED PRESS NIGHT REPORT.]

PHOENIX (Ariz.) Dec. 31.—The Board of Trade, which has had a copper expert working for some time past on the copper output of Arizona for the last year, who has been in communication with the principal producers of the Territory and with experts in Michigan and Montana, announces tonight to the Associated Press that the total output for the year will not fall below 274,000,000 pounds of finished copper. This makes Arizona again the world's leader in copper production. An estimate received from Horace J. Stevens, the best authority on the Michigan field, places its output at 220,000,000 pounds. A careful estimate of Montana's output for the year places the production of that State at 244,000,000 pounds. More sanguine estimates give a further total output of Arizona for the year at 300,000,000 pounds, but the Phoenix Board of Trade believes the estimate is too high. Arizona's larger copper producers are now in the best condition and are well prepared to make a great output next year if the price of copper furnishes an incentive. The output for the last two months has been at the rate of 250,000,000 pounds a year. Arizona produces this great volume of copper at a lower average cost than any other copper country in the world.

BANK CLEARINGS GAIN.

LAST WEEK OF YEAR.

[ASSOCIATED PRESS NIGHT REPORT.]

SAN FRANCISCO, Dec. 31.—Bank clearings in San Francisco for the week ending at noon today, as reported by the California Promotion Committee, were $36,141,994, an increase of 16.2 per cent. over the corresponding week of 1907.

Los Angeles clearings $8,627,842, a gain of 24.3 per cent.; Oakland clearings $1,566,070, a gain of 44.6 per cent.; San José clearings $342,257, a gain of 6.8 per cent.; Stockton clearings $416,941, a gain of 22.8 per cent.; Sacramento clearings $764,831, a gain of 18.9 per cent.; Fresno clearings $408,851; San Diego clearings, $693,547.

CLAUDIANES TRIAL PUT OFF.

COUNSEL BUSY LAWMAKING.

[ASSOCIATED PRESS NIGHT REPORT.]

OAKLAND, Dec. 31.—The trial of John Claudianes, who is charged with dynamiting the residence of James L. Gallagher in this city, has been continued until April 2, 1909. Assemblyman Nat Coghlan, who appeared before Judge Waste in behalf of Claudianes today, obtained the continuance on the ground that he will be in attendance at the legislative session.

CATERER COHN PAID.

NO BONUS FOR POISONING.

[ASSOCIATED PRESS NIGHT REPORT.]

VALLEJO, Dec. 31.—At a meeting today of the joint committee which had charge of the entertainment in connection with the launching of the government collier Prometheus an order was made directing the payment to Caterer Leon Cohn of San Francisco of the remaining $500 due him. A bonus of $75 promised the caterer in the event of the luncheon being satisfactory was refused on the ground that a wholesale poisoning of guests followed the meal.

WANTS BIG MULE FARM.

OPTIONS ON OIL.

[BY DIRECT WIRE TO THE TIMES.]

RED BLUFF, Dec. 31.—[Exclusive Dispatch.] An unknown man, giving the name of Miller, has been securing options lately on all the ranches along the foothills for twenty-five miles in a strip five miles wide. He claims to want the land to start a mule farm, but the people believe some other motive is behind the operations. The fact that oil indications have been found there and that an expert not long ago visited the section seems significant.

PASO ROBLES, Dec. 31.—Gov.-elect Cosgrove of Washington, who has been ill at the springs here for some time, is in greatly improved condition. Without doubt he will be able to reach Olympia by January 11.

New Year Opens Dry.

VACAVILLE, Dec. 31.—[Exclusive Dispatch.] At midnight tonight licensed saloons ceased to exist in Vacaville in accordance with ordinances approved by voters at the last city election, when they voted overwhelmingly to make Vacaville a dry town. So far there is no indication that there will be any opposition to the new law, and all saloons have apparently decided to quit.

The work of recovering bodies from the mines of the Lick Branch colliery is being pushed rapidly. Thirty-seven miners have been taken out dead, and it is thought there are six still in the mine.

Prisoner Was Socialist Labor Candidate.

[ASSOCIATED PRESS NIGHT REPORT.]

CARSON CITY, Dec. 31.—Application for pardon was filed with the Secretary of State today by those representing M. R. Preston, Goldfield labor leader, who is serving a twenty-five-year sentence in the State Penitentiary for the killing of John Silva, a Goldfield restaurant keeper, in 1907.

Preston and a man named Smith were jointly tried and convicted last year, Smith being sentenced to five years' imprisonment as an accessory in the crime. An appeal for a rehearing of the case was denied by the State Supreme Court some time ago.

Since that time many of the Goldfield labor leaders have been in this city preparing to file the application for pardon, which will be considered at the January meeting of the Board of Pardons, and it is stated that they are prepared to offer new evidence in behalf of the prisoners at that time.

Preston was chosen as Presidential candidate of the Socialist Labor party during the last Presidential campaign, but owing to his imprisonment was represented by a proxy during the campaign.

KING CARNIVAL RULER.

HILARIOUS NIGHT ON MARKET STREET.

[ASSOCIATED PRESS NIGHT REPORT.]

SAN FRANCISCO, Dec. 31.—King Carnival ruled supreme in this city tonight, ruled over the gladdest, maddest, merriest New Year's eve celebration ever known in the city that has given that night of all the year over to an abandonment of joy for many decades past. It was not only the passage of the old year and the birth of the new that stirred the vast throngs which jostled and laughed the hours away on the busiest thoroughfare, but the thought that Market street, where the New Year's eve carnival first started so many years ago, is again a shopping center, flanked on both sides with bigger and better buildings than those which were destroyed in the fire of 1906.

Three separate celebrations took place simultaneously tonight—that on Market street, which was brilliantly illuminated from the Ferry building to Van Ness Avenue, a distance of fifteen blocks; that on Fillmore street, which has earned for itself the name of the "Little White Way," since the fire, and where a forest of Christmas greens blazing with electric lights covered many blocks; and that on Mission street, the new business section far out toward the city's southern boundary. It is estimated that fully 300,000 people composed the seething, ever-shifting tide of humanity which wandered restlessly and noisily along these thoroughfares tonight.

The Market street celebration was perhaps the greatest, although Fillmore street was packed to suffocation throughout the night.

From early dark, the merrymakers were gathering, defying the mist and rain which came with sundown, the crowds growing more and more dense as the hours went by, until the operation of the street cars became impossible and service was suspended. The main feature of the Market street carnival was the automobile parade, in which close to 1000 cars, loaded down with laughing, care-free men and women, took part. As the cars swept down the lane that was opened for them between walls of cheering, horn-blowing, noise-making humanity, a steady bombardment of confetti was kept up by both sides and the streets were soon littered with the tiny, multi-colored fragments of paper.

In a dozen different places along the street bands were stationed and throughout the night these were surrounded by swaying, laughing crowds dancing the old year to death to the tune of waltz or two step. In the big cafés not a vacant seat was to be found from dark until the new year was many hours old.

Thousands of men and women watched the year out in these brilliant establishments and as the last hour of the year approached a veritable salvo of popping champagne corks greeted the passing of the old and coming of the new.

But, despite all the fun and frivolity of the night, there was little need for the host of police officers so carefully disposed about the streets. San Francisco maintained its reputation as a city of good-natured crowds and there were few accidents or unpleasant incidents to mar the opening of the new year. It was a wild, fun-loving spirit that animated the throngs as the New Year's eve spirit has always been in San Francisco.

Happy New Year To Our Patrons:

We join with you in bidding farewell to 1908 with its joys and its sorrows, its triumphs and its disappointments, likewise in saying "Good morning" to 1909, and wishing that it may prove to be a year which will bring to you all happiness and, prosperity and many "good things." By this time you have learned where to get "Good things to eat"—in fact, where there there is "nothing but good things to eat." Therefore it must be "so different"—and the Cafeteria with this significant appellation is the place par excellence. It is located on the second floor of the Bumiller Building, 430 South Broadway. Easily found, but never forgotten. Today the "So-Different" will be closed in order to give our overworked employees a much-needed day of rest and one to which they are justly entitled.

If perchance you should be disappointed today in not being able to get "good things to eat," remember the "Golden Rule," and the assurance we now give you that on the morrow we shall be better prepared than ever before to serve you in an acceptable manner—and this we are determined to do.

Again wishing you a Happy New Year, yours for business,

LIFE'S SEAMY SIDE.

PARENTS CALL HAINS INSANE.

Father and Mother Tell Sad Story on Stand.

Claudia Hains's Confession Is Read to Jury.

She Met Annis at Apartment Many Times.

[ASSOCIATED PRESS NIGHT REPORT.]

FLUSHING (N. Y.) Dec. 31.—Gen. Peter C. Hains, U.S.A., and his wife, Mrs. Virginia P. Hains, parents of Thornton J. Hains, were witnesses in their son's behalf today and their testimony brought out in full detail the relationship of Mrs. Claudia Hains and William E. Annis that caused the estrangement of Capt. Hains and his wife.

Gen. Hains declared that in his presence, and before his two sons, Peter and Thornton Hains, the captain's wife, Claudia Hains made a full confession of her misconduct, and that subsequently Capt. Hains manifested such poignant grief from the disclosures that his mental condition became affected. The confession, which Gen. Hains declared his son's wife had signed on the day following Capt. Hains's return from the West, was read to the jury. Gen. Hains made a strong witness for his son and counsel for the defense asserted that the evidence was now conclusive that Capt. Hains was mentally unbalanced when he shot Annis and the act was his sole doing. The general will be under cross examination again Monday.

Though the wife of Gen. Hains wept many times during her story the defense drew out facts that Hains in his early life evidenced physical weakness and, which counsel will endeavor to prove through three experts, were a predisposing cause to insanity. Gen. Hains was permitted to say, that his father died from insanity.

Justice Crane directed Dist.-Atty. Darrin, whose term of office expires tonight, to continue as the prosecutor in the case. The direct testimony of Gen. Hains was in nowise shaken by the long cross examination.

Justice Crane held that the general had only been permitted on his direct examination to state what he had told the captain and what the captain had told him. Gen. Hains said he never heard his son, Thornton, express animosity toward William E. Annis.

In a voice almost inaudible Mrs. Hains told of the childhood of Capt. Hains. Tears came, and putting her handkerchief to her face, she wept for several minutes.

Justice Crane spoke to her quietly, telling her to calm herself and take her own time.

Mrs. Hains said that Peter was a delicate child, and there was little thought that he would live. She said he had ear and eye troubles when 2 years old.

Mrs. Hains said when she saw her son he seemed worried and haggard. She broke down again during the recital of her story, most of which the jury could not hear because of the low tones in which she spoke. Mrs. Hains said:

"My boy put his arms around me and cried, 'My poor mother, what have I done that she should have disgraced me?'

"I noticed spells of silence, and then he would hide his face in his hands. Again, he would read Kipling's 'Vampire,' and made comparisons with the woman in the poem and his wife. He read the poem often, and sometimes he sang an air from 'Il Trovatore' and vaudeville songs."

Mrs. Hains said that her son visited her for a week in Washington, and all during the visit she noticed the strange signs in "Connie" (her name for Capt. Hains.)

"From your son's acts and what he has said, do you consider him rational or irrational?"

"I consider him irrational," said Mrs. Hains.

Gen. Hains was asked this question: "Do you know of what your father died?"

"Yes. He died of insanity in 1891, or 1892."

Gen. Hains said he taxed Claudia for what had happened, and she replied that she did not know why she had done it. He described Capt. Hains's appearance when he heard what his wife said. Gen. Hains said he had another interview with Claudia Hains and then told Capt. Hains what she had said:

"I said to the captain," continued Gen. Hains, "that I put my hand on her head, saying, 'is it possible that these things are true?' and she said, 'Yes, it is true. I am in love with Annis, and he is in love with me.' I asked her if 'Connie' had not been good to her, and she replied that he had."

The general further said that Claudia Hains had admitted to him that she had had difficulty. Later in the day Gen. Hains said Capt. Hains, Thornton Hains, Mr. Bennett, a lawyer; Claudia Hains and himself met in the parlor.

Mr. McIntyre then read aloud to the jury the paper which the defense contends overthrew the reason of her husband, Capt. Peter C. Hains, Jr. It was signed by Mrs. Hains on May 31, 1906.

It related that within a month after Capt. Hains left Ft. Hamilton, Oct. 2, for the Philippines, Mrs. Hains began improper intimacy with Annis. There were many clandestine meetings during the winter, ten or twelve, says the signed statement, always at an apartment on East Ninth street, and always in the day time, except once.

Continuing, the statement says that in April, as a result of her relations with Annis, Mrs. Hains found it necessary to call upon a physician in New York. After describing in detail the treatment she received from the doctor, the statement concludes that Mrs. Hains after this treatment stayed at a hotel with a woman for a week.

Mrs. William E. Annis sat at the far side of the courtroom during the reading. Gen. Hains said that Capt. Hains was much excited during the taking of the confession, crying aloud:

"My God, she has ruined me, my family and my three children."

SLAIN CLERK'S FUNDS SHORT.

Colorado Springs Police Believe Woodman Official Was Killed After Being Robbed.

[ASSOCIATED PRESS NIGHT REPORT.]

COLORADO SPRINGS (Colo.) Dec. 31.—A sensation was caused here today when it was announced that the Auditing Committee of the Pikes Peak Lodge, No. 5, Woodmen of the World, of which camp C. P. Essick was clerk for twenty years, had discovered a shortage of $600 in Essick's funds. Essick kept the funds at his house.

The police believe the money was taken by the person who killed Essick, and that the killing may have been done to cover the theft. Essick kept the funds in a desk which could be easily opened.

Coroner Law today filed a death certificate stating that Essick was the victim of homicide, but no warrants have yet been sworn out. The Coroner's certificate gives the stab wounds as the cause of death, but makes no mention of the gunshot wound, which is now believed to have been made several hours after death.

SENTENCED TO HANG.

RECENTLY RECEIVED FORTUNE.

[ASSOCIATED PRESS NIGHT REPORT.]

SPOKANE (Wash.) Dec. 31.—Frank Barkar, convicted of the murder of Ira Messinger, at Medical Lake last July, was sentenced by Judge Hinkleman today to suffer the death penalty by hanging. The date of execution was not fixed, pending an appeal to the Supreme Court. Barkar, who was a penniless soldier belonging to the Third Infantry, has received news since the murder that he had been left a small fortune by the death of his father.

ON BROADWAY.

NEW YORK IN WILD REVELRY.

CELEBRATION ESTIMATED TO COST $2,000,000.

Hotels and Cafes Crowded With Throngs Who Spend Money Recklessly for Dinners and Wines—Festivities Annually Growing More Extravagant and Reckless.

[BY DIRECT WIRE TO THE TIMES.]

NEW YORK, Dec. 31.—[Exclusive Dispatch.] Adieu, Old 1908, and your memories of the wildest orgy this money-mad city ever beheld. Greetings, New 1909!

Modern New York, drunk with its gold and passion, heard naught for tonight's New Year's Eve, but the cannonading of corks, the clinking of glasses, songs, cheers and revelry, and then—oblivion, as the rattle of the milkman's wagon rocks a stupefied city into the first slumber of a new year. It's how New Yorkers celebrate a New Year—distinctive, characteristic and wonderfully abandoned. It's a night for a first nighter.

Mine host was master of the revels. His sway was absolute. He bade his subjects eat what he offered, drink what he proffered, and said who may and who might not enter the sacred portals of his tavern, and then placed a price on every head. It was his feast. And what a price!

Last season it was estimated that 75,000 persons assembled and toasted 1908's début. At $5 a plate—an edict as unalterable as "nothing but champagne after 10:30,"—at least $375,000 went for dinners. An average of two quarts of wine each is pitifully conservative, and there you have $500,000 more and carriages, tips, lost cash, stolen jewelry, doctor's bills, etc., easily made up the grand total of a $2,000,000 celebration.

And all this for New Year's, when ten years ago little was done along Broadway. And now other cities are taking up the idea. In ten more years will all of Uncle Sam's subjects be drinking in a welcome to a new year?

GAY NIGHT IN CHICAGO.

Million Dollars Spent in Windy City, Celebrating Advent of the New Year.

[BY DIRECT WIRE TO THE TIMES.]

CHICAGO, Dec. 31.—[Exclusive Dispatch.] With the passing of the old year and the dawn of the new was witnessed one of the greatest New Year celebrations in the history of Chicago. It is estimated by hotel men, restaurant keepers and dealers in noise-making devices that more than $1,000,000 was the total cost of dismissing the old year and ushering in the new.

Hotel proprietors and restaurant keepers were swamped with requests for accommodations and extraordinary prices were paid for tables.

Huge supplies of horns, whistles, and other ear-splitting devices were put in stock and when Chicago turned loose its noise the old year was glad to step aside.

Many New Year parties were arranged in all the downtown hotels and restaurants, while nearly all the big clubs kept open house.

TURN OVER NEW LEAF.

THOUSANDS REPENT.

[BY DIRECT WIRE TO THE TIMES.]

CHICAGO, Dec. 31.—[Exclusive Dispatch.] Bowing their heads in silent prayer, and then, as the tolling of the bells marked the passing of the old year, bursting into the singing of the long-meter doxology, 12,000 persons tonight welcomed the coming of the new year at the Coliseum.

It was a grand festival of gospel song. A trained choir of 3000 voices, under the leadership of Dr. D. B. Towner, led the vast assemblage in song. World-famous evangelists exhorted sinners to repent of their sins before the passing of the old year in order to begin the new year aright. The vast assemblage of praying people, men and women, arose in their seats and cried aloud their repentance.

YOUNG WESTINGHOUSE TO WED.

Son of Famous Inventor Will Marry Miss Ethel Brockelbank, an English Beauty.

[ASSOCIATED PRESS NIGHT REPORT.]

PITTSBURGH, Dec. 31.—The marriage of George Westinghouse, Jr., son of the famous inventor, to Miss Ethel Brockelbank, an English beauty, daughter of Sir Thomas Brockelbank, a wealthy ship builder of Liverpool, will, it is said today, take place the latter part of January, in Cumberland county, England. Young Westinghouse, whose recent illness caused a postponement of the marriage, is rapidly convalescing.

BROTHER OF BISHOP HUNGRY.

WALKS STREETS OF ST. LOUIS SEEKING WORK.

James P. Moreland Tells Story of Elopement and Failure to Find Employment—Could not Secure a Place as Dishwasher and Ate Infrequently in Five-cent Lunchroom.

[BY DIRECT WIRE TO THE TIMES.]

ST. LOUIS (Mo.) Dec. 31.—[Exclusive Dispatch.] James P. Moreland, who has letters indicating that his brother is Episcopal bishop of California, walked into the Post Dispatch office today, nearly starving, and told of several weeks' fruitless quest for work.

"I am an experienced hotel man, and I can do any sort of clerical work," he said. "I am not afraid of manual labor, but cannot get a job even as dishwasher. When I have the money I eat in a 5-cent lunchroom on Market street."

Then he described his elopement when in financial straits, his fiancée having become impatient to wed.

"We went to Bellevue, May 11, but could not get a license. The next day we went to Edwardsville, and were married by an Episcopal minister. When he heard my name he asked me if I knew Bishop Moreland of California. I told him we were brothers, and then he gave my bride and myself a little impromptu wedding dinner.

"I had to go to work, but the only thing I could get to do was driving a solicitor's wagon for the Salvation Army in the West End. That did for awhile. Meanwhile my wife went with her mother to their Kansas City home."

OBITUARY.

Dr. Charles F. Keiffer.

CHEYENNE (Wyo.) Dec. 31.—Dr. Charles F. Keiffer, one of the foremost surgeons of Wyoming, died here last night of appendicitis. Dr. Keiffer had the rank of major in the United States army. He was retired a year ago because of poor health.

Jacob Mayer.

PORTLAND (Or.) Dec. 31.—Jacob Mayer, a pioneer of Portland, and member of the wholesale dry goods firm of Fleischner, Mayer & Co., of this city, with branches in Spokane and Seattle, the largest wholesale house in the Pacific Northwest, died today of old age. Mr. Mayer was born in Hesse, Darmstadt, Germany, on May 7, 1824. He came to America in 1842 and lived in New Orleans until 1849, when he started for the Pacific Coast. He came to Portland in 1857. Mr. Mayer was the oldest and best known Mason on the Pacific Coast, and has a world-wide reputation in the Masonic order. He was the Pacific Coast representative of the Grand Lodge of England, having been appointed to that position by King Edward when the King was the Prince of Wales.

USED CRIB AND WATER CURE.

Kansas Penitentiary Warden Defends Methods Used in Dealing With Convicts.

[ASSOCIATED PRESS NIGHT REPORT.]

FORT LEAVENWORTH (Kan.) Dec. 31.—The "crib" and the water cure have been used until recently in the Kansas State Penitentiary at Lansing, to subdue refractory prisoners, according to a statement made here last night by Warden W. H. Haskell at a joint meeting of an investigating committee appointed by the Governors of Oklahoma and Kansas.

The investigation is the outcome of charges made by Miss Kate Bernard, State Inspector of Prisons and Charities of Oklahoma, who alleged that the prisoners of that State sent to the Kansas institution are mistreated.

Warden Haskell spoke with feeling in defending the prison management, and urged a full and prompt investigation. He said:

"The 'crib' is something that has been in use here for a great many years, but which we have used little and recently took it from the room where it was kept as we considered the room more desirable for other purposes.

"The so-called water cure has been used in a very few instances, and then only on incorrigible prisoners. It consists of handcuffing a man and confining him in a sitting posture and turning water on him from an ordinary garden hose. The water was never forced down his mouth, nor did it ever result in any physical injury, it always being used under the direction of the prison physicians."

Dr. S. J. Crumbine this morning personally examined an unusually large number of men who were reported sick.

He promptly charged a number with shamming, and ordered them sent to the mines.

Later the committee made a trip through the prison, talking informally with the prisoners. They ate lunch with the prisoners and pronounced the food good.

The committee today wired Attorney-General Fred S. Jackson at Topeka to come to Leavenworth and act in the capacity of master.

WOMEN GAMBLERS ANGRY.

[ASSOCIATED PRESS DAY REPORT.]

CHICAGO, Dec. 31.—Detectives of the Law and Order League were busy last night taking evidence of gambling on the part of women in various halls throughout the city. The entrance of the detectives turned the assemblages into mass meetings denouncing the so-called "spotters." The women, in their indignation, gave the detectives valuable information concerning the other games. They urged the detectives to visit a certain West Side game, promising them that the women who conduct it would throw them down the stairway. "This gambling among women of all classes of society," said Arthur Burrage Farwell of the league, "has taken such a strong hold upon them that they neglect their homes and families. Some of them play both afternoon and evening and we shall be compelled to arrest some of them before they will stop."

SUSPECT BIG REBATES.

[ASSOCIATED PRESS NIGHT REPORT.]

CHICAGO, Dec. 31.—The inspection of documentary evidence concerning $100,000 in freight claims paid to the packing firm of Morris & Co., by various railroads, was concluded by the Federal grand jury today, and adjournment taken until Monday. The grand jury will try to ascertain whether these claims were legitimate or were a cloak for rebates.

SIGMA NU CONVENTION.

[ASSOCIATED PRESS DAY REPORT.]

CHICAGO, Dec. 31.—Sixty college chapters and forty alumni associations are represented in the Fourteenth Biennial Grand Chapter of the Sigma Nu Fraternity which opened today. Francis V. Kisling of San Francisco called the session to order.

FOUND DEAD IN BED.

[ASSOCIATED PRESS DAY REPORT.]

HOT SPRINGS (Ark.) Dec. 31.—A man who registered at a local hotel as "Rowen," without initials, or address, but who later was identified as A. J. Rooney, an employé of the Union Pacific Railroad, somewhere in the West, was found dead in his apartments this morning. His death resulted, it is believed, from an overdose of morphine. When registering, the man declared he was a railroad contractor.

TRAIN ROLLS DOWN BANK.

[ASSOCIATED PRESS NIGHT REPORT.]

DULUTH (Minn.) Dec. 31.—A passenger train on the Duluth and Mesaba Railroad was wrecked by a broken rail near Spruce Junction today. Three coaches rolled down an embankment, and several persons were injured, although none was reported killed. Mayor Hanker of Sparta, Minn., Superintendent Sullivan of the Gilbert mine and Mrs. Sullivan and Joseph Krall of Sparta, were among the seriously hurt.

"IT'S AN ILL WIND"

Big Fire in the Store of The Wiley B Allen Co., Saves Thousands for Piano Buyers

Fresh in the memory of every citizen of Los Angeles County is the spectacular fire which occurred at 416-418 South Broadway on Christmas eve, and which destroyed the whole upper floors of the building occupied by the Wiley B. Allen Co., the greatest piano selling organization in the West.

And what a fire it was. At 9:50 p. m., with the street crowded with Christmas shoppers, everyone in the Allen store was startled by a small boy who ran in yelling, "Hey, Mister, your roof's on fire." Instant action was the result. Within three minutes after the first alarm, pianos, talking machines, etc., were being rushed off of the main floor into the adjoining building at 428 So. Broadway by four score of willing men who rushed to the assistance of the house organization. In the meantime another crew of equally energetic hustlers were busy on the second floor rushing to front and rear elevators the magnificent Knabe, and Mason & Hamlin grand pianos, the beautiful art uprights and player pianos with which that floor was stocked. Such piano moving has never before been witnessed in Los Angeles or on the Coast. Think of it! 257 pianos moved under cover of a new roof in less than forty minutes. The accompanying picture of the main salesroom, taken by flashlight, shows how complete was the work, how perfect the hurried organization.

NO DAMAGE EXCEPT BY HURRIED MOVING.

Strange as it may seem, practically all of these pianos escaped any damage at all by water. Few pianos only remained on the second floor when the water, which was being pumped in through fourteen lines of hose, began coming through the ceilings. These were water damaged—some slightly, one or two badly. In the main, however, the only damage was by rough handling. Some cases were badly scratched; others bruised; some pianos had casters broken off—two were overturned and badly smashed—but in all cases the vital part of the piano, sounding board, action, escaped any injury whatever, all damage being external and plainly visible.

INSURANCE CLAIMS SETTLED.

Since Christmas day we have been busy with our insurance adjusters. Yesterday the final figures were agreed upon. Every claim was allowed on pianos, talking machines, music rolls and small goods, furniture, fixtures, partitions, improvements, etc., and we believe the settlement to be the most liberal ever negotiated in Los Angeles.

$20,000 SAVED TO PIANO BUYERS.

On Saturday morning at 9 o'clock the doors of our temporary quarters at 428 South Broadway will be opened for the beginning of the greatest money saving piano sale ever inaugurated on the Pacific Coast. Reductions in the price of standard pianos will be greater and terms more attractive than has ever been possible to this or any other house. The most favorable settlement of our insurance claims is what makes possible these prices, and the price tagged on each piano will be based on the insurance allowance on that particular instrument. In no case will the saving be less than $100, and in most instances it will be between $200 and $300. New, elegant, high grade pianos barely scratched go at $135, $147, and $167—usual price $275 to $300. Cash or easy payments. There are some used pianos in good condition as low as $39. A $500 Packard at $219. Knabes, Mason & Hamlins, the favorite Hardman, the beautiful Conover, and the most popular Ludwig bear the same relative reductions. $360 Kingsburys go at $219. The $750 Euphona Player piano at $480. A special $400 value at $187, barely scratched. There are others. 257 pianos in all and every one to be closed out within two weeks' time.

SALE BEGINS SATURDAY MORNING.

At 9 o'clock Saturday morning this sale begins. Yours the opportunity and yours the fault if you do not make for yourself a saving of $150 to $200 on a beautiful new piano.

Back of each piano sold is the unimpeachable guarantee of the Wiley B. Allen Co., and also an agreement for one year at full purchase price should any piano prove unsatisfactory or any defect develop at a later date. This is a safe and sane proposition. It is on the square, and the biggest money saver ever placed before the Los Angeles public. Terms are what you wish them. A small first payment and the balance in monthly installments.

VIOLINS, GUITARS AND SMALL INSTRUMENTS.

Our entire stock of violins, guitars, mandolins, band instruments, etc., will go at the same remarkable reductions, nearly all are practically unharmed. 100 $15 and $20 violins will be sold at $5 to $6.50. 35 $12 guitars at half price. $10 guitars at $4. Sheet music and books slightly damaged by rough handling at one-half price. Universal and Angelus music rolls almost perfect at from 30c to 50c per roll.

See our further announcements. Saturday morning at 9.

HAPPY WELCOME.

JOLLY ROOTERS HAIL NEW YEAR'S ARRIVAL.

WITH blare of horns, shrieking of whistles and clanging of bells and tin cans, the New Year was ushered in last night. For hours crowds paraded the streets and it was a merry crowd, too. The tumultuous noise began about 9 o'clock in the evening and continued until the "owl" cars left the downtown district at 3 o'clock this morning.

Although the police estimate that there were nearly 100,000 people downtown during the evening, no arrests were made and no cases of malicious mischief were reported.

Besides the crowds, dozens of automobiles tore up and down the streets with exhausts open and mufflers off adding volumes of noise. All the noise ordinances were obliterated for the night and the police were ordered not to interfere with the merry-makers so long as no malicious mischief was done.

Crowds of rooters from Occidental College and the Los Angeles High School were out in force about midnight with a drum corps. In lock step they marched about the streets until early this morning, singing and cheering.

In the cafés there were a number of fashionable dinner parties, and there was plenty of good cheer. The theaters were unusually crowded and the patrons joined in the crowds on the streets and at the café after the plays until the old year departed.

From midnight on, the Los Angeles railway and the Los Angeles-Pacific ran extra cars to carry the crowds home on all of the lines. The 2 o'clock cars were so crowded that cars were run an hour later on several lines in order to gather up the last of the merry-makers.

GOOD NEWS.

SIX CLUBS IN BALL LEAGUE.

Berry Says This Number Is Now Assured.

Made Possible by Jumping of Sacramento Club.

Orendorff Signs to Catch for Los Angeles.

There will be six clubs in the Pacific Coast League the coming season and continuous ball for Los Angeles.

This was the statement given out last night by Henry Berry, president of the Los Angeles Baseball Club, and it is due to the report that Charley Graham of the Sacramento team has decided to cast his lot with organized ball.

In speaking of the matter yesterday Berry stated that in all probability the Pacific Coast League will grant franchises for a team in Sacramento and another one in Los Angeles, or some beach town, the idea of course being to have continuous ball in Los Angeles. If this does not prove to be a successful business scheme this year, the league would doubtless take away the extra Southern California franchise next winter, but any action would depend entirely on the conditions at that time.

President Cal Ewing of the Coast League has started for the East to attend the meeting of the National Commission that will be held in Cincinnati next Monday and he evidently came to an understanding with Graham while at Sacramento, or Graham would not have announced his liking for organized ball. This presumed understanding means that there must be some business done by the Coast League in the Capitol city, for Cripp was promised a Sacramento franchise months ago and already has put some money into a park and improvements. Now that Graham has been taken care of it will be necessary to get him and Cripp together, but Berry stated yesterday that everything would be all right and that Cripp would agree to anything.

The two extra franchises in the Coast League will be given only for one year and it is not likely that the men that get them will spend any large amount of money, for the understanding at present is that the Coast League next year or in 1910 will be made up of four clubs in this State and four from the Northwest, providing that the clubs there this year show that they can be made good enough to compare with the present Coast League teams. It is not believed that those clubs can hold their own in this State, for they cannot afford to pay the salaries and have not the population to draw from that the California teams have. This is something the future must determine, however.

When asked if another Los Angeles or beach town club meant that Mayor Harper and Henry Lyons would be granted the franchise, as had been assured them, Mr. Berry said he could not promise that as he did not have the giving out of the franchises, but that those men would certainly be given the preference.

BALL MEETING CALLED.

The Angel City Baseball Association will hold a special meeting next Tuesday, but the business transacted will be only of minor importance. The annual meeting for the election of officers will be held Tuesday, January 12. President Berry understood the annual meeting was scheduled for the first Tuesday in January and called it for that date, but learned later on that it had been set originally for January 12. While a mistake had been made, it does not amount to anything and Berry decided to have two meetings within a week of each other.

ORENDORFF SIGNED.

BERRY LANDS CATCHER.

Harry Lelande, secretary of the Los Angeles Ball Club, yesterday signed catcher J. W. Orendorff for the Los Angeles team the coming season and a contract will probably be sent this week to Artie Ross at Bakersfield, who is also slated to catch for the Champions.

Ross is remembered as the former left fielder of the local team and Orendorff figured in a few games during the latter part of last season. Both are ball players, as all the fans know. Orendorff played with the Peoria team last season. Easterly is supposed to go to Cleveland and Hogan can be loaned to the possible new beach team, if necessary.

EMERYVILLE RACES.

OAKLAND, Dec. 31.—The racing at Emeryville today was again marked by upsets. There were a number of close finishes. Em end Em, which won earlier in the week, again won in a drive from Military Man, while Standover was third. Sempronl, in the fourth, failed to show anything and finished outside the money, Hoyle winning. Results:

Futurity course, purse: El Picaro, 108 (Gilbert,) won; Oesa, 108 (Lee,) second; Light Knight, 105 (Sullivan,) third; time, 1:10 2-5. Footloose, Joe Nolan, Yaskima Belle, Harry Rogers, Incentive, Stroke, Autumn Leaves, Judge Cronin and Bellethorpe also ran.

Six furlongs, selling: Adena, 107 (Mentry,) won; Paladini, 111 (Keogh,) second; Dareington, 110 (Notter,) third; time, 1:14 1-5. Gene Russell, St. Avon, May L. N., Yellowstone, Patricia, Millie R. Berryessa, and Rose Cherry also ran.

Mile, selling: Melar, 106 (Mentry,) won; My Pal, 103 (Scoville,) second; Brookleaf, 112 (Walsh,) third; time, 1:41 1-5. Miss M. Bowdish, Lord Rossington, Eckersall, Steel Blue, I Told You, Lackfoot, Pleiad, Cholk Hedrick, and Long Ball also ran.

Mile, selling: Hoyle, 107 (Keogh,) won; Ornate, 100 (Coburn,) second; Aka Ar Ben, 103 (Scoville,) third; time, 1:41 2-5. Hampton Beauty, The Vicar and Sempronl also ran.

Mile, selling: Em and Em, 114 (Keogh,) won; Military Man, 112 (Russell,) second; Standover, 109 (Notter,) third; time, 1:41 3-5. Little Minister, Etapa, Trust, Rhinock, Charles Green, Warden Yell, Celeres, and Mrs. O'Farrell also ran.

Five furlongs, purse: Cloudlight, 109 (Notter,) won; Desirous, 104 (Keogh,) second; Raconteur, 104 (Scoville,) third; time, 0:59 3-5. F. Nugent, Transmute, Bernardo, Dangerous Girl, Jim Gaffney and Sainwa also ran.

Cubs and Cardinals.

CHICAGO, Dec. 31.—President Murphy of the Chicago National club says Roger Bresnahan's remodeled St. Louis Cardinals will be the first team to face the world's champions in regular contest next spring. The game will be played on the West Side ball park Thursday, April 15.

CHEAP EVENTS AT ARCADIA.

GAMBLING SPORTS SEE ONLY ORDINARY RACING.

Entre Nous in the First Dash and Joe Coyne in the Fifth Astonish the Spectators by Landing First at the Finish—Golly Ding Takes Feature Easily.

The card provided at the Arcadia race track yesterday was only an ordinary one and the good-sized crowd of sports who saw the contests had a hard time trying to pick winners, for there was not much class in any of the events. Entre Nous in the first race and Joe Coyne in the fifth furnished the surprises by winning.

Twenty-eight bookmakers were in line and did good business. There were no features worth even a passing mention, except the sudden awakening of Entre Nous in the first event and Lord of the Forest in the final, the latter running six furlongs in 1:12 1-5.

Seven races are on the card for today and the feature will be the Rose selling stakes for two-year-olds at a mile and a furlong. The attendance is holding up remarkably well. Results:

Seven furlongs: Entre Nous, 102 (Archibald,) won; Lady Irma, 93 (Martin,) second; Grande Dame, 108 (Howard,) third; time, 1:24 3-5. Taunt, Velma C., Summer Cloud and Daruma also ran. Haselthorpe, Jane Swift, Orena, Catherine F., Mary F., Madeline Musgrave and Bemay scratched.

Five and one-half furlongs: Lee Rose, 105 (Schilling,) won; Lawton Wiggins, 108 (Howard,) second; Emperor William, 108 (Powers,) third; time, 1:05 2-5. Armature, Chaffinch, Hamper, MI Derecho and Woolwinder also ran. Paradise Queen, Serlence Suda Clem, Fundamental and Detector scratched.

Mile: Hasty Agnes, 103 (Page,) won; Norbitt, 110 (Howard,) second; Husky, 108 (Miller,) third; time, 1:38. Veil also ran.

Seven furlongs: Golly Ding, 109 (Schilling,) won; Ethel Day, 109 (Powers,) second; Neva Lee, 112 (Miller,) third; time, 1:24 4-5. Earl Rogers, Haensel and J. C. Clem scratched.

Mile and three-sixteenths: Joe Coyne, 104 (Miller,) won; King of the Mist, 109 (Powers,) second; Netting, 104 (Clark,) third; time, 1:59. Monvina, Red Gauntlet, San Bernard and St. Kilda also ran. Arcourt, Sachet and Diamond Nose scratched.

Six furlongs: Lord of the Forest, 109 (McGee,) won; San Nicholas, 113 (Archibald,) second; Free Knight the Bear, 112 (Powers,) third; time, 1:12 1-5. Vivant, Redondo, Old Settler, Senator Burrett and Wisteria also ran. Bardolita, Skyo, Canique, Toller, Belle of Iroquois, La Gloria, Ravaria and Escalante scratched.

TODAY'S ENTRIES.

Seven furlongs: Allen Lee, 104; Altenberg, 107; All Ablaze, 119; Golden Rule, 119; Held, 107; Ivanhoe, 119; Jane Laurel, 102; Kuropatkin, 119; Oriflamb, 111; Ouranna, 117; Uncle Henry, 122; Wistaria, 119.

Three furlongs, 2-year-olds: Albihu, 108; Capt. Morris, 108; Chalun, 108; Flying Squirrel, 108; Green Dragon, 108; Gregora, 108; Slice, 108; Sam Webb, 108; Sepulveda, 108; Tyras, 108.

One mile: A. Muskoday, 109; Elizabeth F., 99; Merrill, 106; Niblick, 106; Oberon, 106; Pretension, 106; Prince of Castile, 106; Varieties, 111; apprentice allowance.

BREAD UPON THE WATERS.

Honorable Act Brings Its Own Reward from a Corporation to One of Its Employees.

One of the happiest men in Los Angeles last night was Charles H. Bridges of No. 917 Fedora street, auditor of the Title Insurance and Trust Company, and for sixteen years connected with that corporation.

The arrest of Robert A. Wurtz, for some time a trusted employé of the company, now in jail for forgery, showed in its true colors one man's perfidy and another sense of honor.

In the course of Wurtz's shady dealings, he sold to J. C. Zimmerman of Anaheim a mortgage that afterward proved to be a forgery. Zimmerman gave his check for $2400 to Wurts for the document, and as Zimmerman was known by Auditor Bridges to be financially responsible, the check was cashed for Wurtz, who converted the money to his own use. It was afterward discovered that the mortgage was fraudulent, and in order to make Mr. Zimmerman whole on the transaction, Auditor Bridges mortgaged his little home in the West Ninth-street tract, securing the money from the Title Insurance and Trust Company. The document stayed in the archives of the company until a meeting of the board of directors was held yesterday morning.

At this meeting a resolution was adopted, and signed by W. H. Allen, president, and O. P. Clark, secretary, reciting among other things in connection with the transaction the following complimentary language: "The Title Insurance and Trust Company authorizes the president and secretary to cancel the note of Charles H. Bridges to the Title Insurance and Trust Company and execute a release of the above-mentioned mortgage without money consideration, and present the same to Charles H. Bridges, on account of his past faithfulness and fidelity to the interests of the Title Insurance and Trust Company."

"I thought I was in honor bound to see that Zimmerman did not lose anything on account of the transaction," said Bridges last night. "The gift is welcome, as it places my little home beyond jeopardy, but the most cherished feature of the transaction is the resolution of the board of directors. That is worth more to me than the money."

A VALUABLE contribution to The Times Magazine the coming Sunday will be Rene Bache's article on "Mummies in the Market." Strange as it may seem, it relates to matters of interest to everybody.

THERE will be an abundance of good fiction in The Times Magazine of the coming Sunday.

GOVERNMENT LANDS— And Land Scrip.

320 ACRES.

As fine alfalfa and fruit land, as you can find in the State of California. No waste. All level. Best proposition in California for the money.

Near 2 growing towns, between Santa Fe and Salt Lake Railroads.

Go out and see the alfalfa growing.

A whole river of water supplies the valley. The finest alfalfa, apple, pear, apricot, peach, prune, cabbage, onion, lettuce, potatoes and sweet potatoe soil.

This land adjoins property right in the town. School, postoffice, barber shop, express office, machine shop, restaurants and hotels—in fact, a lively town.

Think of it. You can own 320 acres by simply using your right to file on the same, prove up, and get a deed from the United States government.

The price of the land is $1.25 per acre; you pay 25c cash per acre to the government, four years to pay the $1 per acre remaining.

You do not have to live on the land.

Having surveyed and looked for good lands all over Southern California, I recommend this as the best land that is open, and ready to file upon.

The wide awake men of California are selecting these lands.

You are gone from Los Angeles just 24 hours.

Spend one day in this valley with our surveyor, and select 320 acres.

Its productiveness is bound to increase its value, so act quickly.

6000 acres have been taken in the last 90 days.

We survey your lands, make out filing papers and maps, all for $1 per acre.

A few pieces left almost in the town, and on the railroad.

JOSEPH H. PARKER, SURVEYOR, 315 SECURITY BLDG., 5TH AND SPRING. F1225.

FOR SALE — SEVERAL RELINQUISHments near Mecca and Indio, in famous Coachella Valley, partly improved, at only from $4 to $17.50 per acre, greatly below actual values." This land will produce 15 tons alfalfa per annum. Seasons four weeks earlier than elsewhere in California. No better land in State for oranges, lemons, grapes, berries, vegetables, etc. Fine dairy, poultry and hog country. Excellent water can be cheaply developed. Magnificent, healthy climate. Also have a few locations of good government land within 100 miles Los Angeles, on railroad; abundant water within 20 feet. Price $1.25 per acre; all expenses except railroad and filing charges paid. Good for alfalfa, fruit, grain. Healthy climate. Do not miss this opportunity of a lifetime. Be independent; act now, before it is too late, and secure the inevitable advance in prices of land. Specialty in State lieu land scrip, fully guaranteed; no residence or improvements required, and titles secured in about 4 months. For other bargains in lands, inquire of WM. A. ECKERLY, 708 Merchants' Trust Bldg. Phones Bdwy. 2404. A5806. 1

FOR SALE—FREE GOVERNMENT LAND. A few more industrious men to join the Paradise Co-operative Colony. Will locate on 50,000 acres of free government land in Southern California; only 300 families can be located; each will receive 160 acres free. Ten miles of water ditch will bring water onto land. Each locater must pay $100 for expenses, surveying, etc. Co-operation will make this colony a grand success. Happy homes and independences, without injury to anybody. The soil and co-operation will work marvels. All colonists must be willing to work on ditch and carry out the principles of co-operation. State age, trade, present occupation, State age, trade, present occupation, wages and financial resources. Address ERNEST R. SMITH, secretary, 124 S. Broadway, Los Angeles, Cal. 1

FOR SALE— YOU CAN TAKE 320 ACRES.

If you are interested in lands that can be taken under the desert act, we are prepared to show you good level land in Los Angeles county. The first party who took land dug a well 20 feet and got water. Come in and let us tell you about it.

HAY & HARDWICK, 3 734 Bryson Bldg.

LILLIAN RUSSELL PUBLISHER.

Famous Actress to Give to World Love Letters Received During Her Stage Career.

[BY DIRECT WIRE TO THE TIMES.]

NEW YORK, Dec. 31.—[Exclusive Dispatch.] Lillian Russell has another surprise in store for her friends and the public. She has just announced that the love letters which she has received during her long and wonderful stage career will be published within a short time.

Miss Russell is busy arranging the letters for publication. Their number is legion, and already the beautiful actress has decided to divide the epistles into two volumes, one of a serious nature, the other of a humorous turn.

By the publishing of these letters the actress will give the public a knowledge of her love affairs, the number and fervency of which have kept the world gazing for many a year.

FRANK G. CARPENTER will introduce in The Times Magazine the coming Sunday, his important series of letters on the "Awakening of Asia."

THERE will be an abundance of good fiction in The Times Magazine of the coming Sunday.

Nearly everybody knows that Ivory Soap is the best of bath, nursery and *fine* laundry soaps.

But a great many people do not know that it is just as good for toilet use as for the bath and for fine laundry purposes.

It is, though, and for the same reason: *It is pure soap and nothing else.*

Classified Liners.

Times Classified rates: the rate for inserting "Want" ads. in The Daily Times is 1c per word for each insertion; in the Sunday issue 1¼c per word, each insertion; minimum charge 25c; except under following classifications the rate for which is 10c per line, minimum charge 50 cents: "Society Meetings," "Personals," "Special Notices," and "Baths and Massage."

"Liner" (classified) advertisements for Sunday insertion received over the counter or by telephone after 11:30 o'clock Saturday nights will be inserted under heading "Too Late To Classify."

Sunday real estate advertisements, to be classified properly, must be in The Times office before 10:30 o'clock Saturday night. Rates 1¼ cents per word.

The Sunday circulation of The Times exceeds 77,000 copies, and more "liners" are regularly printed in its columns than in the five other Los Angeles newspapers combined.

Telephone your want advertisements. Ring up "The Times" any time of day or night and secure prompt and careful attention.

The Times cannot guarantee accuracy or assume responsibility for errors of any kind occurring in telephoned advertisements.

THE TIMES will not be responsible for more than one incorrect insertion of any advertisement ordered for more than one time.

Advertisers should retain receipts given by The Times in payment for "Liners," as no mistakes can be rectified without them.

SPECIAL NOTICES—

TIMES COOK BOOK NO. 3 READY TODAY, and until the edition is exhausted, is placed on sale the largest, most elaborate and comprehensive cook book of the series issued by The Times.
The 318 recipes for hot Spanish and Mexican dishes and the hygienic department are big features of the publication. The recipes, brought out by The Times Prize Cooking Contest, are generally from Southern California housewives and noted chefs. Price 25c; by mail 5c additional. Address THE TIMES, Los Angeles.

SUNDAY REAL ESTATE LINERS—
Classified real estate advertisements for insertion in THE SUNDAY TIMES must be in the office not later than 10:30 o'clock Saturday nights. Other "want" advertisements for Sunday insertion will be taken over the counter until 11:30 p.m.
The great volume of liners printed in The Sunday Times, numbering regularly over 3000 separate announcements, makes this regulation absolutely necessary in order to get the big Sunday issue out on time. •

WEST ADAMS SECTION,
NEAR 22ND AND NORMANDIE.
7-ROOM, nearly new bungalow, fronting west. Oak floors and polished pine. Fine bath and fixtures, very artistic buffet, open grate, wash trays. This is a splendid buy.
Seven rooms. Only $3800. Get busy.
42x130.

BELOW COST $700.
WEST ADAMS HEIGHTS,
JUST WEST OF BERKELEY SQUARE.
BUNGALOW BEAUTIFUL.
We have one of the most beautiful bungalows in the city. The owner is pressed for money and has cut the price $700 below actual cost. There are six rooms and den. Living-room 22x20, dining-room 16x16, with exquisite buffet. The bedrooms are unusually large. Hardwood floors throughout. Living-room, dining-room and reception hall paneled and beamed; bedrooms white enameled. The large mantel and open grate is Arizona sandstone, which produces a delicate harmony. The front is sandstone, with cement porch front and side. Furnace, cemented basement, boiler and gas water heater. Elaborate and expensive fixtures. This house is the equal of those that have sold for $7000 and $7500. There is a mortgage of $3500, at 7 per cent., which can be paid off or can run. If you are in the market for a bungalow, you will do well to see this before buying.
Price $6500. Lot 50x150 to alley.

Westlake Park four blocks west, this beautiful new 8-room house. It is an awfully good buy. Fronts east on 60-foot lot. Large living-room with Gruby tile mantel reaching to the ceiling. This feature, as well as many others, is entirely new. Most charming den, with folding doors and columns. Dining-room is 15x16, with buffet and sideboard. Cabinet kitchen. Cemented basement, with furnace. Wash trays, 2 toilets. Woodwork is piano finish. Fixtures especially handsome. We reiterate that this is a splendid buy. Large upper and lower front porches. The price has been reduced to $6500. As low as $1500 cash will handle it.
LOT 60 FEET FRONTAGE.

$7500—7 rooms, on very high ground, east front, on Bonnie Brae. This place is a good buy and could easily be converted into apartments or flats. This is a modern home, and its charming location should appeal to you. You don't find many places in this section for sale at a price.
LOT 50x150 TO ALLEY.

JUST BEYOND WESTLAKE PARK.
We have the very place you will like. It fronts the park, too. You know what that's worth, don't you? Of course you will appreciate the joy and privilege of feasting your eyes on an exquisite landscape, with its velvety carpet of green, flowers, shrubbery and trees. Another good thing is the construction of this house. It may be dull reading to the wife, sister or daughter, but the man is glad to know that he is getting more than his money's worth when he buys a home. Foundation concrete, 2½ feet wide; joists 2x10, uprights 2x6, floors double matched, doors special, stringers 4x8. These few things will give you an idea of the solid construction. Now for interior. All woodwork first floor paneled and beamed in the best selected stained Oregon pine, hand-rubbed to piano finish, and hardwood floors. Second floor white enameled, six coats on all woodwork. Reception hall 1x15, living-room 20x30, dining-room 14x16, kitchen 9x10. Three large bedrooms and one small one. Furnace, cemented basement, automatic gas water heater, wash trays on rear screened porch. Beautiful open grate and large mantel in living-room. There are three porches; good garage with cement floor. The house cost to build 2½ years since $5000; the lot is worth $6250; total, $11,250. Yet you can buy it for $10,500. By the way, there are two vacant lots in the block. Try to buy one of them and see what they ask you.
FRONTING THE PARK, $10,500, ONLY.
LOT 50x150.

WILSHIRE BOULEVARD FRONTAGE.
CLOSE IN, OPPOSITE A BEAUTIFUL PARK.
Unobstructed view of mountains glorious. Eleven rooms; 6 bedrooms, billiard-room, 3 bathrooms, two beautifully tiled. First floor consists of reception hall; to the left a most beautiful living-room with open grate. From this room you pass into a charming den. To the right of reception hall is the spacious dining-room, with its elaborate buffet, thence into the pass pantry and kitchen, which contains every convenience to delight the cook's heart. There are three verandas and the screened porch. Very large basement, cemented, furnace, Ruud automatic gas water heater, wash trays. The first floor is beautifully paneled and beamed. Woodwork hand rubbed to piano finish. Wilshire boulevard and park frontage is a good thing to have, do you know that? It is worth money now, and will be worth more. This home has every convenience, and would undoubtedly please you. You could not build a house that would please you in every way when finished, so why don't you buy one already built that will please you just as well, saving the annoyance and risk of doing it yourself.
PRICE $[illegible].
LOT 65x147.

READ ABOUT THIS BARGAIN!
SWELL WEST ADAMS SECTION.
Where there are flowers, trees and shrubbery. We have for sale a 12-room house and large barn for autos, horses and drivers, fronting east, that is new and delightfully arranged, and the street is more than a hundred feet wide. Every wall on the first floor is finished in handsome and artistic tapestries. The first floor consists of a broad reception hall with grand staircase. Very large, beautiful living-room, a delightful den, exquisite reception-room, rich silk tapestries and hangings; dining-room, breakfast-room, pass pantry, kitchen, screen porch, lavatory between den and living-room. Billiard-room, trunkroom and servant's room, third floor. Five bedrooms and 2 baths, second floor. Basement with furnace and laundry. The price includes all the hangings and draperies, which are very expensive, and the house and barn could not without a single doubt be duplicated for less than $30,000, the hangings and draperies surely cost as much as $3000, and the lot would be cheap at $6000, which is only $80 per front foot, as it is very deep. This makes a total value of $39,000, and yet the price is away below that, because the owner is very anxious to sell. See this place without delay. Bargains of this kind don't last. Call us up and make appointment at least a day ahead. Absolutely no lower price will be made.

FOR SALE— Houses.

FOR SALE—HOUSES BY MINES & FARISH.
On exclusive West Adams Heights. (Near Washington and Gramercy.)
We want an offer at once on this attractive and thoroughly substantial home.
It is a home constructed under the owner's personal supervision and can stand the most critical inspection. New, never lived in.
It contains nine large and well appointed rooms, two baths and every other strictly modern and down-to-date improvement, that goes to make an elegant and thoroughly charming home; the house is heated by furnace, has cemented cellar and concrete walls, garage and pergola with cemented drive and the entire lower part is built of Chatsworth Park sandstone. In fact, we consider this one of the very best values on the entire West Adams section and only ask the opportunity to show you the property and prove our assertion. Hardwood floors throughout; very large ventilated closets.
The price of this charming home was $9500, but owner's positive instructions are to submit best reasonable offer. If you are in the market to buy, our services and automobiles at your call anytime.
Can arrange terms if desired.

BUNGALOW SACRIFICE.
This is YOUR chance. Tomorrow it will be the other fellow's.
I am just completing a handsome, artistic, six-room bungalow at No. 2019 W. 31st st. Just one block from car and in the highest grade bungalow section of the city. You cannot purchase anything in the vicinity, of equal grade, for less than $4000. This is not an extravagant statement, but one you can easily verify by inquiry into surrounding values. Why I am willing to sell so cheaply is my own affair. Gas, electricity, connection with city sewer, handsome fixtures, fine plumbing, pergola, porch across entire front, and south frontage. Convenient to drug store, grocery store, etc. If you really want a bungalow and have that much cash, now is your opportunity. Go out immediately. Take W. Jefferson car.

FOR SALE— 320 ACRES. As fine alfalfa and fruit land, as you can find in the State of California. No waste. All level. Best proposition in California for the money. Near 2 growing towns, between Santa Fe and Salt Lake Railroads. Go out and see the alfalfa growing. A whole river of water supplies the valley. The finest alfalfa, apple, pear, apricot, peach, prune, cabbage, onion, lettuce, potatoes and sweet potatoe soil. This land adjoins property right in the town. School, postoffice, barber shop, express office, machine shop, restaurants and hotels—in fact, a lively town. Think of it. You can own 320 acres by simply using your right to file on the same, prove up, and get a deed from the United States government. The price of the land is $1.25 per acre; you pay 25c cash per acre to the government, four years to pay the $1 per acre remaining. You do not have to live on the land. Having surveyed and looked for good lands all over Southern California, I recommend this as the best land that is open, and ready to file upon. The wide awake men of California are selecting these lands. You are gone from Los Angeles just 24 hours. Spend one day in this valley with our surveyor, and select 320 acres. Its productiveness is bound to increase its value, so act quickly. 6080 acres have been taken in the last 90 days. We survey your lands, make out filing papers and maps, all for $1 per acre. A few pieces left almost in the town, and on the railroad. JOSEPH H. PARKER, SURVEYOR, 815 SECURITY BLDG., 5TH AND SPRING. F1225.

FOR SALE — BEGIN THE NEW YEAR right and make yourself rich in 1909, raising alfalfa, which is now selling in Los Angeles at $30 per ton. House, barn, windmill and tank; 2000 eucalyptus trees. Only $200 per acre. 200 acres adjoining this ALL INTO GRAIN, but no irrigating water yet, $62 per acre; all level and just as good soil as the other, and right in the artesian belt and can be made worth $300 per acre in one year.

320 acres at $65 per acre. 50-horse-power Fairbanks engine, pumping 125 inches. Good house and barn. 15 acres producing alfalfa; 40 acres graded ready for seed; balance all good alfalfa land, and all sowed to grain. No waste land and a fine water proposition. Part cash, balance can run at 6 per cent.

40 acres, $12,000. Two miles from Santa Fe station, 37 acres producing alfalfa, a fine stand; balance fruit. A first-class pumping plant, raising 150 inches water, steady flow. Good house and barn. A first-class alfalfa ranch, with machinery necessary to carry it on. If don't want machinery, will make liberal allowance. If want more land, we have it at a very moderate price. Alfalfa land, whether producing or into grain, is our specialty. We have 25,000 acres level alfalfa land; also several thousand acres eucalyptus land, right in the artesian belt, and can locate you quicker, safer and cheaper than any one else in Southern California, all within a radius of 80 miles of Los Angeles as the extreme. We have growing alfalfa fields to show, also water plants to supply them. BETTER SEE US. WESTERN REALTY AND INVESTMENTS CO., 434 South Hill st. F8614, Bdwy. 2470.

FOR EXCHANGE—
320 ACRES.
As fine alfalfa and fruit land, as you can find in the State of California. No waste.
All level. Best proposition in California for the money.
Near 2 growing towns, between Santa Fe and Salt Lake Railroads.
Go out and see the alfalfa growing.
A whole river of water supplies the valley.
The finest alfalfa, apple, pear, apricot, peach, prune, cabbage, onion, lettuce, potatoes and sweet potatoe soil.
This land adjoins property right in the town. School, postoffice, barber shop, express office, machine shop, restaurants and hotels—in fact, a lively town.
Think of it. You can own 320 acres by simply using your right to file on the same, prove up, and get a deed from the United States government.
The price of the land is $1.25 per acre; you pay 25c cash per acre to the government, four years to pay the $1 per acre remaining.
You do not have to live on the land.
Having surveyed and looked for good lands all over Southern California, I recommend this as the best land that is open, and ready to file upon.
The wide awake men of California are selecting these lands.
You are gone from Los Angeles just 24 hours.
Spend one day in this valley with our surveyor, and select 320 acres.
Its productiveness is bound to increase its value, so act quickly.
6080 acres have been taken in the last 90 days.
We survey your lands, make out filing papers and maps, all for $1 per acre.
A few pieces left almost in the town, and on the railroad.
JOSEPH H. PARKER, SURVEYOR, 815 SECURITY BLDG., 5TH AND SPRING. F1225. •

THE CITY IN BRIEF

"Happy New Year!"

NEWS AND BUSINESS.

Charity Meeting.

A meeting of the Charity Conference Committee will be held in the directors' room, Chamber of Commerce, Tuesday at 10:30 o'clock. Important matters are to be discussed.

Today's Mail.

There will be one mail delivery this morning, but none in the afternoon. The registry department will be open at the main postoffice until noon, but the money order department will be closed all day. Stamps can be purchased at the general delivery window, which will be open as usual.

Man's Intellectual Evolution.

At the Southern California Academy of Sciences' meeting on Monday evening in Symphony Hall, No. 232 South Hill street, President B. R. Baumgardt will deliver an address upon "The Intellectual Evolution of Man," illustrated with 125 calcium light views. The discourse will be based upon investigations made in the British Museum and similar institutions throughout Europe.

Scarlet Fever Kills.

Kathleen Robertson, 11-year-old daughter of Thomas P. Robertson, of No. 1581 West Adams street, died yesterday morning after having suffered less than a week from scarlet fever. The little girl contracted the disease from children in the neighborhood, and although specialists were called in, they could do nothing to save her life.

Open House Today at Y.M.C.A.

The hours for open-house today at the Young Men's Christian Association are from 11 a.m., until 11 p.m. Ladies will serve refreshments from 11 to 1; 4 to 6; 8 to 10, and a general invitation is extended to both ladies and gentlemen to attend. There will be attractive music and entertainments throughout the day, and Archie Leon French, impersonator and ventriloquist, who will give informal performances, both morning and afternoon, will appear in the auditorium in the evening, assisted by the association gymnasts, to which a small fee will be charged, but all other entertainments of the day are free. One of the interesting things to be seen will be the sub-target gun in the Triangle Department.

BREVITIES.

To Let—Handsomely fitted office and exhibit spaces or desk room, also basement, in premises occupied by new branch office of The Times at 531 S. Spring st.; splendid location; suitable for California products display and well adapted for headquarters of excursions, steamship or railroad enterprises, as well as mining exhibits. Established information bureau now conducted in connection. For particulars and rental cost apply on premises, or to Manager's office in the Times Building.

Remember the slogan: "Buy and Boost Home Products." For daily reference, see page 9, Part II of The Times, containing list of wide-awake manufacturers, under the heading "Made in Southern California." You will find there are manufacturers of necessities and luxuries here—manufacturers of things to eat and drink—things for the home, the factory, the office and the farm. Buy them! Try them! There are none better. Buy and Boost, and keep your money at home, where it will do you and yours the most good!

Times' Cook Book No. 3 ready today, and until the edition is exhausted, is placed on sale the largest, most elaborate and comprehensive cook book of the series issued by The Times. The 318 recipes for hot Spanish and Mexican dishes and the hygienic department are big features of the publication. The recipes, brought out by The Times' prize cooking contest, are generally from Southern California housewives and noted chefs. Price 25 cents; by mail 5 cents additional. Address The Times, Los Angeles.

Start the new year right! Have your books closed to date and a concise, comprehensive statement submitted, showing results for the year. The Baskerville Audit Company will perform this service for you thoroughly and expeditiously, and also start off your records by most up-to-date methods for the new year. Confer with them now. 704 Auditorium building. Home F2975, Sunset Main 6557.

In this line we stand pre-eminent. The superiority of our assortments of fine
Suits, Coats Costumes and Dresses
is attested by the large business we have done in this department, this season. "Ville" garments appeal forcibly to the fashionable woman, because they impart to the wearer the feeling of being faultlessly attired.
By purchasing your garments here this month, in addition to selecting from the highest class of goods, you will be accorded a generous reduction in price—in order to reduce stock before invoicing.

Woolen Dress Goods
Notwithstanding the enormous sale of ready-to-wear garments, our Dress Goods Department has experienced a wonderful increase in sales, which is evident proof of its popularity and thorough completeness of stock.
Spring Fabrics
We have placed large orders for Spring, for the latest loom productions of the best European and American manufacturers. Prominent among the new Spring fabrics will be the soft and supple Silk and Wool Eoliennes, and all wool Henriettas. These materials readily adapt themslves to the prevailing fashions in dress, and will make a dress or costume distinctive from the ordinary ready-to-wear garments.

JUST PUBLISHED—A Brilliant Modern Novel
THE WILD WIDOW
By GERTIE DE S. WENTWORTH-JAMES
The Cincinnati Times-Star says: "Let us introduce the 'Wild Widow.' She comes from England, where Paul of 'Three Weeks' lived. Gertie De S. Wentworth-James is the authoress. It is frankly an unusual story that comes perilously near the jumping-off place into the realms of unclad and virgin realism. It is passionate, palpitating and ingenious. The plot is unusual and the English readers liked it much."
The Milwaukee Free Press says: "'The Wild Widow' is well named. Katherine Orlitson, with her striking looks and red hair, is the adventuress of imagination and originality. Her friend, Honora, was one of the true feminine type. Katherine being one of whom it was sure to be said that the gray mare was the better horse. Between them these ladies contrive to juggle with some of the deadly sins and to fracture several of the commandments, and when at last it turns out that none of the ten is broken beyond repair, nobody will be more justly surprised than the reader of this extraordinary tale."

TWENTY-ONE MILLIONS OF INCREASED VALUES.

Astonishing Increment of Securities on Los Angeles Stock Exchange.

The Year Has Added Twelve Millions to the Worth of Our Oil Stocks Alone—Splendid Recovery from the Slump of Year Ago—Five Millions Tacked on to the Bond List by Advances in Quotations.

FINANCIAL POINTS OF A "DULL YEAR."

Gain in valuation of stocks listed on Los Angeles Stock Exchange, exclusive of mining stocks, $21,648,800, as follows:

Increased valuation of local bonds, $5,618,500.

Gain in value of oil securities, $12,565,000.

Increase in valuation of industrials, and public utility stock list, $2,465,300.

Added value of Los Angeles bank stocks, $1,500,000.

Total dividend and interest disbursements of stocks listed on Los Angeles Stock Exchange, Jan. 1, $2,847,482.50, as follows:

Estimated savings bank interest payments, $1,000,000.

Interest on listed bonds, $551,500.

Dividends of listed bank stocks, $362,000.

Dividend disbursements of industrial and public utility stocks, $308,982.50.

Earnings of oil companies, listed on local exchange, due in dividends to Los Angeles stockholders, $625,000.

BY F. L. PARSONS.

The year just closing on the Los Angeles Stock Exchange has been one of steady growth, both as to the volume of trading and the price of securities. Opening as it did with the panic of last November still sending its quakes, shivers and creaks up and down the financial backbone of our fair city, it is little wonder that the first six months business was dull and featureless. Such transactions as did occur were largely made in the interest of shrewd buyers, who bought rather for speculative than investment account and the volume of business, while well up to that shown by other exchanges in cities of a similar size throughout the country, was, compared with the year 1907, light.

It was well into July before trading became at all active, and the first indications of renewed interest were to be discerned in the bond list, in which many of the better class of bonds were selling at prices to net the investor from 6½ to 7½ per cent. on his money. This situation lasted only a short time, for—with the influx of cheap money, 7 per cent. investments became hard to get and the snaps in the bond market were quickly absorbed. The increased valuation in the bond list for the year is $5,618,500.

With the advance in prices in the bond list, oil stocks and industrials began to receive the public's attention and the oil stock market, from the fact of handsome dividends, has naturally been very attractive to the investors. The advance in prices in the industrial and public utility market has not been as marked as in the oil, but as there naturally would be less speculation in the industrial shares, prices could not be expected to fluctuate as rapidly. The increased value in the listed stocks under the public utility and industrial list since December 31, 1907, is about $2,465,300. In the oil list it amounts to the handsome figure of $12,563,000.

As was natural the last stocks on the list to feel the return of prosperous times and the relief from financial pressure, were the bank stocks, and not until the last sixty days have these shown much of any improvement. However, during this period, they have certainly redeemed themselves from a year of inactivity; the increased value caused by the payment of extra and increased dividends in the shares in our various banks over what they were quoted at a year ago, amounts to $1,500,000.

The total gain in value in all classes of securities traded in on the Los Angeles exchange outside the mining stocks for the year 1908 is represented in the following figures, $21,648,800.

In looking over the dividend record of the various companies whose shares are traded in on the Los Angeles Stock Exchange, one finds that, although undergoing panic conditions for the first half of the year 1908, none of our better stocks have decreased their dividends, and on none of our bond list has the interest been defaulted. On the contrary, instance after instance could be cited where stocks have entered the dividend-paying class during the past year, and where those already in this class have handsomely increased their dividends.

As an example of the dividend and interest disbursements, a few figures for January 1, 1909, may be cited. There will be paid on the listed bonds on the Los Angeles Stock Exchange the sum of $551,500 in interest. On the listed bank stocks, the sum of $362,000 in dividends. Industrial and public utility stocks will pay dividends of $308,982.50, and the oil stocks, both listed and unlisted, will distribute $625,000. In figuring these oil dividends, however, I have taken those paid between December 10, 1908, and January 10, 1909.

It has been estimated that the interest payments made by the various savings and other banks between December 15, 1908, and January 15, 1909, will mount close to $1,000,000. This, taken in conjunction with the above dividend and interest disbursement, shows that there will be flowing into the pocket of the residents of Los Angeles for further distribution along regular trade channels, the tidy sum of $2,847,482.50.

As was expected, the dealings in mining stocks have been rather limited. The opening of the Los Angeles-Nevada exchange during the last month of 1907 and the cutting out of the wire by the Los Angeles Stock Exchange, the Los Angeles exchange, feeling that it was but fair to let the new board see what it could do. The Los Angeles Stock Exchange, however, has always held on to the business in the high-priced copper stocks and during the year some nice turns have been made in them, closing prices showing a decided gain all along the line.

The year has been one of great opportunities. Prices show a steady gain, and I do not believe there is a share on the board which, if bought last January, would not show a handsome profit on the investment. It has been a steady upward and onward growth always justified by increased earning power or the probability of the same, and the year 1909 is ushered in on a market in much better condition than it has been for some time back. A good healthy undertone is evident, no speculative frenzy is apparent, and an era of increased trading and higher prices is bound to set in during the early days of January.

The record of business transactions on the Los Angeles Stock Exchange for the year just closed, with the high, and low quotations, closing bid and asked prices, and the number and valuation of the shares handled is shown in the appended tabulated statistics, prepared exclusively for The Times by L. F. Parsons, manager of the institution.

BANDIT TAKES GROCER'S CASH.

HOLDS UP STORE AT POINT OF HIS REVOLVER.

Robber Disarms Victim of Gun He Carried on Purpose for Such as He, Then Empties Cash Register and Forces Man to Let Him Out of Back Door.

L. E. Finster, a grocer of No. 825 West Sixth street, was held up by a tall, lean highwayman about 10:30 o'clock last night while he was making preparations to close his store. After taking Finster's revolver away from him, the bandit compelled him to open the cash register for him and stand there while he scooped out the money. Several persons passed by the grocery store during the robbery, but none of them knew what was taking place. The robber obtained $16 from the cash register and departed through the rear of the store.

Finster was carrying his display of fruit inside when the man appeared at the door and asked him for some tobacco. When Finster walked in ahead of him to the rear of the store, the bandit placed his revolver against the storekeeper's back and ordered him to do as he commanded. The robber carefully felt in Finster's pockets and discovered a revolver, which he had been carrying for several weeks as a protection against hold-ups.

When they reached the cash register the robber told Finster to open it for him. Then he scooped out the money. With the revolver still pressed against the small of his back, Finster was ordered by the desperado to go to the back of the store and open the rear door. When he had done so the robber told him to close and bolt it. The robber escaped through the block.

Finster only got a glimpse of his face and was unable to give a good description of the man. He was tall and slender and had a white silk handkerchief tied loosely around his neck. He wore a derby hat, and dark clothing.

From his description the police are inclined to believe that this is the first job the highwayman has done in the city. He is too tall for the man who has been operating here with a short man for the past month.

MISS INSTANT DEATH.

Touring Car Plunges Over High Embankment—Three Injured and Woman May not Recover.

Out for a spin in the big touring car of L. M. Ballou of this city, Mr. and Mrs. R. M. Watkins and Charles Hammond plunged with the machine over a fifty-foot embankment to seemingly certain death Wednesday evening, on a grade of the road from El Capitan Grande Indian Reservation in San Diego county. All in the party were injured, and it is feared that Mrs. Watkins may die.

It was a merry group that inspected the Last Chance mine, and while Mr. Ballou decided to make a careful survey Mr. Watkins, who is a part owner, suggested a spin in the auto, as it would be his last chance to show his wife the mountains near El Capitan.

All went well until at a curve on the steep grade around the base of the mountain, Mr. Watkins, who was driving, failed to make the turn and a moment later the heavy car shot out over space and plunged down to destruction. The machine is a total wreck.

Mrs. Watkins was carried to a farm house and the other injured attended to. It is believed that the unfortunate woman has a number of ribs broken as well as other injuries which may result in her death. Watkins and Hammond are understood to be painfully, but not fatally injured. How they escaped instant death is incomprehensible.

ZIP! WHIZ-Z-ZIP!

DASH INTO PASADENA IN TWELVE MINUTES.

Three Rails and Swift Steel Coaches to Follow Old Cycleway.

Rapid Transit Company, Incorporated Yesterday by Solid Men With Financial Backing, Promises Revolution in Transportation Between Two Cities—Speed of the Trains to Be Fifty-four Miles an Hour.

LOS ANGELES and Pasadena are to be connected by a rapid-transit third-rail electric line to be built over the shortest route between the city of business and the city of homes. On this road the passengers will make the round trip in twenty-four minutes over an inclosed right-of-way in wreck-proof steel cars, according to the company's promise. It will be one of the modern interurban railways of the world, and is intended to fill a want of the many thousands of people who must now spend half an hour each way in making the trip.

To carry passengers from this city to Pasadena, or vice versa, in twelve minutes, is promised by the Pasadena Rapid Transit Company, which was incorporated yesterday. Among the incorporators are some of the solid business men of Pasadena, including George H. Hayes, Horace M. Dobbins, W. H. Smith, Edwin J. Sheehan, Don C. Porter and Ernest H. May, treasurer.

These men are vitally interested in the betterment of Pasadena as a city of homes, with rapid transit to Los Angeles, the industrial and business center. With this end in view they secured title to the right of way of the old cycleway, which extends from Pasadena to Avenue 35, a distance of six miles. Additional right of way to a place in this city suitable for terminal purposes is assessed for less than $80,000, according to the estimate of the attorneys for the new corporation. This is to be purchased.

Ernest H. May,
treasurer of the Pasadena Rapid Transit Company, which will make the run between the Crown City and Los Angeles in twelve minutes, using steel coaches.

TO CUT TIME.

Realizing that the principal feature of improvement needed in traffic between the two cities is reduction of time, this company has planned a system which will closely follow in type that used by the Northwestern Elevated in Chicago. There will be express service between the two terminals, with slower cars to handle local traffic. By keeping an average speed of fifty-four miles an hour, the through trains will be able to make the trip of a trifle over nine miles in twelve minutes. The entire line will be over private right of way.

There will be no grade crossings on the entire railway, and the tracks will be fenced in where the roadbed is on a level with adjoining property.

Steel cars similar to those in use in the New York subway will be employed on this road. These have three doors on either side, which are controlled by the motorman. He cannot open them until the train comes to a full stop, and the car cannot be started before they are closed.

The station platforms will be built so that passengers must enter the cars on one side, and leave them on the other. When the car stops at a station the motorman opens the doors on both sides at once, thus allowing the people on the platform to get on, while those inside are leaving through the opposite doors. With this system the New York subway cars have been able to load and unload 200 passengers in twenty seconds.

NO FARES ON CARS.

There will be no paying of fares on the cars of the new system, as the method of collecting tickets and fares used by the Boston Subway Elevated will be adopted. The entrances and exits will be separated by wire fences, and the only way to gain admission to the "outgoing platforms" will be by passing through a turnstile in front of a ticket window. Passengers leaving trains will pass through turnstiles which work only one way, thus protecting these platforms.

The new third-rail system will be employed to convey power to the car motors. This is far in advance of the first third-rail system, which was very dangerous to crews and passengers in case of a small wreck, or even a slight derailment.

MAY COST TWO MILLIONS.

The cost of building the new road is estimated at from $1,500,000 to $2,000,000. This is very high considering the length, but the reason given by those who have planned it is that everything is to be constructed according to the very best specifications for a modern high-speed railway. The roadbed will be rock-ballasted, all retaining walls built of concrete, and all trestle work of steel.

The offices of the company are to be located in the Chamber of Commerce building, in Pasadena. The company has been organized with a capital stock of $3,000,000, of which one-third is "6 per cent. preferred." Ten thousand dollars has been subscribed by the incorporators just as a New Year's starter. Their plan is to make it a "home company," with all stockholders residents of either Los Angeles or Pasadena, the idea being that the popularity of the road will depend upon its management, and if the stockholders are residents and familiar with conditions, they will elect directors who will give the best results to the public. With this object in mind a canvass was made and it is announced that incorporation subscriptions have been made by more than fifty prominent business men of the two cities.

The great increase in traffic between the two cities is shown by the fact that fifteen years ago all of the people who traveled to and fro were carried on a "long-time-between-trains schedule" on the steam roads. Now there are three electric lines, with a car every four minutes, and three-car trains part of the day. The travel has increased from a few hundred to over 20,000 daily.

The gross earning of the electric passenger traffic, based on the annual increase, will reach $1,100,000 in 1910, and the men who are backing the new road say that they expect to have the line open in time to participate in the carrying business of that year.

MEN BEHIND THE LINE.

The incorporators of the new electric road are well-known men. Earnest H. May, the treasurer, is president of the First National Bank of Pasadena, and a man of financial ability. Horace M. Dobbins is the owner of the old Pasadena cycleway right of way. W. H. Smith was superintendent of the old Pasadena electric system, and is well informed on all street railway matters. George H. Hayes is an old railroad man.

Attorney Don C. Porter, the legal member of the corporation, is a member of the law firm of Porter, Sutton & Cruikshank, which will handle the legal work for the new line. Their first important work was in advising the incorporators that they will be able to complete their rights of way into Los Angeles by condemnation through civil procedure. In this way the new line will be able to buy additional rights of way at a figure based upon the assessed value, of the land instead of being held up by greedy holders, who might demand exorbitant prices. This is of most vital importance, for if the new road was unable to buy a right of way from Avenue 33 to a place near the business district for a reasonable amount, the line might never be built.

"It has been the aim in the formation of the financial plan, as well as in the plan for operating the road, to comply strictly with the State laws and city ordinances guiding the operation of transportation companies," said Horace M. Dobbins yesterday. "It has been planned to construct the road so that it will be safe, economical in operation, and able to avail itself of the large business awaiting it without creating opposition, being subject to criticism, or the imposition of fines."

'GATORS AFTER HOBOS?

Tramp Camp Broken up While Frying Meat by Attack of Strange Monsters.

With a wild story of having been routed out of a hobo camp north of Riverside by the sudden appearance of two strange monsters, which made an assault upon the party, Mike O'Brien, a vagrant, arrived in the city yesterday and told his troubles to a patrolman, who gathered him in.

"I didn't have time to get a description of the monsters," declared the hobo, "only they kinder looked like dragons, or lizzards." He explained that he and twelve other tramps were gathered about a fire in the Santa Ana willows, frying meat, when one of their number suddenly leaped to his feet and dashed through the blaze, crying out that he "had 'em."

The startled gathering cast a glance to where he had been seated, and were instantly thrown into a wild stampede, for crawling toward them in the flickering light of the fire came the "monsters."

The tramp's story was soon corroborated by other hobos. All showed the effects of intense fright. An investigation disclosed that the tramps had probably been attacked by two Florida alligators, which had escaped from a Riverside man some days ago.

CHI PSI REUNION.

The annual informal banquet and reunion of the Chi Psi Alumni Association of Southern California will be held at the Hollenbeck Café tomorrow evening at 7 o'clock.

THEPUBLIC SERVICE.

SUMMARY OF THE DAY.

The Mayor yesterday attached his signature to the new ordinance requiring city employés to be on duty from 8 o'clock in the morning, until 5 in the evening.

H. G. Gee was arrested for forgery, and confessed to Chief Detective S. L. Browne, of the District Attorney's staff, yesterday.

D. W. Aaron was granted a divorce from Mrs. Amanda C. Aaron by Judge James yesterday.

AT THE CITY HALL.

MAYOR SIGNS ORDINANCE.

CITY EMPLOYEES MUST GIVE EIGHT HOURS' TIME.

Citizens Send Checks in Recognition of Efficient Services Rendered by the Firemen—Council Will Act on a New Site for the Receiving Hospital Tomorrow.

Mayor Harper, still suffering severely from his automobile accident, spent a couple of hours at the City Hall yesterday, and received many callers. Among his official acts was to affix his signature to the new ordinance calling upon all departments to open at 8 o'clock in the morning and close at 5 in the evening, an exception being made in the case of the City Treasurer.

In response to a request from a number of citizens, which was carried to the Mayor by J. J. Gosper yesterday, he also decided to send a message to the City Council, requesting that they set apart as a legal holiday February 12, the one hundredth anniversary of the birth of Abraham Lincoln.

Among other visitors to the Mayor was a happy couple, who wished to have His Honor unite them in holy matrimony, but owing to his suffering from his injured arm, he declined to perform the ceremony. Dr. R. G. Doyle was also there with a desire to massage the injured arm and relieve the pain, but the member was so painful that the Mayor declined to have it manipulated.

Joe and The Margolis camped in the outer office the greater part of the afternoon, but did not secure an interview with the Mayor.

SERVICES RECOGNIZED.

CHECKS FOR RELIEF FUND.

The Fire Commission yesterday received two checks to swell the firemen's relief fund, sent by grateful citizens in recognition of efficient service rendered at recent fires.

Architect R. B. Young sent a check for $100, as a result of his inspection of the Occidental Hotel property after the fire. He stated that owing to the dense smoke that filled the building, and the mass of inflammable material right in the center of the fire, the work of the fire laddies was most remarkable, and he desired to thus give it recognition.

George Mason also sent a check for the same amount for the relief fund, as a recognition of the "efficient way in which the fire was handled in the Mertz building on Christmas Eve."

NEW RECEIVING HOSPITAL.

COUNCIL WILL ACT ON LEASE.

The City Council will meet in adjourned session tomorrow at 10 o'clock, and the advance schedule of the City Clerk shows that among other things to be considered will be the confirmation of the lease of a receiving hospital site on South Hill street. The property is known as No. 106 to 112, for which it has been agreed to pay a monthly rental of $246.65. Also the recommendation of the Park Commission for the construction of a reinforced concrete reservoir in Elysian Park, and for the condemnation of certain lands to be added to the park.

OBJECT TO INVASION.

DON'T WANT UNSIGHTLY SHOP.

A large delegation of men and women from the neighborhood of Thirty-third street and Maple avenue filled the room at yesterday's session of the Fire Commission, and indignantly protested against the invasion of their territory by an automobile shop. A. D. Perkins made application for a permit to install two gasoline engines and a distillate storage tank at No. 315 East Thirty-third street, at which number he wants to conduct an automobile shop. The protestants charged that he has moved an old stable to the street line, entirely shutting off the light and view from a widow's cottage, and declare that it will be a permanent blemish to the neighborhood. They put up such a strong fight that the commission held the matter over for one week, and will go out and look the thing over for themselves.

JUDGE AND JURORS PLEASED.

In dismissing the term trial jurymen in the United States District Court, yesterday afternoon, Judge Wellborn stated that they had given evidence of unusual ability as jurors, and had been of much assistance in determining the rights of litigants. Gen. C. F. A. Last, one of the jurymen, then made a neat little speech in behalf of his fellows, thanking Judge Wellborn for the uniform courtesy he had shown them and speaking in highest terms of his ability as a jurist. This little interlude to the graver business of the court seemed much appreciated by all the Federal officials. The jury was then discharged and a new venire will be summoned early this month.

HOTEL LESSEES INVOLVED.

E. M. Gardiner, Vera L. Lawson and S. W. Lawson, lessees of the Hotel Lillie, filed a bankruptcy petition in the United States District Court, yesterday. The full schedules of liabilities was not made out, but it is stated that the debts amount to several thousand dollars. The assets are nominal, beyond those exempt by law. The bankruptcy schedules of D. C. Donaldson of this city shows liabilities of $4500 and no assets. Henry Jones of this city filed schedules, with $799 stated liabilities and $355 assets. Nathaniel B. Blunt of this city, another bankrupt, states he owes $1000 and has no assets.

OFFICER NABS BUSY FORGER.

PRISONER ATTEMPTING TO PASS WORTHLESS DRAFT.

Grows Indignant When the Chief of Detectives from District Attorney's Office Interrupts His Little Game, but Afterward Breaks Down and Confesses to Many Offenses.

S. L. Browne, chief detective of the District Attorney's staff, yesterday caught H. G. Gee, aged 29, attempting to pass a forged draft on a store on South Spring street. The draft was for $50, and bore the name of Cashier J. F. Abell of the Smithland Bank, Kentucky.

Gee, who says he comes from Cincinnati, at first denied the charge of forgery, but later in the day broke down, and confessed to the detective he had been guilty of passing several bogus drafts and checks in this city and San Francisco.

A complaint, charging him with the forgery of J. F. Abell's name to a $50 draft on the Smithland Bank, Smithland, Ky., was filed against the forger last evening in Justice Selph's court, and he was committed to the County Jail.

Gee is a fashionably-attired young southerner, who hails from Cincinnati. He came to Los Angeles from San Francisco three weeks ago. He admitted yesterday he had passed a forged $40 draft in the latter city. He has also victimized some one living here with a forged $30 draft.

Under questioning by Detective Browne, he admitted he had "worked" Ogden, Utah. He says that Gee is an alias under which he travels, and that his relatives live in the Southern States, but further information he will not give about himself.

Browne was informed that Gee had attempted to cash his draft in several business houses, and began an investigation. He met the man on South Spring street, engaged him in conversation, and secured possession of the draft. Then he arrested the man, who denied that he had forged the draft. Not until Mr. Browne wrote a telegram to Cashier J. F. Abell of the Smithland Bank did Gee break down and confess the forgery.

Mr. Browne is investigating Gee's record here, as he has reason to believe that he has uttered several forged drafts, all of which have not been located.

GUN PLAY.

WIFE'S AFFINITY FLEES.

Judge James yesterday granted D. W. Aaron a divorce from Mrs. Amanda C. Aaron, whom he married in August, 1884.

Aaron testified that early last December his wife left their Venice home for Los Angeles one evening. He telephoned a friend in this city to find where she went, and was informed in a few hours that she had gone to the Newport Hotel, East Fourth street, with a male companion.

Aaron at once came to the city in an automobile, and went to the lodging-house with a witness. The landlady refused to disturb the couple, though told that the woman was Aaron's wife. The husband left the hotel, and at a near-by store bought a revolver.

In about an hour he saw his wife and her companion come from the hotel. As Aaron raised his gun to shoot, his wife's companion ran, while Mrs. Aaron caught his arm and prevented him from shooting. A policeman arrested all three, and took them to the station. Here Mrs. Aaron confessed her infidelity. Her companion, who gave his name as Albert Garvain, was subsequently released.

COURTHOUSE NOTES.

BREVITIES MISCELLANEOUS.

PROPOSE DIVIDEND. N. Blackstock and C. H. Babcock, receivers of the Occidental Bank and the West Side Bank, yesterday filed in the Superior Court a petition to be allowed to pay a 12½ per cent. dividend to the depositors in each of the banks. This is the third dividend for West Side Bank depositors, and the second for Occidental Bank depositors.

ASK MANDATE. The county of Imperial filed in the Superior Court yesterday, a mandamus suit against the Supervisors of San Diego county. When the county of Imperial was divided from San Diego county, the Commissioners reported that San Diego county should pay to Imperial county $3370, as its proportion of the tax on unencumbered personal property in the division of territory between the two counties. It is alleged that this money has not been paid.

SUES FOR DAMAGES. Asserting that his lots in the McGarry Tract have been injured by the building, without condemnation proceedings, of a trolley line on East Ninth street, Nicholas Cordary yesterday filed in the Superior Court, a suit against the Pacific Electric Railroad Company, asking $26,500 damages.

HOLE THERE. A. M. Hodges yesterday filed in the Superior Court a suit against the Pacific Electric Railroad Company for $15,000 damages. He alleges that July 24 last, as he stepped off a car on East Colorado street, he broke bones in his foot by stepping into an excavation, over which the car was negligently stopped.

WANTS PAY FOR BONES. Raymond McKibben filed a suit against the Los Angeles-Pacific Railroad Company. He asks $10,000 for permanent injuries, alleged to have been sustained by Mrs. Elsie McKibben in a collision between a trolley car and an automobile on Western avenue, August 23 last.

ASK RECEIVER. R. A. Brown and others yesterday filed in the Superior Court a suit against the Mammoth Mining and Milling Company and others, asking for a receivership of the corporation. It is alleged that A. L. Dominy, D. H. Black and other officials of the corporation, have illegally manipulated and encumbered the property of the corporation, which is alleged to be heavily indebted to the plaintiffs.

ASKS MAINTENANCE. Mrs. Alma Wahl has filed in the Superior Court a maintenance suit against Albert Wahl, whom she married in August, 1899, and who, she says, deserted her three months ago. He went to Tucson, Ariz. The plaintiff alleges that Wahl has $2777 of her personal estate and $6500 community property, and she is destitute.

CORONER'S AUTO AGAIN. The Los Angeles Motor Car Company filed in the Superior Court yesterday a mandamus suit against County Auditor H. G. Dow. It is alleged the official has refused to pay a bill for $2821, approved by the Supervisors. The money is the price of a Locomobile, purchased by the county for Coroner Hartwell.

HANDY AMENDMENT. Judge James yesterday took under advisement argument in the appeal case of H. Nesa, convicted last week by Justice Chambers on a charge of conducting a wholesale liquor business without a license. Counsel for Nesa argued the Los Angeles city ordinance of 1909 has been repealed by the amendment of February, 1907, but that the amendment of 1901, by which manufacturers of wines and brandies were exempted from the wholesale liquor dealers' license tax, still stands.

RULES ON MOTION. Judge Bordwell yesterday denied a motion for a new trial brought by the Los Angeles Gas & Electric Company, in the suit of F. H. Merrill. The company had been ordered to pay $10,000 damages, for injuries received by Merrill in the West Second-street gas explosion of February, 1907. The ruling is conditional upon the acceptance by Merrill of a reduction in the amount of the verdict to $8555, owing to certain technical conditions involved in the litigation.

PHOTOGRAPHED. County Recorder Logan had his official family, his deputies and copyists, photographed on the steps of the Courthouse yesterday. A copy will be given to each employé.

COLEMAN CASE. Justice Summerfield yesterday heard the testimony for the State in the case against William Coleman. The man is charged with appropriating to his own use property it is claimed he held as agent of J. P. Labrucherie, located in the Ramona rooming-house, No. 330½ South Spring street. The defense will open Monday afternoon.

DISSOLVES ORDER. Judge Monroe yesterday dissolved the temporary restraining order issued on complaint of B. C. Hatch against the Guerrero Development Company, in former's suit against the corporation for a receivership. The case was also ordered off the calendar.

REVERSES JUDGMENT. Judge Monroe yesterday reversed the judgment of the San Pedro Justice Court, in the suits of Edward Mahar against the San Pedro Daily News and the San Pedro Times, for $125 and $40 respectively. Mahar got judgment in the lower court. He asserted that as treasurer of the San Pedro committee in charge of the last celebration, July 4, he paid claims by the newspapers for advertising, under the unauthorized O. K. of J. C. Wray. Wray, he added, falsely represented the advertising was authorized. Judge Monroe held that Wray was authorized to contract the advertising bills.

INCORPORATIONS. Articles of incorporation were filed yesterday with the County Clerk by the Pasadena Title Company, capital, stock $25,000; Bungalow, Building and Investment Company, capital stock $50,000; Manhattan Midway Oil Company, capital stock $75,000; The Crescent Bay Credit Association, of Santa Monica, no capital stock; Pasadena Rapid Transit Company, capital stock $3,000,000.

Use of Mails in Clever Fake Gem Swindle Halts Career of Well-Known Young Man—Jury Asks for Mercy and Prisoner Will Be Given Chance.

After being out an hour, a jury in the United States District Court yesterday afternoon brought in a verdict of guilty in the case of Carbonate Ore Johnson, charged with unlawful use of the mails. The jury recommended leniency and Judge Wellborn stated that he was disposed to give the young defendant a chance to redeem himself. He then sentenced him to pay the nominal fine of $1 and to serve four months in the Riverside County Jail.

Attorney Allender said that he believed the experience would be of benefit to his client, who had slipped from the path of honesty to his own undoing. Assistant United States Dist.-Atty. McCormick stated that he believed in giving Johnson a light sentence and said he would do all in his power to help the young fellow after he served his time.

Johnson was arrested through the efforts of Frank Stewart, at that time one of the cleverest postal inspectors in the West. Since then Stewart has been promoted to the office of deputy under United States Dist.-Atty. Oscar Lawler and he assisted Mr. McCormick in the successful prosecution of the case.

Johnson devised a mail-order business for the sale of alleged valuable uncut gems. His plan was to mail specimens, represented to be hyacinths, to responsible parties and offer to cut the stones for $1.50 each. He did quite a business in Riverside county until complaint was made to the postal authorities. It was shown in court that the stones he disposed of were Spanish topaz, worth but a few cents each.

HYDE ESTATE CASE DECIDED.

The case of Stanislaus T. Valentine against Joseph Scrocton, executor of the estate of James N. Hyde, was decided in the Second District Court of Appeal, yesterday, in favor of the plaintiff. The appeal was taken by the defendant from an adverse judgment in the Superior Court. In 1904, Herbert Valentine leased some property to Hyde and gave an option at the same time for its purchase. Valentine died and the present plaintiff agreed to sell the property to Hyde for a sum much below the market value. The sale was never consumated, and some time after Hyde died. His executor claimed that the agreement still held good, but the court ruled against him. The Appellate Court holds that the findings of the lower court are supported by evidence, and that there is nothing to show that the defendant and appellant had any interest in the premises.

ALLEGES INFRINGEMENT.

Frank Walker brought suit in the United States Circuit Court, yesterday, against William S. Sides of Covina, for alleged infringement of a patented solar water heater. The plaintiff asks the court to award damages, based on the profits accruing to the defendant out of the sales of his device. An injunction is also prayed for. Frederick S. Lyon is attorney for the plaintiff.

Bakersfield Company Files Application at Visalia for McKittrick Section.

[SPECIAL CORRESPONDENCE OF THE TIMES.]

VISALIA, Dec. 30.—The Loveland Oil Company of Bakersfield, by its attorney, Charles E. Lee of that city, made mineral application in the Visalia Land Office yesterday for lots 1, 2, 3, 4 and 5, in section 4-30-21, being Advance No. 1 placer mining claim; for the south half of the northeast quarter and the north half of the southeast quarter of section 4-30-21, being Advance No. 2 placer mining claim, and for the south half of the southeast quarter and lots 6 and 7 of section 4-30-21, being Advance No. 3 placer mining claim. This is the most important document filed in the local land office for a long time. The property is located in the McKittrick oil district, and comprises 429.87 acres.

William R. Wells of Visalia made timber and stone entry for lot 1, southeast quarter of northeast quarter and northeast quarter of southeast quarter of section 6-17-27. Henry Ingalls of Oakland made desert land entry for east half of section 20-27-27.

James Shannon, a local saloon man, was waylaid and sandbagged while on his way home night before last by unknown parties. Officers are investigating. A peculiar feature of the case is that he was not robbed after being knocked unconscious, although he had quite a sum of money on his person. Shannon believes he was the victim of mistaken identity, and that the sandbaggers had been waiting for some other person.

Caught in the act of burglarizing a Japanese pool hall on Center street early yesterday, the intruder fired a shot at his discoverers, wounding one of them in the leg. The wounded man gave his name as T. Ossi. The bullet was extracted by a local physician. The burglar failed to get anything of value. Local officers think he was a Japanese.

SUIT FILED.

C. K. Ragan of Hanford has commenced an action in the Superior Court against G. W. Halstead, J. E. Leebon, T. W. Chatten, R. O. Newman, J. W. Smith, John Hagler, J. W. Ward and H. Roth to recover the sum of $900 alleged to be due on account of a promissory note made on December 17, 1907. No part of the note, or interest, it is alleged, has been paid. R. W. Miller of Hanford is attorney for the plaintiff.

THE OIL INDUSTRY.

ANGELENOS GO TO WYOMING.

Local Money to Develop Oil in Lander Field.

Product Is Exceedingly High Gravity Paraffin.

Cresseus May Be Sold—Big December Dividends.

Los Angeles money is to develop the Wyoming oil fields on an extensive scale. Two companies or syndicates have been formed here to operate on concessions of Indian lands near Lander and work will be under way very shortly.

One concern is headed by M. M. Gilchrist of this city and he will be at work this month as required, it is understood, by his contracts. The other is under the management of George Mitchell, the well-known mining man, who has another month in which to begin. Mr. Gilchrist has secured machinery in the Rangely, Colo., field and it has been shipped. At first he intended to buy here but found the freight was far too high. Both companies have had experts viewing the ground and received favorable reports.

The Lander field is very slightly developed, just enough to show to a limited extent its great possibilities. The oil is an exceedingly high gravity, about 60, it is said, and a paraffin base. It is not a fuel, being too valuable for that. The presence of cheap coal besides has kept it from being considered as such and the distance from large centers has held work in a very backward state. The only refinery in the State is the Pittsburgh-Salt Lake's plant at Spring Valley. According to a recent statement in a Salt Lake City paper this company has just obtained rates from the Union Pacific that enable it to put its products into Salt Lake City and other neighboring towns on advantageous terms. The Standard has never sought business in this field.

Cresseus May Be Sold.

A. L. McPherson, one of the Kern River Oil Company's organizers and a resident of Oakland, has been at Midway looking over the forty acres of the Cresseus, one of the Spellacy companies on 25-32-23, with a view to purchase. Mr. Spellacy in an interview at Bakersfield admitted that an offer had been made for the property but said no sale was consummated.

From another source it is understood that the company has placed a value of $300,000 upon its holdings, which, if correct, is about the largest figure asked in the Midway, amounting to $5000 an acre. There are four wells completed and the tract is surrounded by proven land, the Section Twenty-five, the Mount Diablo, the Mascot, the New Richmond, the Piedmont and the Hill and Barlow. Eight acres near-by were recently sold at $3000 an acre. The Cresseus is considered the pick of Midway lands.

Amalgamated at Redondo.

The Amalgamated is erecting two steel storage tanks of 75,000 barrels aggregate capacity at Redondo, one block from the Pacific Light and Power Company's plant. These are for crude petroleum delivered by the Los Angeles-Pacific from the Sherman wells both for the local electric plant and for shipment by water to other points.

December Dividends.

The December report of the San Francisco Stock and Oil Exchange shows payment of dividends by listed companies for the month of $619,109.21 against $358,290.31 during November, an increase of $256,888.90, or approximately 75 per cent. The total to date is $18,008,882.06.

Payments were as follows: Amalgamated, $11,400; Brookshire, $10,000; Caribou, $20,175.75; Claremont, $4500; Coalinga Pacific, $6500; Columbia, $9092.66; Esperanza, $1600; Euclid, $3500; Four, $3000; Home (Coalinga,) $2000; Illinois Crude, $2000; Junction, $2500; Kern River, $2000; Linda Vista, $3838.50; Lucile, $2670.40; Peerless, $6000; Pinal, $22,500; Royalty, $600; San Francisco and McKittrick, $15,000; Sauer Dough, $9975; Sovereign, $5000; Sterling, $93,750; Superior, $5000; Union, $117,711; United Petroleum, $40,375.50; Wabash, $6000; West Shore, $5000.

Japan Buys Oklahoma Oil.

Unable apparently to get enough oil in California, Japan is buying the product of the Glenn Pool, Oklahoma, loading steam tankers at Port Arthur, Tex., for Yokohoma, via the Suez Canal. The first consignment went by the Soyo Maru on October 6, last, and the second of 48,548 barrels by the Buyo Maru on November 23. The Gulf Pipe Line Company is furnishing the oil through its eight-inch pipe line from Glenn Pool to Port Arthur and the Mikado's vessels will make regular trips.

Boats are also plying between Port Arthur and England, where Kansas and Texas oil is used. The fuel for the Tehuantepec Railroad is also sent from this port.

Work at Lompoc.

The Pacific Oil Fields, Ltd., at Lompoc, has bought in its No. 2 well on the McCabe ranch at 2700 feet, and it is good for about 250 barrels a day. Four new rigs are being erected. The company has had a difficult water problem on its hands, and has to pipe a supply six miles for drilling purposes.

The Orcutt Oil Company is down about 1800 feet, and has been having some trouble of late with the casing that has delayed work. At last reports the outlook was for a good well.

Rice Ranch's Progress.

The Rice Ranch has just brought in its No. 5 at Santa Maria, and it is good for 6000 barrels a month. No. 6 should be finished in about thirty days. The last is on a line with No. 1, the company's best, and this leads to big hopes. Persons interested expected dividends again by March.

VALUABLE CORNER SOLD.

Northwest Corner of Hope and Sixth Streets Brings Fifty Thousand Dollars—Other Deals.

Mines & Farish report the sale of the property at the northwest corner of Sixth and Hope streets, 55x60 feet, improved with a two-story brick building, for a consideration of $50,000. The property was sold by Mrs. Sarah E. Dandy to Mrs. Maude T. Chaffey.

The same firm reports the sale of the northeast corner of Wilshire and Harvard boulevards, 150 feet on Wilshire and 200 feet on Harvard, to Clarence Drown for J. A. Anderson, for a consideration of $5000. The buyer is planning to improve with a home.

Plans are being prepared for a two-story brick building on a lot 50x150 feet, on Main street, near Seventh, adjoining the Brent furniture store on the south, which will be build by Mines & Farish, and associates. It will cost $15,000.

LOSES WIFE AND MIND.

Former College Man and Automobile Dealer Held for Examination as to His Sanity.

Love for the wife from whom he was divorced several months ago, has made a mental wreck of Elbridge Heath, proprietor of an automobile garage, at No. 313 East Fifth street.

Heath was arrested yesterday morning by a patrolman at Seventh street and Grand avenue, where he was creating a disturbance. He had been acting queerly for some time past. At the Abbotsford Inn, Eighth and Hope streets, where he had apartments, he caused considerable excitement by hiding in dark corners of the hallways and jumping out and frightening the guests.

Yesterday morning he approached Harry Mann, manager of the Pacific Turkish Bath Company.

"I am a detective," said Heath, "and I have been following you for five years, come along with me." He grabbed Mann's hat and put it on his head, and then executed a war dance about the sidewalk.

He was promptly taken in charge by a patrolman and sent to the detention ward of the Receiving Hospital to be examined as to his sanity.

Heath is 35 years of age, a graduate of the University of Minnesota of the class of 1898, a former football star and Greek letter fraternity man.

According to statements of those who know him, Heath could not get over his separation from his wife, and brooded constantly over it.

WELL ADVISED.

ARIZONA WOOL MEN GRATIFIED.

DECISION ON TARIFF REVISION TO THEIR LIKING.

High Grade Western Product Will Not Be Affected by Cut—Throwing of Giant Powder on Engine Boiler Wrecks Mining Plant Near Jerome Junction—Suicide Saved.

[SPECIAL CORRESPONDENCE OF THE TIMES.]

PRESCOTT (Ariz.) Dec. 29.—Northern Arizona sheepmen are feeling very much better over the tariff rating of wool since word has been received that the committee considering the subject has determined upon a reduction of only two or three cents a pound on the duty. This is understood to be contemplated in order that the cheaper grades of wool may be imported for carpet making. Arizona has none of this grade, though there is some of it in New Mexico. Here the sheep are mainly Merinos or Merino grades, the wool bringing the very highest prices paid for the domestic product. These grades would be little affected in value if the tariff were taken off altogether. Estimates are now being made that wool this spring will bring about the same price as last year, from 16 to 22 cents a pound, according to its condition "in the grease."

The power and hoisthouse, boiler, compressor and other machinery of the Black Mountain Copper Company are all mixed up in ruin. The machinery had been installed only about a month at the mine, which is seven miles east of Jerome Junction. The trouble was due to the approved custom of thawing out giant powder on the top of a boiler. Forty pounds of the unstable explosive had thus been placed, to "warm up a bit." It exploded when no one was around and without warning or apparent cause. So work has been suspended at the mine and miners in that locality have returned to the more primitive method of thawing dynamite sticks by carrying them around in their boot legs. No one was hurt in the explosion.

J. Cantin yesterday attempted suicide on the grave of his uncle in a local cemetery, using carbolic acid as a medium. Just before he started for the cemetery, he had told a woman of his intentions. The woman telephoned the Sheriff's office, and Deputy Sheriff John Merritt hurried out to find Cantin rolling on the grave in agony. Merritt helped the would-be suicide to Mercy Hospital, where his life was saved by prompt medical assistance. An odd feature of the case was that Cantin had been seen lying on the grave before Merritt arrived, and had been pronounced dead, and that the electric car that took Merritt and Cantin back to Prescot had brought out to the cemetery a justice of the peace, keen to hold an inquest.

Andrew Garth died Friday at Flagstaff, in the County Hospital, apparently in the deepest poverty. He had lived in the vicinity for years, working as a day laborer and without the ordinary comforts of life. Yet it has been found that he was worth $10,000.

Eight years ago, William Ashurst, an old Arizonan, died in the very bottom of the Grand Cañon. He was alone at the time, prospecting. His body was found long after by a searching party. Across one leg lay an immense boulder, but death had come through starvation, thirst and exposure, rather than from injury. The body was buried on the spot. Two days ago it was brought out, on the back of Niles Cameron, who climbed with his burden up trackless cañon walls, where a misstep would have meant death.

WHITLEY'S

The Home of the

Perfect Blue White Diamond

It would be just as impossible for an imperfect or questionable quality diamond to get into the Whitley stock as for a novice to receive recognition from the Paris Academy of Fine Arts.
This may seem a strong statement—but it is true—absolutely.

And all this assurance of genuineness adds nothing to the cost of a Whitley diamond. On the other hand—our system of direct importation and extensive buying enables us to sell perfect diamonds for less money than the average dealer.

So closely has this house become identified with perfect blue white diamonds that we receive diamond orders from one coast to the other.

If you have a thought of buying diamonds—doesn't it seem reasonable that you should avail yourself of the protection and economy that the name "Whitley" assures?

Welcome always.

It is a great thing for New Year's Day that Pasadena was invented.

Happy New Year, and as many more of them as you can comfortably stand!

Southern Italy is like some of the women of history—beautiful but dangerous.

New years are a lot more enjoyable before a man is 45 than they are afterward.

The world can't stop because Sicily is stricken, but it can help without stopping.

The Pope will give all he has to give. "Beppo" was always readier to give than to keep.

Here's hoping you will be on deck to welcome in the next new year with the same old smile.

Probably the fellows who swear off do not much more than balance the fellows who swear on.

Sicily is counting her dead, but no man will ever be able to count the aches in her wounded heart.

Happily, the management does not charge all that it is really worth to see the Rose Tournament.

Isn't it really the second, and not the first, day of the year on which most of the swearing off is done?

Whatever you do today, avoid the wine when it is red. If you must take a drink, tackle green or blue wine.

No man can properly be regarded as "a scholar, a gentleman and a good judge of whisky" after about the fourth drink.

A Chicago man has invented a clock that can be heard five miles. Chicago men can't do anything without making a noise.

There is a quarrel among the Democrats who will control the coming Nebraska Legislature. They must be real Democrats.

Wouldn't this be a bully world to live in if all today's good wishes were to come true? Well, it isn't a bad world, even so.

A bond issue for the purpose of enlarging the jail capacity of Venezuela is the next move in the circles of international finance.

Prosperity has girded up her loins, so to speak, and stands ready to give this beloved and sunkissed pueblo a race for its life.

Gen. Castro has lost his friends in Venezuela, but he is gaining many new ones in the various places where he is spending money.

If Ben-Hur were in the chariot races that are to take place in the Crown City today, his reputation as a winner would stand in danger.

It is now 1909, according to the calendar, but what year of the earth it is is a question of which scientist has the biggest imagination.

We haven't the heart to wish Sicily a Happy New Year, because the phrase would sound like mockery, no matter how much we might mean it.

A Colorado baby, one month old, has been presented with $1,000,000 as a Christmas gift. And to think that Pat Crowe has turned evangelist.

Mark Twain has been made a corporation. We think it is illegal, because he is a monopoly of fun and does business in restraint of the blues.

We all expect to make money during the coming year, but it is only the Standard Oil Company and the baseball trust that are sure of doing it.

A man 98 years of age has just been released from a New York prison. We trust that he will be encouraged to reform and to begin a new life.

Italy will find that she can have all the money she needs by appealing to the United States alone, and it is money that need never be paid back.

Gov. Johnson of Minnesota and Mr. Jack Johnson, the prize fighter, are not related, of course, but there is a great resemblance in their wallops.

We trust that there is really no significance in the fact that the new year begins on Friday. Anyway, it doesn't begin on the thirteenth, thanks be!

We'll say this for Pierpont Morgan, that whenever there is a subscription to be raised for anybody in distress he is usually ready to start the list.

Col. Roosevelt has already ordered four of the guns he is to take with him on his African expedition. The balance of the arsenal will be ordered later.

Every year there are many people who come from the East to see Pasadena's Rose Tournament and then make up their minds that they do not want to go back.

Some men are foolish enough to expect credit for the liberality they display in giving away the cigars that their wives bought them for Christmas presents.

After a man has feasted his eyes on the girls in today's parade, and then feasts his eyes on the other girls who are not in the parade, he must not wonder at that extra flutter in his heart.

A woman in Missouri writes to her local paper to say that she doesn't know anything about Ibsen. But if she is good at baking pies and buckwheat cakes her ignorance of the great Norwegian will find ready forgiveness both here and hereafter.

THE "MIDWINTER."

Accompanying this sheet today are the six beautiful magazine parts constituting the annual Midwinter Number of The Times, carrying the New Year's greetings of the Great Southwest to the bounds of every land, to the shores of every sea.

The number speaks for itself. Comprising, with the news sheets, above 200 printed and illustrated pages, it is a great newspaper, the largest in volume printed in the world on this day. But it is not only large; it is rich; it is fragrant.

Every phase of the life and activities of our Southland is reflected in this issue. It is a compendium and a mirror of the progress and possibilities of the fairest land the sun sets on. It tells the world what the world wants to know about our domain and our people.

Best of all, it gives to eager readers the clew as to how they may enter in and possess this land with us and live the life here with comfort and profit. It will lure thousands of home-seekers to this region of the blessed.

No reader can fail to take note of the permanent and persistent character of this superb number. It is not a great waste of trashy sheets to be thrown aside after a hasty glance. It has the same qualities as a handsome book, and will long be treasured and studied by every recipient.

In fact, the annual Midwinter Number of The Times has become THE BOOK of Southern California and the Southwest—the authority and the inspiration in all matters pertaining to material development. What a splendid recognition!

RING IN THE NEW.

Happy New Year to you all who read The Times, and to all who read any other newspaper, and to those who do not read anything. As we look out into the new year from our watch tower, we may well overflow with good wishes to all mankind. Really, we feel so happy here on the watch tower that the sentiment of Tiny Tim at the Christmas dinner seems to be the only phrase to express it all. "God bless us every one!" sang Tim's tiny voice, and we can congratulate the people today that the new year opens with such abundant promise of good things. It is permitted us to entertain a well-founded hope that today Los Angeles stands at the beginning of one of the best years ever experienced in this bright land of the sun. In very truth we shall feel no surprise, 365 days from now, if we bid farewell to a year in which the progress of the city shall have been greater than that of any previous twelve months. And this expectation is not confined to Los Angeles city in any respect. These beams of hope go out to all Southern California and reach to the utmost bounds of the Great Southwest.

In studies of today, a generation of about thirty years is as far back as it is useful to go. Changes are so great that comparisons going farther back mislead rather than instruct. Los Angeles today has 300,000 population. When the population was counted in 1880 Los Angeles contained about 1,000 souls. In 1880 there were about 50,000, a growth of nearly 40,000 in ten years, or 4000 a year. This increase had mostly taken place in the last half of the decade, when, in some years, the growth was 10,000 a year. At the next census period the city had 102,000 inhabitants, showing a growth of over 5000 a year. Here, again, this increase of over 50,000 had been mostly in the last four years of the period, when, in certain years, the population had grown by 20,000 in the twelve months. The twenty years following 1880 gave a growth of well over 90,000, or about 4500 as the yearly average. These figures are made instructive by comparison—indicating that there was little growth for the first five years, and a growth of 10,000 a year in some of those in the early boom; a higher average for the second census period than for the first one, in spite of the dull business conditions prevailing all over the country from 1890 to 1896; a greater increase in population in the last half of the second period than in the boom in the last half of the first; and now from 1900 to 1908 an increase twice as great in eight years as in the twenty previous years. During some of these latest years there were added to our population 30,000, perhaps in one year 35,000, souls.

One fact comes out prominently in these studies. Since Los Angeles began to grow in a notable way, some twenty-eight years ago, there has not been one year in which there was not an increase in population. In the dull years between 1890 and 1896 the growth was steady and fairly rapid.

About face, and look into the future! Eighteen months from now the census men will be out again. We hope, as we look upon the promise before our eyes, that when the count is made up the figures will surely run above 325,000, and that they may count up not very far from 350,000. There seems no reason to doubt that in the year and a half the new growth will reach at least 30,000, and there is not wanting ground for hope that it may surpass 40,000, as an extreme reach, 50,000.

We are confining our prognostications to population. That is the best appreciated, the most easily seen, and the most substantial exponent of progress. If we continue to grow thus in population, the real estate speculator will sell his vacant lots and realize his profits; the building trades will all be kept busy putting up homes for newcomers; those who sell material will find business good; as office buildings begin to crowd, new ones will be erected; with employment good, tradespeople will all do a flourishing business; manufacturers will be pressed to fill orders; the home market will expand and new enterprises will be started; churches will be better filled and better supported; and schools, public and private, will have more to do.

What takes place in Los Angeles will be seen in all other cities in Southern California in due proportion, and the good times will be in such overflowing measure that they will spread into every village. There is not a corner of the Southwest into which the rainbow of promise does not penetrate.

But material things do not cover the prophecy in full. This is a great art center, and one of great mental cultivation. The population that has come in here has been, on the whole, a people of exceptionally high mental attainments and moral principles. As this growth goes on the leaven of righteousness will be larger in proportion to the mass and the average citizen will be better. Schools of all kinds will gain patronage and become influences for good, increasing even more rapidly than the population or the material wealth.

Be happy today, then, in the enjoyment of the many rich blessings actually ours in hand, and let your happiness abound at the contemplation of the good cheer that dawns on us with this New Year's Day! Let us all be so bright, so hopeful, so optimistic that there will not be left a place for a cloud of discontent or despair.

The effort to secure financial aid for Italy's suffering people should not be delayed. The world does not remember anything very long; and it forgets other people's sorrows the soonest of anything.

Col. Roosevelt will hardly be contented to lie back on his position as the only living ex-President.

HAPPY NEW YEAR!

THE FETE OF THE CROWN OF THE VALLEY.

Surely the fates are kind to our fair sister, Pasadena, today. The weather is as bright and balmy as spring, and so are the roses.

One might wander the wide world over, on this New Year's Day to find another spot where nature is in so charming a mood as at the Crown of the Valley.

And oh, what a valley it is! From the base of the grand, purple mountains to the white sand, where the sapphire seas break in snowy spray and musical melody, all is fair.

Old-timers will circulate through the crowd with a card full of figures, getting tenderfeet to guess how many inhabitants were in Pasadena twenty-five years ago, and when 1000 is mentioned, they will pull the deadly fact in black and white, which will be 350, or something thereabout. They will tell of the time when there were about two groceries in the whole countryside, when houses were a mile apart, when there were no streets, churches, schools, or any of the things of today that make Pasadena one of the show places of the world, with the most beautiful gardens, houses that surpass palaces in splendor, banks and mercantile houses without number, and a population rising above 20,000.

Twenty-five years ago, all there was to be seen was the site, the superb view, the choice soil, the blue skies, the bright days, the mountains and the plains, the roses and the mocking birds. These were enough. These were the irresistible talismans which drew together so intelligent, wealthy and moral a population as now makes up the city of Pasadena.

ROYAL ITALY.

The King and Queen of Italy are setting an example to all rulers. They have left their palaces and gone into the very center of the misery caused by the greatest cataclysm of recorded time.

No miserly pittance stands for the largess of this noble King. He has given promptly, and that is equal to giving twice, and he has given with both hands and both open. Not by thousands, but by millions, is his liberality to be measured. Two million lire is the sum the King has set apart to relieve the awful distress of his people. We have reduced the monarch's gift to our money in the papers, $400,000. Even so it looks immensely large. But the correct view is gained when we speak in the currency of the country. A lira goes about as far in Italy as a dollar in America. To give a lira there is about the same as to give a dollar here. Wages in Southern Italy, where agriculture is about the only industry, range at from 10 cents to $1 a day. Here the range is from $1 to $10. The lira is one-fifth of a dollar, and the daily wage here is ten times as great as there. Wages may be taken generally as a measure of material things in a country.

The King of Italy has frequently shown himself to be a King from top to toe, and to the core of his heart. At this time he stands before us as the true shepherd of his people. The Italian people are devoted to their ruler, and well they may be.

MY COUNTRY—MAY SHE ALWAYS BE RIGHT.

At the base of a monument erected at West Point is the legend, "My country, right or wrong." A story has been told for a number of years which sets forth a banquet where a company of Americans bantered a lonely Englishman on the shortcomings of Albion, then challenged him to a toast, the subject of which should be England. He is reported to have said: "My country—may she always be right, but my country, right or wrong."

Now the sentiment is a happy one, and it is a case of the palm to him who merits it. We, then, must crown Stephen Decatur with the poet's wreath as the author of this sentiment.

Stephen Decatur, well known as having been a commodore in the United States Navy, was born in Maryland in 1779. At a banquet in Norfolk, Va., in 1816 he gave expression to this sentiment: "Our country—in her intercourse with foreign nations may she always be right; but our country, right or wrong."

The legend on the monument at West Point is addressed to soldiers, whose business is to obey and not to question. The sentiment came from the mouth of a naval officer, as bound to blind obedience as the soldier.

TREATIES, NOT WARS.

We must not be discouraged, but rather hopeful as to the progress we are making toward those conditions which shall do away with international wars. It is not unnatural to feel some impatience when we realize how unnecessary and how unreasonable wars are. But we are really making great progress.

With the opening of the new year a treaty is likely to be entered into between our own government and that of Great Britain, by which disputes dating back to the close of the War of 1812 with Great Britain shall be submitted to the Hague tribunal. These disputes relate to fishery rights in the waters lying along the borders of our country and portions of British North America, and to the use of waters in the boundary line between the two countries. It is really a three-cornered quarrel. The imperial government of Great Britain must settle these questions in such a way as to satisfy the United States and the people in the colonies.

The latest phases of the contest have been in the hands of most competent persons. The imperial government is represented by Sir James Bryce, a great statesman and profound admirer of our country. Our side of the controversy has been handled by Hon. Elihu Root, Secretary of State.

It speaks highly for the peaceful spirit of the United States and for the people of Canada that these disagreements should have lasted so long without a rupture. In former ages bitter wars have grown out of these points in dispute. But by wise mutual forbearance we have managed to keep the peace so long, and now the issue is to be submitted to arbitration. If the dispute were one in which the United States and Great Britain only were concerned, a treaty could be made to settle the whole question. But the imperial government has been embarrassed by some of the people of Canada, who have alleged that a desire to preserve cordial relations with the United States has led the home government to impair the rights of Canada. It is in order to satisfy these people that both countries consent to leave the subject to an impartial tribunal composed of a commission selected from neutral powers, who will pass upon the disputed points.

With a Handful of Roses.

Everything my heart would say
Valiant roses shall declare,
Since my lips, less bold than they,
Dread her frown and do not dare.
They shall nestle on her breast,
They shall whisper, soft and low:
"He loves truly, he loves best,
Who's afraid to tell you so."

Everything my heart would say
These brave roses know full well,
And they mean, in their sweet way,
More than any words could tell.
They shall be her bosom's guest;
They shall whisper, soft and low:
"He loves truly, he loves best,
Who's afraid to tell you so."

BY COZETTE.

Of many coming feuds the stars complain
But o'er our land prosperity will reign.

Throughout the coming year Mars enters aspects periodically that afflict all the continents and almost all the nations thereon, pointing to "battle, rebellions and destructions of strong places."

Commercial prosperity and material well-being are promised through 1909 for the United States and Canada, but great disasters from explosion and other violent agencies are in the sign.

There will be wide spiritual unrest in North America and a new belief will gather many adherents. "Armed hands grasping treasure" indicate a demand for much money for the army and navy. "The ruling of a fatted city" will cause a conflict that will involve many national interests. Traitors among victors' councils will cause trouble and endanger important measures.

"They that war with golden weapons will use unexpected methods against their adversaries. A great secret will be unveiled in a place of public judgment.

Among other indications for the year are a conspiracy of enemies against the acts of the new President; a great speculation in the exchanges of New York and Chicago; a medical discovery that promises alleviation and salvation to a multitude; and a bold attempt to defeat the will of the people in a great cause.

"Friendship by contract augurs but ill for France during the year. The sun near the square of Mars over Madrid makes a black omen for the King of Spain. In May the new moon in Russia falls in the conjunction of Mars and the sun, a sign threatening "bloodshed, destruction of rulers and lost battles."

England is menaced by martial signs. A sign for Europe east of the 4th degree of longitude foretells the "transmigration of a king" and a "rebellion of lords and peasants."

In Asia feuds of race against race and creed against creed are foreomened.

During the winter quarter the United States will be annoyed by news from Washington. There is also a menace against Washington of treachery from a foreign nation. On the Pacific Coast a prominent official will be in danger. In the South there is a menace of troubles between the races and excitement over a great white crop.

England, Germany and Denmark will probably suffer throughout this quarter from the eclipse influence, which also brings marked danger to a great ruler.

On this first day of the year, Uranus is in ecliptic conjunction with Mercury, and both planets are in benefic aspect to the moon.

It should be an excellent day to ask favors and to push all pending affairs that are not primarily business.

Women with this birthdate will find a sure guide in a coming problem if they hold undeviatingly to honor and justice.

At noon today herbs under the sun—almond, juniper, mustard, olive and walnut—are good. At 7:30 p.m. comes a good hour for herbs under the moon—pumpkin, winter green, watercress, white rose and lettuce.

Inspiration and fortune are promised by Saturn to men with this birthdate. Those in employment will find if they seek.

The sign over children born this day is for honor, pride and independence. Girls may develop a great talent for teaching. Boys should grasp mathematics readily.

Butts and Ends.

The War Department paid $94,418 for artificial limbs last year.

The Spokane, Portland and Seattle Railroad has cost $250,000 a mile, and is the costliest line in the world.

Remains of a Roman cemetery were recently brought to light by a French scientific expedition at Tangier.

South Australia has purchased 1600 acres of land to demonstrate the most modern methods in dairy farming.

Nearly 50,000 horses were killed for food in Paris last year, an increase of nearly 10 per cent. over the preceding year.

Let us hope that the noisy drones will give the working bees a chance during 1909.—[Dallas News.

Montgomery Brothers

The diversity of beautiful and worthy things is so great, the reliability of every item is so well understood, the environment is so pleasant, the clerical service so courteous, diligent and attentive, and the prices so agreeably low for the qualities offered, that discreet shoppers take genuine pleasure in entering our store, so carefullly, and, we are told, so skillfully are our stocks arranged as to practically remove the usual confusion and delays incident to selection and comparison of alternate choices.

Notwithstanding that the variety and extent of the stocks in the several sections are unmatched in Los Angeles, things are so disposed that the only difficulty is "an embarrassment of riches." Articles widely different in character are quickly and pleasantly brought together, advice is never proffered by salesmen unless by request, and when given, it may be relied upon.

The excellence of every item in the store is obvious to any eye at all conversant with value, either in Diamonds or other Jewelry, Watches, Solid Silver, Cut Glass, Clocks or whatever kindred thing, and for such as mistrust their own technical knowledge the Montgomery Bros. guaranty, almost as old as Los Angeles itself, guards every transaction, though it be measured by pennies.

Contrary to the expectations of many who are yet unfamiliar with the reputation of our house for honorable dealing, no excess is charged for the prestige of our name upon the box, nor yet for the guaranty. These factors of value we like to consider our acknowledgment of the enduring public esteem in which the store is held and which we so deeply appreciate.

We wish you all a Happy and Prosperous New Year.

FRIDAY, JANUA

MUSIC AND THE STA

"Carmen" drew the larges[t] ence of the opera season, to the Opernhouse, last night. The tion of Bizet's masterwork wa itself, and the listeners, already ened by a mild holiday feelin in a mood for prompt appreciat vigorous applause.

There have been Carmens an mens—and doubtless there will other Carmens, of divers var all the years to come.

The exact refinement of Prosp rimee's heroine is not indicated transcription to the stage, there have been Carmens well r who made her very much of and other Carmens equally acc who made her just within the of the presentable. Also, there been all degrees of liveliness, grees of flirtatiousness, and m dinous methods of singing.

Dolores Frau, who sang the p the Mason Operahouse last ni not such a brilliant Carmen as Dereyne, but she is genuinely th presented here by any Italian company since Collamarini. He conspicuous fault seems to be a untoward heaviness, which make appear clumsy in her dancing. dresses the part well, and her s of it, though not in a voice m by very much languorous sens ness, was pleasing.

Her acting is vigorous and spi and in several places she pres some distinctly new ideas of ness" and performance during chorus work or the airs of other ers.

All the other Italian opera Car have had as a first fault bad si This Frau does not do. She sings when it appears necessary for h sacrifice a little dramatic effect i der to maintain an even and unw ing voice.

Mr. Battain did far better wo Don José than as the Duke, in " letto." By no means could he be ceived as an ideal Duke in appear but his figure and demeanor fit better the character of the Sp corporal. His style of singing, t more suited to the impassioned d mations of Don José than to the chalant deviltry of the Duke, an vocal faults, in like manner, are conspicuous.

Battain has an unusually strong brilliant tenor voice, used in an u careless manner. His breath cont imperfect, and as a consequence proper continuity of his phrases is quently broken. In the "Flower s of the second act of last night's ers, however, he gave a masterfu terpretation, and was vigorously called.

Angelo Antola made his first pearance here in two years last s ing, singing the Toreador. Beside larger voices of the company An tone seems small, but it was a of superb quality and beautiful His singing of Escamillo's brilliant distinctive air was in dramatic virile style that brought down hina the greatest shower of appl manifested since the opening of opera engagement. Such a beautif poised tone as he showed them sh be splendid in the voicing of V tine's music tonight.

One of Lambardi's little peculia was brought vividly to mind with appearance of Olga Simzis, as Mic Here is a young woman who is a lightful little singer, possessing a praise of even, lyric quality, and elderable art in its use. She has in Lambardi's company for sev years, yet the writer does not r ever hearing her before. Lamb has a habit of producing the l hidden surprises most unexpected times.

Artidori Mauceri was a notable cess as Capt. Zuniga, doing the acting in which he has been pub caught in Los Angeles, and len considerable authority to the part his commanding stature.

The chorus work was good, and orchestra, though very ragged at ments, pulled itself together in a orous fashion for the better-kn concerted numbers.

This afternoon a New Year's mati of "Trovatore" will be given at opera. Tonight "Faust" will be hea with Graziani as Faust, Martino Mephistopheles, Perrabini as M guerite and Antola as Valentine.

Mme. Tosi-Ardinoni, who has not peared as yet, should be heard be long. She will probably be seen Nedda, in "Pagliacci," early in week.

Artidoro Mauceri, who hails f Messina, has been spending conside ble money in cablegrams, and is a lously haunting the telegraph off Though he has been for many ye away from his birthplace he still h or had—a large number of relatives ing there.

Mme. Nordica has been quite ill d ing the past few days with bronch but, according to her physician, Dr F. T. Jenkins, she hopes, with care, to be able to sing in Fresno the 4th inst.

Mme. Nordica was unable to h an engagement at the opera Wednesday evening, though a box reserved for her, and she was remo to the home of her sister, Mrs. H. Castillo of No. 1575 West Twenty-s ond street, where she is at present.

Holiday matinées will be given in of the city's theaters today.

IN THE BIG INDUSTRIES

Iron-Making in the South.

Special attention has been called the southern iron industry by the t timony of Charles M. Schwab bef the Congressional committee for the vision of the tariff. At Birmingham, said, iron can be produced chea than in England and Germany. Wit knowledge of this fact he has be building new mills at Birmingham the manufacture of structural st As the South is still a practically v gin field in iron and steel product It is expected that Mr. Schwab's te mony and business action will draw creased capital to the southern mini regions, and that Abram S. Hewit prediction of eight years ago will r idly come true, that in the next qu ter of a century the South will do nate the basic steel industry of world.

Shoes in the World.

The United States is becoming shoemaker of the world. In 1878 number of pairs of boots and shoes ported from the United States was o 251,000; in 1888, 564,000; in 1898, 1,307,0 and in 1908, 6,552,000. MUSIC AND THE STAGE.

"Carmen" drew the largest audience of the opera season, to the Mason Operahouse, last night. The rendition of Bizet's masterwork was spirited, and the listeners, already enlivened by a mild holiday feeling, were in a mood for prompt appreciation and vigorous applause.

There have been Carmens and Carmens—and doubtless there will be still other Carmens, of divers values, in all the years to come.

The exact refinement of Prosper Merrimee's heroine is not indicated in the transcription to the stage, hence there have been Carmens well received who made her very much of a lady, and other Carmens equally acclaimed who made her just within the verge of the presentable. Also, there have been all degrees of liveliness, all degrees of flirtatiousness, and multitudinous methods of singing.

Dolores Frau, who sang the part at the Mason Operahouse last night, is not such a brilliant Carmen as Fely Dereyne, but she is genuinely the best presented here by any Italian opera company since Collamarini. Her only conspicuous fault seems to be a little untoward heaviness, which makes her appear clumsy in her dancing. She dresses the part well, and her singing of it, though not in a voice marked by very much languorous sensuousness, was pleasing.

Her acting is vigorous and spirited, and in several places she presented some distinctly new ideas of "business" and performance during the chorus work or the airs of other singers.

All the other Italian opera Carmens have had as a first fault bad singing. This Frau does not do. She sings even when it appears necessary for her to sacrifice a little dramatic effect in order to maintain an even and unwavering voice.

Mr. Battain did far better work as Don José than as the Duke, in "Rigoletto." By no means could he be conceived as an ideal Duke in appearance, but his figure and demeanor fits far better the character of the Spanish corporal. His style of singing, too, is more suited to the impassioned declamations of Don José than to the nonchalant deviltry of the Duke, and his vocal faults, in like manner, are less conspicuous.

Battain has an unusually strong and brilliant tenor voice, used in an utterly careless manner. His breath control is imperfect, and as a consequence the proper continuity of his phrases is frequently broken. In the "Flower Song" of the second act of last night's opera, however, he gave a masterful interpretation, and was vigorously recalled.

Angelo Antola made his first appearance here in two years last evening, singing the Toreador. Beside some larger voices of the company Antola's tone seems small, but it was a tone of superb quality and beautiful use. His singing of Escamillo's brilliant and distinctive air was in dramatic and virile style that brought down upon him the greatest shower of applause manifested since the opening of the opera engagement. Such a beautifully-poised tone as he showed them should be splendid in the voicing of Valentine's music tonight.

One of Lambardi's little peculiarities was brought vividly to mind with the appearance of Olga Simzis, as Micaela. Here is a young woman who is a delightful little singer, possessing a soprano of even, lyric quality, and considerable art in its use. She has been in Lambardi's company for several years, yet the writer does not recall ever hearing her before. Lambardi has a habit of producing the long-hidden surprises most unexpectedly at times.

Artidori Mauceri was a notable success as Capt. Zuniga, doing the first acting in which he has been publicly caught in Los Angeles, and lending considerable authority to the part by his commanding stature.

The chorus work was good, and the orchestra, though very ragged at moments, pulled itself together in a vigorous fashion for the better-known concerted numbers.

This afternoon a New Year's matinée of "Trovatore" will be given at the opera. Tonight "Faust" will be heard, with Graziani as Faust, Martino as Mephistopheles, Ferrabini as Marguerite and Antola as Valentine.

Mme. Tosi-Ardizoni, who has not appeared as yet, should be heard before long. She will probably be seen as Nedda, in "Pagliacci," early in the week.

Artidoro Mauceri, who hails from Messina, has been spending considerable money in cablegrams, and is anxiously haunting the telegraph offices. Though he has been for many years away from his birthplace he still has—or had—a large number of relatives living there.

Mme. Nordica has been quite ill during the past few days with bronchitis, but, according to her physician, Dr. J. F. T. Jenkins, she hopes, with due care, to be able to sing in Fresno on the 4th inst.

Mme. Nordica was unable to keep an engagement at the opera on Wednesday evening, though a box was reserved for her, and she was removed to the home of her sister, Mrs. H. C. Castillo of No. 1575 West Twenty-second street, where she is at present.

Holiday matinées will be given in all of the city's theaters today.

IN THE BIG INDUSTRIES.

Iron-Making in the South.

Special attention has been called to the southern iron industry by the testimony of Charles M. Schwab before the Congressional committee for the revision of the tariff. At Birmingham, he said, iron can be produced cheaper than in England and Germany. With a knowledge of this fact he has been building new mills at Birmingham for the manufacture of structural steel. As the South is still a practically virgin field in iron and steel production it is expected that Mr. Schwab's testimony and business action will draw increased capital to the southern mining regions, and that Abram S. Hewitt's prediction of eight years ago will rapidly come true, that in the next quarter of a century the South will dominate the basic steel industry of the world.

Shoes in the World.

The United States is becoming the shoemaker of the world. In 1878 the number of pairs of boots and shoes exported from the United States was only 251,000; in 1888, 564,000; in 1898, 1,307,000, and in 1908, 6,552,000. The value of the boot and shoe exportations in 1878 was $169,000; in 1888, $655,000; in 1898, $1,-817,000; and in 1908, $11,470,000. The number of pairs of boots and shoes sent out of the country from 1878 to 1908 aggregates, in round terms, 57,500,-000, and their export value, $88,000,000.

The principal boot and shoe exporting countries of the world are Germany, Spain, France, the United States, and the United Kingdom and the exports from the United States far exceed in value those of any other country though the number of pairs exported from the United Kingdom still exceeds those from the United States. In the calendar year 1907, the latest year for which figures from Great Britain are available, the total number of pairs of boots and shoes exported from the United States was 6,226,-527, valued at $11,658,323, and from the United Kingdom, 9,422,206, valued at $9,950,356.

Gasoline Propelled Vessels.

Gasoline propelled craft have been proved so available for waters permitting only light draft vessels, that the Austro-Hungarian government has recently acquired two sixty-foot boats for special naval duty on the River Danube. The boats have a mean speed of 22¼ knots per hour, but running with a speed of eleven miles per hour the tank provided contain gasoline enough for 500 miles. This action of the Austro-Hungarian government is expected to give an impetus to the construction of gasoline propelled boats of large size.

Marble Going East.

California marble is beginning to compete in the East with the product of older quarries in other States. A carload of Tuolumne county marble was recently sold to go into the interior of a New York building, despite the fact that the freight alone amounted to $2 a square foot. The quarrying of marble is a growing industry in California. In 1906 Tuolumne county produced 23,000 cubic feet of marble, valued at $46,000. The only other counties which in that year produced marble in commercial quantities were Inyo and San Bernardino, whose output brought the total for the State to 31,400 cubic feet, valued at $75,800. In 1907 37,512 cubic feet were produced, a gain of 6000 cubic feet. The increase of the value of the product is still more marked, the value in 1907 being $18,065. In addition to the three counties listed in 1906, marble was quarried in Los Angeles, Riverside and San Diego counties in 1907.

Happy New Year!

The Staub Store takes this opportunity to thank its wide circle of patrons for their patronage during the past year.

We do not believe there is another store in the country where more cordial relations exist between a retail establishment and its customers.

Business at this house does not consist in schemes to get rich quick at customers' expense.

We can say in all truth, that our plan and our desire is to conduct a store along such lines that we actually give the most that can be given, that we work for and protect our customers' interests in every way.

This means, in short, operating a clean, honest store, selling clean, honest shoes, and doing a clean, honest business.

If this is also your idea of what a store should be, we invite you to let us supply your footwear needs.

EVENTS IN LOCAL SOCIETY.

MR. AND MRS. GEORGE M. NORTH of No. 1033 Ingraham street announce the engagement of their daughter, Miss Helen Kate North, to Ernest Allen Strout, a prominent young mining engineer. The romance began while Miss North and her betrothed were students at Stanford University. Yesterday afternoon Miss Edith Furrey of No. 1103 Ingraham street entertained members of the Gamma Phi Beta, of which Miss North is a member, with a luncheon. During the afternoon the secret was made known. The wedding will take place in March, and the couple will make their home in Guanajuato, Mex., where Mr. Strout has a position.

Dance Elaborate.

The members of the younger set had a delightful dancing party last evening, given by the Misses Elizabeth and Florence Modini-Wood at their home, No. 20 St. James Park. The home had been turned into a veritable fairyland. Each room was canopied with asparagus plumosus. Entwined in the greenery in the hall, many tiny blue electric bulbs winked and blinked. In the drawing-room hundreds of little red lights glistened, and in the dining-room pale green bulbs cast a soft glow over the young folk as they danced. The attractive arrangement was completed with butterfly bows of fluffy tulle. The young hostesses were assisted in receiving by Miss Mildred Burnett, Miss Katharyn Stearns, Miss Nonta Haupt, Miss Emma Conroy and Miss Hazel Childress.

Noon Wedding.

Miss Myra B. Keller, daughter of Mrs. Emma B. Myers of No. 610 West Thirty-sixth street was married yesterday at noon to Donald G. Keeler. The ceremony took place at the rectory of the officiating clergyman, Rev. Baker P. Lee. Miss Keller wore a becoming suit of tan chiffon broadcloth with hat, gloves and shoes to match. The immediate family only witnessed the ceremony, and Mr. and Mrs. Keeler left for Riverside, where they will spend their honeymoon. Upon their return they will reside at No. 1915 West Twenty-second street.

Mrs. Donald G. Keeler,
whose wedding yesterday was of interest to many friends.

West Again.

Mrs. F. A. McCready and her son, L. D. McCready, have returned from an extended trip through the East and South.

Club Meeting.

Members of the Aeolian Club were entertained last Wednesday at the home of Miss Anna Schulman. The affair was planned in compliment to Mrs. Herbert Ferguson Poole. The home was decorated attractively in the club colors, green and gold, smilax and golden rod being combined. The guests were Miss Pearl Kardell, Miss Ruth Chamlee, Miss Lillian Pressman and Miss Beulah Jungquist.

At Home.

Mr. and Mrs. W. D. Newerf of South Pasadena have returned from a pleasant trip. While away they visited Chicago, Detroit, Cleveland, Akron, Buffalo, Pittsburgh, Westfield and other points of interest.

To Receive.

Mrs. Fred Bixby, Mrs. E. A. Bryant and Mrs. Hancock Banning will receive Wednesday afternoon, January 6, at the home of Mrs. Bryant, No. 904 West Twenty-eighth street.

Theater Party.

Mrs. M. G. Ryland of Arizona entertained a number of friends last evening at the Mason Operahouse. Among the guests were J. M. Statham of Fresno, Mr. and Mrs. Walter Smith of Detroit, Mrs. Clara Garrison, Miss Bertha Welshans of Danville, Ind., and Mrs. E. H. Hutchinson and daughter.

To Wed Tonight.

At the home of Rev. and Mrs. V. A. Henry of No. 1236 West Thirtieth street a pretty wedding will take place this evening when their daughter, Miss Emily V. Henry, will be married to William R. Young.

Mrs. Farrall Hostess.

Mrs. J. C. Ferrall of No. 900 South Union avenue had as guests yesterday afternoon members of the Pi Beta Phi Sorority.

Mrs. Banning Home.

Mrs. Hancock Banning, who has been spending several months in Europe for the benefit of her health, has returned, and with Mr. Banning and the children has gone to Wilmington for a short stay.

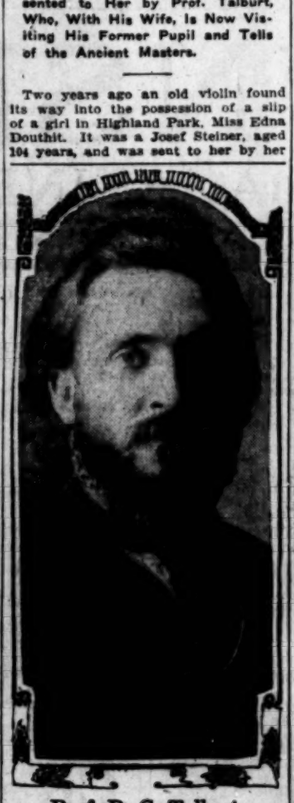

TUNEFUL.

GIFT TO GIRL IS OLD VIOLIN.

YOUNG HIGHLAND PARK MUSICIAN HAS A TREASURE.

Josef Steiner Instrument Presented to Her by Prof. Talburt, Who, With His Wife, Is Now Visiting His Former Pupil and Tells of the Ancient Masters.

Two years ago an old violin found its way into the possession of a slip of a girl in Highland Park, Miss Edna Douthit. It was a Josef Steiner, aged 104 years, and was sent to her by her former teacher, Prof. R. C. Talburt of Seattle, who bought it in old Mittenwald on the Iser, for this young musician in Los Angeles.

Prof. R. C. Talburt,
a violin connoisseur, who is visiting in the city.

Now the giver is visiting during the holidays in the Douthit home on Pasadena avenue, and has brought another rare old instrument with him, his own chosen vehicle of expression, a Testore, and the mate to one owned by Kubelik. Last winter when Kubelik was in Seattle the two violin lovers compared these twin instruments, and exchanged for the space of an hour or two; the noted violinist made music with the one that is now in Los Angeles, and Talburt tucked Kubelik's pet instrument under his chin and drew out the golden tones that dwell within.

Prof. Talburt is a musician and composer, but above all else in the world he loves those rare old instruments, made in the day when men labored in Tyrol and gave souls to violins, then buried the secret with their own devoted human hearts.

Few men on the Coast know as much about violins as this unassuming professor, whose inherited wealth of Teutonic sentiment is expressed in his music and his study of the sentient productions of the old makers.

He has spent many holidays across the water, in that radius of 160 miles where all the great violins of the world have been made, where Stradivarius and his school of followers lived and labored. Part of this territory is German, so Prof. Talburt explains, and part is Italian. The strip between belongs to Austria.

The maker of Prof. Talburt's own violin lived in this territory, and it is delightful to hear this latter-day enthusiast tell of that Testore who lived nearly 200 years ago, and how he made violins for pleasure and not for money. Testore was a gentleman of estates and something of proud boastfulness shows in the label that still marks some of his productions, for the label mentions the estates. A distinguishing mark of this gentleman violin maker, as Prof. Talburt relates, is the lack of "purfling," which to the uninitiated is a little strip set in around the edge of the case to keep the wood from cracking.

One would not suppose that the grain of the wood could make any difference in the tone of the violin but it is interesting to hear how each inequality in texture has its influence upon the tonal qualities of the violin.

According to this expert it is not age alone that makes the great price of these old instruments. Hill Brothers of London, according to Prof. Talburt, have a famous Stradivarius named "Messore," which they have taken apart and copied exactly piece by piece in the new violins they are making today. Still the secret has not been found. The price for the new Hill instruments is $150, while the Strad that Mr. Spreckles bought from the famous Hawley collection in San Diego, not long ago, cost $12,000.

Prof. Talburt is accompanied by his wife and they will remain in the city until early next week.

FOR DEEPENING HARBOR.

Communications have been received by the Chamber of Commerce and Board of Trustees of San Pedro and the Harbor Commission from Capt. A. A. Fries, relative to diverting available funds to deepening the harbor. In his letters, Capt. Fries states that this can only be done by special authorization of Congress. He advises that the commercial bodies take the matter up with Senator Flint. About $84,000 is available for the further construction of the turning basin. As it has been already dredged to a width of 1200 feet, Capt. Fries is of the opinion that the money can be expended to better advantage in deepening the harbor until the uniform depth of thirty feet is reached.

If Youire Coming To California

The man who is coming to California is the man I want to get in touch with. The Easterner who makes Southern California his home wants the best the country affords. But, above all things, he wants to make money. I have convinced people from almost every State in the Union that the CUDAHY RANCH offers every advantage that every other part of Southern California offers, and a few which are peculiar to itself.

The CUDAHY RANCH is a large body of wonderfully fertile land which lies right at the southeastern gate of the city of Los Angeles. A year ago the CUDAHY RANCH was put on the market in acre lots. Today there are over fifty houses completed, many more under construction and 95 per cent of CUDAHY RANCH purchasers intend to build and settle there in the immediate future.

The CUDAHY RANCH is making good money for the people who have bought there. These people are raising truck vegetables, general farm produce, poultry and many other products that command high prices in the Los Angeles markets. Alfalfa yields from seven to ten cuttings a year. As one of the buyers recently said: "A man who cannot make a living from three acres of CUDAHY RANCH land has only himself to blame."

Cudahy Ranch

You can buy Cudahy Ranch lands today at $500 an acre. The terms are easy—quarter cash, balance long time. The water plant develops sufficient water for every purpose, and this plant is owned and operated by the ranchers.

The Cudahy Ranch is about 6½ miles from the business center of Los Angeles—electric cars run frequently, making the trip in twenty minutes. This proximity to the city renders the Cudahy Ranch an especially desirable place for the family which wants a country home, where money can be made, with the city's conveniences at hand. The Cudahy Ranch is a colony of suburban home places, with telephones, oiled streets, mail delivery, churches, schools, stores, and many other facilities.

If you contemplate coming to Southern California, I want to write you a personal letter. If you will drop me a line, stating when you expect to come, how much money you want to put into a piece of property and what you would like to raise on it, I will tell you frankly what your chances are of making a success on the Cudahy Ranch. Write me today.

AUTOS TO ROLL UP STEEP HILL.

Pasadena-Altadena Contest Late in February.

Dealers Preparing for Big Motor Car Meet.

Stanley Steamer May Race in Special Class.

Preparations have been begun for the Pasadena-Altadena automobile hill climbing contest that is to be held on Washington's Birthday. The course extends from just within the city limits of Pasadena to the crown of a hill in Altadena, and is one of the ideal hill-climbing courses in the West. The meet will be under the auspices of the Automobile Dealers' Association.

There is certain to be a large entry list, as there is not a dealer in town that will not enter one or more cars. The course offers an ideal test to any car, and the liberal number of classes into which the race meet will be divided promises an opportunity for every make and price of car.

The Pasadena-Altadena hill climb is the one event into which the dealers will throw all their energies. The association takes especial pride in making this meet a success. Thus far the contest has been conducted in a highly satisfactory manner, and the results have shown that the meets tend to interest more people in the motor car than any one public stunt held during the year.

On a course that offers a chance for speed, as well as an opportunity to prove the pulling power of an engine, the hill is just what is desired for an automobile hill-climbing test. The first turn is difficult, and a few yards beyond this turn is a railroad crossing which must be made at top speed. Last year this crossing was bridged and trains were stopped during the contest. The railroad officials will extend the same courtesy this year.

A wooden bridge will again be built across the railroad tracks and the cars will go bouncing over the planks instead of bumping over the rails.

BRIDGE BUILDING.

The building of the bridge is to be a task that must occupy as short a time as possible. The runway will be put together in sections, and then placed on the tracks. The contest must be pulled off within two hours, and the few minutes that intervene between the stopping of the trains and the start of the first car, must be occupied by the bridge builders in spanning the tracks.

There is an animated discussion just now among the dealers regarding the status of the Stanley steamer. This trim little racer gathered all the honors at Riverside recently. Now comes the question of just how the Stanley shall be allowed to enter in the Pasadena climb.

There is no disposition on the part of the Stanley men to hog things. It is more than likely that they can enter almost every one of the divisions of the gasoline class and win first honors. The gasoline men say it is not fair to let the little steamers in on a basis where they will gather the majority of first places. The Stanley steamer has a wonderful advantage in a short race, in that it can gather a heavy steam pressure and start like a rocket.

The steamer men are willing to enter a class by themselves. They promise to start ten or a dozen steamers which will furnish thrilling races. They desire to be allowed to enter the free-for-all class. This is to the liking of a majority of the gasoline men.

The Pasadena course will not be as ideal from the steamer men's viewpoint as was the Riverside hill, as the course is longer and the gas car has a chance to gain momentum.

Several of the dealers are in communication with their factories in regard to sending out new cars for the events. These cars must be stock, but they will be specially tested at the factory and tuned to a nicety before being shipped.

OLD TIME WINNER.

The Apperson "Jackrabbit" won the honors last year, with Edgar Apperson driving. This year the new type of Jackrabbit will be shipped direct to H. O. Harrison, who will drive the car himself.

William Folberth of the Oldsmobile factory will come out here in time for the automobile show, and will remain for the hill climb. He will have one or two of the late model Oldsmobiles, and it is believed that these will move wonderfully fast. The Olds made the fastest time in the touring car class at Riverside recently.

Leon T. Shettler handled the meet for the dealers last year. He may be invited to take charge of the races this year. He declares, however, that the task is a thankless one, and he would rather step aside for some other enthusiast. Shettler expects his Kissel "Six" here in time for the races. The Kissel "Thirty" and "Forty" are already here, and he will have fast cars in the Reo class. Bert Latham will drive for Shettler, and the Reo and Kissel man will have the largest number of entries.

R. J. Leavitt of the Locomobile agency who is now recovering from a severe attack of typhoid fever, will enter two of his Locomobiles, a roadster and a touring car. Leavitt expects to win, and it is safe to predict that the "Loco" will make a fine showing.

The Western Motor Car Company will have the Chalmers-Detroit "Bluebird" on the course. This fast car won in its class at Riverside. Bert Dingley will drive. The Stoddard-Dayton will be represented and Frank Siefert will be on hand to guide the little roadster.

Bill Reese, who is always ready to enter any contest, will have a Pope-Hartford. This time he will enter a 1909 car. It will be the début of the new Pope. Bill says he is tired of entering old cars, and he will stand for nothing but a late model this time. He expects the Pope to make a great showing.

The Auto Vehicle Company have already begun to tune up cars for this climb. They expect to enter at least three classes, and George Kussman will probably drive each of the cars. The Tourist has already won honors in several hill climbs, and this year's car is said to be faster than ever.

While much of the dealers' time is taken in preparation for the automobile show, there are those who will be kept busy from now until the time of the meet, perfecting the details for the auto gathering at Pasadena. All signs point to a large attendance on February 22, and this year's meet should be the best ever.

FRANK G. CARPENTER will introduce in The Times Magazine the coming Sunday, his important series of letters on the "Awakening of Asia."

THERE will be an abundance of good fiction in The Times Magazine of the coming Sunday.

FACTS, FEATURES AND FANCIES FOR WOMEN

BY MISS SYDNEY FORD.

When you have a lot of shopping to do, go in the morning. It is a mercy both to yourself and the salespeople. Then your mind is clear and refreshed, and you are apt to have pretty definite ideas of what you want and how much you wish to pay for it. On the other hand, the shop girls have their morning smiles and unruffled nerves. If you wait till afternoon you are sure to encounter crowds, you ay have to wait to be served, and in no time you get so tired and confused that you hardly know what you want. However, the afternoon is the best time of all to window-shop—when you just want to saunter leisurely up Broadway and inspect the offerings displayed so attractively in the windows. You are sure also of meeting many of your friends and acquaintances. Really, it's almost like going to an afternoon reception—strolling up Broadway these lovely, sunny afternoons. You pick up lots of ideas, too, for Fashion is literally on parade on this thoroughfare during the hours from 3 to 5 o'clock every afternoon.

Make Your Ermine Hat.

I noticed yesterday a lot of little ermine skins displayed at one of the Broadway stores, and found on inquiry that they are designed for trimming hats or for making neck pieces. They come at $3.50 each, and I learned a whole lot about this expensive fur, and began to realize why it comes so high. Those little ermine hides were only about twelve inches long and an inch and a half wide, folded double. It requires a dozen of them to make a respectable neckpiece, and this will give you just twelve of the black tufts, for it is only the tip of the tail of this little weasel-like animal that is black. If you want the black tufts arranged at regular intervals, then you must have skins enough to provide them. These ermine skins, and they are of lovely soft fur, came from Alaska, the clerk told me. There are also strips of seal, the price of which has been cut from $3 to 50 cents. A yard or two of this makes a pretty edge for a hat.

Plump Arms Prevail.

Every woman likes to have pretty, plump arms, and never were they more desirable than now, when skin-tight sleeves have again appeared. A bony arm is sure to be betrayed beneath its tight covering. It is not absolutely imperative that you patronize the masseuse in order to get nice, plump arms. You may apply the treatment yourself. A Washington correspondent is authority for the statement that simply bandaging them at night in some soft, old linen, soaked in either sweet almond or olive oil, will work wonders. The wrappings should be about four inches wide, and placed firmly around the arms, but not so tight as to stop circulation. Thin, oiled silk over the bandage will prevent the oil from penetrating through. It is vouchsafed that the results will be most gratifying after a time. Before oiling, exercise and develop the muscles, by clasping and unclasping the fingers, and after a few weeks you will notice that your arms are getting round and shapely.

Here's a Tip.

I was noticing the handsome Irish point directoire ties in a Broadway store yesterday. They were priced at from $4 to $6, and then I understood why it was that all the girls are busy with their crochet needles these days. Pretty nearly everybody is making, or learning to make, Irish crochet lace. The inexperienced are having some trouble on account of the sharp end of the crochet needle, which pricks and callouses their fingers, so that they cannot keep up the work very long at a time. I read the other day of a way to overcome this difficulty by wearing a tiny piece of court plaster over the tip of the finger, where the needle touches. It will not interfere with the guidance of the needle, as a thimble might do, but it will prevent the finger from getting sore, and protect it from the possibility of becoming callous.

• •

Fancy Fans.

The fans are lovely, with ivory, pearl or sandal wood sticks and covered with real lace or net spangled with lovely opalescent beads and chips of bright iridescent jewels. By the way, you can make a beautiful fan from the worn one you have now, provided the sticks are good. Get a piece of lace, as handsome as you can afford, stretch it over the sticks and then sew on spangles and beads, outlining if you like, the pattern of the lace.

• •

Jewels and Jets.

The Salome girdle is the latest fancy, to be worn with the directoire gown. I saw a beauty yesterday at a Broadway shop, made of the dull, Pompeiian metal, twisted in rope fashion and ending in two tassels. The price was $16.50, but the effect would be stunning when worn with a black satin gown. Another style had a beautiful buckle cut from the turquoise matrix, which, by the way, is quite the fad in jeweled accessories of the moment. The turquoise matrix, with its delicate, vine-like pencilings, has always been a favorite with fashion, and never more so than just now.

There are endless devices and fancies for neck wear in the line of jewels and jets. One of the most effective designs has a strip of black velvet for a foundation, embellished with coral settings or the lovely Tokio lapis—a pretty oriental stone. Some are finished at the ends with gold balls or gold fringe. The prices range from $7.50 to $12.50. In the less expensive necklaces are the jet chains which come in long pendants, and may be had for $4.50, while the always sweet and dainty pearl-bead necklaces run from $1.75 to $4.50. I saw a gold necklace woven in close scales, like a serpent, which coils round the neck with startling suggestiveness of Eve's temptation. Jade is used a good deal in jewels, but the turquoise matrix is the newest.

Crocheted Covers.

Why not crochet a cover for your hot water bottle? Take the leftovers of wool you may happen to have and simply use the double crochet stitch, drawing up to fit the neck of the bag with a twisted cord of zephyr which can be tied with tasseled ends. If you are very aesthetic you may make the crocheted cover of colors to match the prevailing tint in your room. Two skeins of white and one of pink Saxony, or two balls of white and one of blue mercerized crochet floss, will make the cover for the ordinary sized hot water bag.

• •

Handy Hints.

If you have a shut-in friend, why not give her a calendar shower for a New Year offering? It is in line with the popular souvenir postal showers which mark so many birthdays and other milestone of life these days.

Put a paper collar round your cake before you spread on the icing and there will be no trouble about its running down the sides. When the frosting is set, remove the collar.

After you have washed the kitchen linoleum with warm soapsuds, sprinkle a little sweet milk of buttermilk over it and wipe off with a dry cloth. You will be surprised to see how bright and new it will look.

You can make yourself a handsome wide ruche, simply by basting one above another the narrow ones you received in your Christmas box of ruching. In this way you can build it up as high as you like.

If a hole comes in your carpet, cut a patch of the right size, spread over some good flour paste and fit it over the hole. Set on it three or four warm flatirons, and, if properly pressed and matched, you can hardly tell where it joins.

Hats and Feathers Half.

Hats are half. I went with a friend, yesterday, to get her new winter hat, and I must say my heart throbbed with envy when I beheld the exact model of my smart satin hat, bought last November—just the bare frame for $4—cut to $1.88. Isn't it aggravating? But my feelings were further lacerated when we approached the ostrich feather department and there saw displayed duplicates of my $8 plume at exactly half-price. Why, my friend got her a stunning hat of black satin, with sweeping ostrich feather and a snoddy little pompon of loops of taffeta ribbon on one side and folds, rich and full, all around the crown, for only $7.25. It certainly pays to wait till after the holidays for your winter hat—if you can stand it till then. Of course, I soothe my soul with the thought of how many times I have worn my last November hat on occasions when I really could not have survived without it—but nevertheless my soul smarts with positive pain every time I figure up the difference in dollars and cents—I do so love a bargain.

Timely Paragraphs.

One of the newest yokes is made of tucked chiffon in the color of the gown, underlaid with gold or silver tissue; and the sleeves are often of the same order.

Instead of silver toilette articles, many women are selecting ivory or imitation ones on account of the ease with which the latter can be kept clean.

All kinds of net, coarse and fine, are employed to make cornages and to trim them, but it is the tulle filet that is the most fashionable at the moment.

Velvet, for awhile set aside by corded silk, now seems to have returned to its rightful place in headgear, and is more seen in the facings and crowns than silk.

The very long corsets, to wear under the season's gowns, are not so barbaric as they look at first. The bones and steels are clipped off not far below the waist line.

Embroideries, carried out in a wonderful variety of metallic threads, including not only gold and silver, but also copper, platinum and aluminum, appear on evening gowns.

A Word to Homeseekers

Furniture Facts of Value

We want to say a word to the man who contemplates coming to Southern California. The first thing the stranger does is to establish a home. Coming to a new country, knowing nothing of its business methods, it is a great satisfaction to know that there is one house in Southern California—The Eastern Outfitting Company of Los Angeles—whose business is conducted along eastern lines, whose business has been built up solely through the confidence of its patrons, whose one high aim is to give a square deal to all—whether an old-time resident or a newcomer.

The Eastern Outfitting Company is the largest furniture credit enterprise in the country, with branches in Los Angeles, San Francisco, Portland, Seattle, Tacoma and Oakland. When "The Eastern" furnishes your home, the transaction is not complete until you are satisfied.

Furniture, Carpets, Draperies
$1.00 Down :-: 50c a Week

We want every easterner coming to Los Angeles to visit our modern store. Apart from the advantage gained by buying your house furnishings here, there is much information we can give relative to this Southwest which will be of great value to the homeseeker. If this advertisement catches your eye before you reach Los Angeles, cut it out, so that you will remember to pay us a visit when you arrive.

"The Eastern's" new co-operative credit plan—$1.00 down, 50c a week, on almost any piece of furniture in the store, is open to all. You will be surprised when we tell you how little it takes each month on this basis to furnish a home complete. Another feature of this plan is that the personal element enters into our business relations—whenever a man, through sickness or loss of employment, cannot meet his payments, we are always willing to wait a reasonable length of time, until his finances are in such shape that he can continue them. Bear these furniture facts in mind—they will be of value to you when you arrive in the city.

LOMITA

Fertile Farm Lands Feeling the Influence of San Pedro Progress

Every forward step of San Pedro raises the value of Lomita lands. The man or woman buying now not only gets the best loam soil in Southern California, but secures a holding that will double or even treble in value in a very short time. When millions are being spent so near by, every foot of Lomita land must feel the benefit. If you want garden, fruit or poultry ranches, here is the place. If you wish an ideal suburban home within the sound of the sea, here it is. If you want an investment close to all the big things doing at San Pedro harbor, this is the place. Eighteen acres near Lomita sold for $24,000 last week.

The Shoestring, worth $1000 an acre and more, runs down beside Lomita.

The great new seaside boulevard goes through the center. The electric line station is only at Weston street. The new ship channel, where four dredgers are working now, will run into Bixby slough, only about half a mile distant. If you wish to make the real money, examine Lomita Farms.

HA! HA! HA!

HOARY JOKES ARE IMMORTAL.

OLD AND MERRY QUIPS REFUSE TO BE KILLED.

Rev. Dr. Burdette Tells Listeners to Be Quick to Let Jests Sink in and Bring the Healing of a Happy Heart and Full Laugh—Latest of His Lectures.

Rev. Dr. Robert J Burdette disclosed much of his own wholesome philosophy of life in his lecture, "Good Medicine," at Temple Auditorium, last night. He kept his hearers in a continual ripple of laughter. He began his talk on laughing with the gurgle of the baby, and ended with the deeper emotions of men and women who have suffered and sounded the depths of human experience.

"The baby laughed to see papa make a fool of himself," the speaker said. "And if he could laugh at that, he could laugh at anything. Later the child has to take an advanced course in laughter. When he or she becomes a grown-up, there comes the post-graduate course, so to speak.

"The girl laughs oftener then, even though her heart may be breaking. People speak of her soft tender smile. She has learned to mask her own anguish by the outward ripple of laughter."

Dr. Burdette remarked that people don't see jokes quick enough. He averred that some who were quick as lightning saw through a joke in possibly one day. Most took a week or more, he said.

He asked the members of the audience to think of the funniest joke they had ever heard. "Those jokes were not so funny when they happened," he declared. He told of the man who fell down stairs and burst into profanity that was very expressive. When the same man read an account of a similar accident in the newspaper, he thought it was the funniest thing he had ever read.

To illustrate the age of the best jokes the speaker referred to a certain story told by F. Hopkinson Smith in "Col. Carter of Cartersville." He said that he tried to run that story to earth while traveling through the South, and met men who declared the same incident happened in their household. But, according to Dr. Burdette, the story of the one-legged fowl originated 800 years ago as a tale about St. Peter, the apostle. "You can't kill a joke or ever get to the beginning of it," said the speaker.

"You are happiest when you don't try to be, and the most dismal time is when you try to be joyous. A number of friends once met at our house, and we passed so delightful an evening that we decided to form a club. We met a month later and it was the dullest, dryest evening I ever spent. I have never seen the visitors since then."

"Fun and blessing come to us when we least expect them. Now some persons argue that if a little medicine is a good thing, then a lot more ought to be still better. This is not true. Humor and pathos are both found in the sensitive person. The thermometer marks both heat and cold."

He spoke of the beautiful life of Charles Lamb, who lived under a constant shadow, and showed how he sank his own grief in giving tender, helpful thoughts to the world.

In conclusion, Dr. Burdette said: "We have to meet the tests of this life. God sends bitterness into our lives that we may make good medicine out of it. 'A merry heart doeth good like medicine.' It makes the sun shine on the north side of the house."

NEWS REPORTS FROM CORRESPONDENTS OF THE TIMES.

EARLY BIRDS.

CROWDS RUSH TO PASADENA.

Expectant Guests Already Throng the City.

Tournament Visitors Will Be Well Cared For.

New Year Ushered in With Gay Abandon.

Office of The Times, No. 38 S. Raymond Ave.

PASADENA, Jan. 1.—Thousands of people, eager to see the great floral pageant that will pass through the streets of this city at 11 o'clock this morning, came rushing into this city last night and found excellent facilities furnished by the three large hotels and numerous other desirable hostelries. The city can take care of all the visitors today.

The Pacific Electric Railway Company is preparing to handle over 100,000 people, and yesterday a special cable carrying an emergency supply of electricity was installed at Oneonta Park. It will be used in carrying the heavily-loaded cars over Raymond Hotel hill, which proved such an obstacle last year. Special trains will be run on all of the railroads.

The general line of march is from Orange Grove avenue and Colorado street east to Menor avenue, and thence down that street to San Pasqual street and Tournament Park. The route will be about three miles long.

Probably two of the fastest teams ever competing in the chariot races will meet today, when the thoroughbreds of "Lucky" Baldwin and "Hardluck" Carman race at the park.

Eugene Estoppey, in charge of the Marathon race from Venice to Pasadena, has announced the following entries: J. Barbieri, L. S. Jensen, Nevada; John McFaddin, Los Angeles; Reid Clark, Los Angeles; James Hunt, Venice; Harry Leech, Los Angeles; H. Banks, Hollywood; John Brown, Venice and himself. The race will start in Venice shortly after 10 o'clock, and finish at Tournament Park.

CARS COLLIDE.

The first street car accident in this city in a number of days occurred last night at the intersection of Raymond avenue and Colorado street, when an Oak Knoll coach was struck in the middle by a local line car, which left the switch. No one was injured, though several were scratched by flying glass.

NEW YEAR DANCES.

New Year's Eve was happily celebrated at the various clubs yesterday evening, the largest function being the dinner dance at the Annandale Country Club. At the Country Club fifty of its members enjoyed a masquerade ball, which was a gay affair, and at the Valley Hunt Club there was a concert programme, which was followed by an informal dance, which lasted until after midnight. Mr. and Mrs. Robert H. Gaylord entertained a party of the younger set at the Country Club, and Mr. and Mrs. Hodgeman entertained out-of-town friends.

The Shakespeare Clubhouse was the scene of a gay dance last evening when the members of the younger set were entertained by Miss M. Graves of West California street. Mrs. Louis B. Graves received the guests with her young daughter, and assisting in entertaining were Mmes. Holloway I. Stuart and Fred R. Harris. Pretty souvenir programmes gave the order of dances, and the old year was danced out and the new year in with a spirit of gay abandon.

REPORT OF TOURNAMENT.

As has always been its habit, The Times will print tomorrow the roslest and most satisfying report of the Pasadena Tournament of Roses—page after page of correct and vivid description and graphic narrative with a wealth of illustrations.

This report will subsequently be issued in a separate news sheet to be included in the Midwinter Number, all wrapped for mailing, for those who desire it, at one price.

HUNT FOR IDEAS.

Santa Barbara City Engineer and Committee of Citizens Visit Santa Monica.

SANTA MONICA, Dec. 31.—The City Engineer and a committee of four citizens from Santa Barbara visited this city today for the purpose of making an inspection of the "Santa Monica system" of oiled roads. The magneto-electrolytic sewage purification plant and the reinforced concrete pier were also objects of investigation.

Death brought relief to Peter Donatone, the 18-months-old baby that took a quantity of creosote. The child found the bottle of poison while at play in the yard at the family home on Pennsylvania avenue.

Miss Laura Carver, who has been teaching school at Lompoc, has been elected to fill the vacancy at the High School occasioned by the resignation of Miss Anna Fraser.

H. M. Goode has been chosen to the janitorship of the Garfield school.

The beach physicians and druggists have agreed to stand by the decision of the Business Men's Association and will use but one telephone system. They accepted the choice of the majority and will retain the Home.

The officials of the Los Angeles-Pacific Company have been officially cited to appear before the City Council next Monday night and show cause why the ordinance declaring the forfeiture of their franchise should not be granted.

HURRYING.

RUSHING WORK UPON BIG BATH.

REDONDO IMPROVEMENT WILL BE READY IN MAY.

Immense Amount of Piling and Several Thousand Barrels of Cement Will Give It Firm Foundation. New Oil Pipe Line to Be Finished Early in Spring.

REDONDO, Dec. 31.—The tug Redondo will sail, Saturday, for San Diego for a cargo of material to be used in the foundation of the new bathhouse on the waterfront. The management of the Redondo Improvement Company announces that the work of construction will be pushed rapidly during the first two or three months of the new year, and that the structure will certainly be ready for use at the opening of the season in May or June. A large force of mechanics have been secured, and will be put to work preparing for the building proper as soon as the foundation is far enough advanced. The latter will require an immense amount of piling, part of which is already at hand, and the Redondo will bring the remainder. Several thousand barrels of cement are at hand, ready for use.

NEW PIPE LINE.

Work on the new pipe line from the Sherman oil fields to Redondo is progressing, and it is expected to be ready for use early in the spring. When completed the Japanese oil fleet will begin regular trips between Redondo and Japanese ports, and the Gaviota business will practically cease. The tank steamships in use on this line have a capacity of 60,000 barrels, and when the pipe line is completed they will be loaded in twelve to eighteen hours.

GAILY ENDS YEAR.

Hollywood Has Jolly Final Week. Choral Club Gives Its First Concert.

HOLLYWOOD, Dec. 31.—The week here is a particularly gay one. The newly organized choral club made its initial appearance in Wilcox Auditorium under the direction of Hugo Kirchhofer, last evening. The mixed chorus is composed almost entirely of voices which have only been trained during six weeks of rehearsal, and the splendid rendition of the cantata, the "Nativity," was a decided surprise. The soloists were George Eastman, Harold Melville, Mrs. George Eastman, Mrs. A. R. Gates and Miss Mabelle Lewis.

NEW YEAR'S BALL.

The Men's Club gave its annual New Year's ball in the clubrooms this evening. The auditorium was handsomely decorated with pine branches and poinsettias, the stage being arranged in a particularly attractive manner, with palms, etc., and a great American flag for a background. The guests were received by Messrs. and Mmes. P. J. Beveridge, A. A. Caldwell, C. J. George, C. H. Lippincott, R. J. Cook, E. F. Bogardus, J. J. Gibson, H. E. Rodenhouse, J. E. Williams and Edward Winterer.

The Woman's Club will receive its friends from 2 until 5 o'clock tomorrow afternoon, in the clubrooms, which have been brilliantly decorated in red and green, great, burning poinsettias and red geraniums gleaming against masses of ferns, and vines hung from the studded ceiling and banked against pillars and fireplace. The officers and board of the club will receive, assisted by a number of the members at large.

GIRLS WILL ENTERTAIN.

A group of twenty-five girls will entertain as many of their gentlemen friends at a dancing party in Wilcox Auditorium tomorrow night. The chaperons are Messrs. and Mmes. E. W. Elliott, George Eastman, Forbes, Alex Schloesser, Will Parcher, Thomas Fitzgerald and J. F. Grass.

The Misses Lillian and Eulalia Grass entertained this evening twenty young people at a leap-year dancing party at the home of Mr. and Mrs. J. F. Grass, on Prospect avenue.

Miss Florence Bartlett gave a large New Year's party this evening at "Vista del Mar."

GOES ON GROWING.

More Residences Planned for Glendale, Country Club to Be Enlarged, New School Ready.

GLENDALE, Dec. 31.—M. Hodge, living temporarily on Orange street, has purchased as a site for a handsome modern bungalow, three lots on Central and Second street, 154x150 feet.

Two fine residences are to be built at once on the corner of Seventh street and Brand boulevard. Four houses are being completed on this street, which is in Lomita Park.

So rapidly has the enrollment grown at the new West Glendale school, that a fourth teacher has been employed, Miss Yarneh, who will begin her duties, Monday. There are now fourteen grammar school teachers and three principals, and eight High School teachers, and one principal, twenty-six instructors in all.

Membership at the Country Club has so increased that it is planned to enlarge the building.

NEW SCHOOL READY.

The new Sixth Street school has been accepted, and yesterday the rooms were put in order for Monday.

Installation of officers for Unity Lodge, F. and A. M., Tuesday evening, at Masonic Hall, called visitors from all over Fernando Valley. After the ceremonies all went to the Glendale Country Club, where there was a reception and a dance. Mrs. Daniel Campbell, John Hobbs and Richard Sternberg were in charge of the social arrangements.

AVALON.

AVALON, Dec. 31.—While obtaining pictures of Silver Cañon last evening, Capt. A. Holbrook and J. K. Williams of San Francisco were lost in a dense fog, which suddenly surrounded them. Unable to find their way back, they were compelled to remain in the hills until daylight.

J. Kassar captured a yellowtail weighing thirty-six pounds while fishing from a rowboat off the end of the wharf this morning.

A terrible conflict was fought last evening between a black fish and some seals. Several of the latter were killed.

CLAREMONT.

CLAREMONT, Dec. 31.—S. F. St. Amon, who recently arrived from Scranton, Pa., today bought a ten-acre orange grove on Tenth street, Upland, from Joseph Dundas of that place; stated consideration, $13,500. The deal was made by the A. J. Williams Realty Company. Mr. St. Amon will probably buy a residence in Claremont and make this city his home.

POMONA.

DEATH'S BLOW IS STUNNING.

LAST CALL COMES TO YOUTH VERY SUDDENLY.

Lad of Sixteen Dies of Scarlet Fever After Few Days' Illness. Goat Experiment Successful—Victim of Mock Duel Well-Known. Many Will Visit Pasadena.

POMONA, Dec. 31.—The death of Aubrey Swanton, aged 16 years, eldest son of Mrs. Marietta Swanton, occurred at the family home on Fourth street at 2 o'clock this morning from scarlet fever. The death was shocking in its suddenness, as the lad had only been ill since Sunday and he was not thought to be critically stricken. Private burial services were held today. Mrs. Swanton's younger son, Charles, is confined to the house by illness.

The experiment of using W. Gale's herd of Angora goats to keep the fire breaks free from growth and brush north of San Antonio Cañon is proving a success.

VISITOR FROM MEXICO.

Mr. and Mrs. William Hunneman are entertaining their son, Howard Hunneman, who has been for three years in Colima, Mex., working as a civil engineer in the extension of the Mexican Central Railroad from Guadalajara to Mazatlan.

Thomas N. Ritchie, the young man who was accidentally shot in a mock duel yesterday by his friend, Irving Cocroft, near Santa Cruz, was a cousin of Anson Thomas of this city. Miss Barbara Greenwood, supervising principal of public kindergartens here, is an intimate friend of the family. She left last night in response to a telegram from Oakland to be with the stricken family.

HOPE FOR RECOVERY.

C. M. Wing, the young man who burst a blood vessel at one of the Yeuell revival meetings here recently, was operated upon at the Pomona Valley Hospital yesterday for a tumor on the brain. There are now hopes for his recovery.

Twenty members of the Seventh Regiment Band will participate in the parade of the Tournament of Roses tomorrow. Many local residents are planning to go to Pasadena by automobile or railway.

The University of California Glee Club is to give a concert here Saturday evening at the Fraternal Aid Theater.

WILL VOTE ON BONDS.

Whittier Electors to Decide Whether They Shall Have Up-to-Date Sewer System.

WHITTIER, Dec. 31.—If the citizens vote in accordance with what now seems the prevailing opinion, Whittier will soon own its own sewer farm and and up-to-date sewer system. The Trustees have unanimously voted for the "resolution of intention" which is the first step toward this end. The cost is estimated by City Engineer Tryce at $110,000. The site upon which the Trustees have settled, on the advice of a committee of fifteen business men of the city, chosen from the members of the Board of Trade, is the "John Paddison farm" of 150 acres, about four miles southwest of the city. The tract has a light sandy soil which will take up large quantities of water, and is so situated that the location of the tanks, etc., thereon, would not make it a nuisance to persons living near. The tract has the indorsement of the county health officer. The land is offered to the city by Paddison at $150 per acre, or $22,502 for the whole. If the bonds carry and the farm is purchased it is planned to set out a large acreage to eucalyptus.

MAY START AFRESH.

Plan to Reopen Long Beach Citizens' Savings Bank Under a New Name.

LONG BEACH, Dec. 31.—Plans are being made which it is hoped by those most interested will result in the reopening of the Citizens' Savings Bank and paying the depositors in full. The idea is to levy an assessment of 25 per cent. on the stock and use the proceeds to pay the depositors in dividends of 10 per cent. at intervals, their total deposits to be paid within two years. The levy would raise $62,500, and the depositors must agree to accept time certificates of deposit payable in six twelve, eighteen and twenty-four months. By this means the bank under a new name, it is thought, can again be placed on its feet.

There are no new developments in the graft charges in the police department.

Mrs. James S. Dunham of Virginia Hotel announces the engagement of her daughter, Ella, to Laurence C. Moore of Redlands.

DIES AT DOWNEY.

DOWNEY, Dec. 31.—William Caruthers, aged 79 years, died at his home in this city today of pneumonia. He came from Texas in 1859, and purchased a ranch near this place, where he lived until two years ago, when he sold for a large sum and moved to town. He will be buried with Masonic honors.

VENICE.

VENICE, Dec. 31.—Retrenchment in the municipal police force is responsible for the application of the ax to Patrolman Roy Conley. His resignation came at the request of City Marshal Simpson and is effective with the new year.

OCEAN PARK.

OCEAN PARK, Dec. 31.—Charles Cathel has arrived here from Cincinnati, O., having traveled the distance by bicycle. His odometer registered 2998 miles. He says he has been on the road since July 8.

KAISER TO MEET PEOPLE.

German Ruler Will Appear in Public for the First Time Since Upheaval.

[BY DIRECT WIRE TO THE TIMES.]

BERLIN, Dec. 31.—[Exclusive Dispatch.] For the first time since the recent political upheaval, the Kaiser will make a public appearance in Berlin tomorrow, under circumstances which will bring him in direct contact with his people. For Berliners the chief interest in the New Year's celebration centers in this appearance of the long-secluded monarch, who will arrived early in the morning from Potsdam and devote two days to public ceremonials, including receptions to foreign ambassadors and an annual conference with twenty-three commanding generals of the German army.

According to the programme, the Kaiser, accompanied by his sons, will cross the open square from the castle to the arsenal on foot, and thousands will assemble to see him. All kinds of rumors have been in circulation regarding the depression from which the Kaiser is said to be suffering. It is recognized he must be as curious concerning his reception by the public as the people are to see him.

Don't Blame Your Stomach

When Without Exertion or Cost You Can Enjoy Meals and Cure Dyspepsia.

Don't blame your stomach or your luck when your meals declare war on your system.

When the stomach won't do its work it is because it cannot.

When foul smelling odors come from your stomach, when the head aches and the sourness of mouth every morning makes you hate your breakfast, when dreams and nightmares assail you, don't give up the fight.

This is the appeal of nature, and it should be heard.

Over-eating, late suppers, poorly chewed food, too rich pastries and underdone cooking are some of the causes of the stomach's ill health.

When the stomach is busy, it presses and churns all the liquid matter from food and with its juices dissolves into liquid form or pulp everything which comes into it.

If such food be poisonous it effects the juices, attacks the stomach, goes into the blood and weakens the entire system.

Stuart's Dyspepsia Tablets will digest a full meal easily without material assistance from the stomach. They will restock the gastric fluid with all the elements needed. They build up the blood, destroy sour taste, bad breath, belching, stomach and bowel trouble and quickly restore natural conditions.

One grain of Stuart's Dyspepsia Tablets will digest 3000 grains of food in the stomach or in a glass vial without aid of the human digestive apparatus.

The method of Stuart's Dyspepsia Tablets are the methods of Nature.

They contain every requisite for the stomach and digestion. After a meal one of these little tablets when it enters the stomach mingles with the juices, attacks the food and digests it. It removes the fermented and decayed mass, lying stagnant there and eases the stomach at once.

It is wholly a question for you to solve. Your druggist will furnish Stuart's Dyspepsia Tablets 50c the box, or send us your name and address and we will send you a trial package free. Address F. A. Stuart Co., 150 Stuart Bldg., Marshall, Mich.

IMPROVEMENT ELECTION.

Officers were elected by the East Sunset Boulevard Improvement Association last night. They are: A. G. Bagley, president; O. C. Finn, first vice-president; William F. Williamson, second vice-president, and E. B. Demorest, secretary. The president and vice-presidents were elected delegates to the meeting of the Federated Improvement Associations of Los Angeles, which will convene next Tuesday evening at the Chamber of Commerce. The meeting was held at No. 640 Sunset boulevard.

QUICK FLIGHT OF POVERTY.

Wife of San Diego Bartender Unexpectedly Receives Fortune.

SAN DIEGO, Dec. 31.—Mrs. Bella Gilbert, wife of Bert Gilbert, a bartender, is today the happiest woman in San Diego because she received by express a package containing $33,000 in currency, when she had not the least idea the money was coming to her. It was a legacy from a deceased uncle, Henry Milligan, former mayor of Quincy, Ill. When the package came Mrs. Gilbert concluded that it contained some ordinary Christmas present, but when she opened it and beheld great stacks of crisp, new greenbacks she almost fainted. However, she soon recovered and hastily sent for her husband, who was at work behind the bar at a saloon. The Gilberts lost no time in depositing the money in a bank. They have been residents of San Diego four years, coming from Los Angeles.

FOXHOUND TRAPPED.

Valuable Animal Owned by Santa Ana Man Ruined as Far as Hunting Is Concerned.

SANTA ANA, Dec. 31.—While hunting in the foothills near Tomato Springs east of this place on Tuesday, F. Ross and E. G. Glenn found one of J. A. Turner's thoroughbred foxhounds caught in a steel trap, set by some one for a coyote. The dog cost Turner about $50 and is probably ruined for hunting.

The board of directors of the Orange County Farmers' Mutual Fire Insurance Association has called an annual election for January 11. The company paid out $4000 for fires in 1908, the largest amount being $2385 to G. A. Murdock of Westminster for the loss of his seed house, and the smallest, $19.50, to A. A. Lee of Villa Park. The $19.50 was for the loss of a bed and some clothing. During the teachers' institute two weeks ago a heating iron was placed in the bed for a teacher attending the institute. When she came in late at night after a meeting she found her bed burned up.

At a meeting of the City Board of Education last night the resignations of Miss Florence Churchill as teacher of the seventh grade of the Third Street School and of Miss Cora Coleman as kindergarten teacher were accepted, and Miss Jennie Feather and Miss Georgia Somerset were elected to fill the vacancies. Linn Snodgrass was elected janitor of the Third Street School to take the place of William Carter, resigned.

EL CENTRO.

EL CENTRO, Dec. 31.—The El Centro Town Company began today the excavation for a large brick block on the north side of Main street, adjoining the Hotel El Centro. The new building is to be two stories, with a frontage of 100 feet on Main street, and a depth of fifty feet. Its first floor will be divided into four storerooms, all of which are already engaged by tenants, and the second floor will be arranged for office rooms. The building will have an arcade extending out over the twelve-foot sidewalk, on architectural lines similar to the hotel building adjoining.

Through the El Centro Ten Thousand Club, an appeal has been made to Andrew Carnegie for the donation of a public library building, and he has the matter "under advisement." In the meantime, it is proposed to carry on the reading-room and library in temporary quarters.

Since the spreading of the news that the resurvey of Imperial Valley lands will be accepted in January, there has been a marked revival in land activities in this territory. Many visitors are here from outside points, looking for investments in the valley, and the movement in real estate is livelier than it has been for several months.

CORONA.

CORONA, Dec. 31.—Acting after a consultation with H. C. Kellogg, a consulting engineer of Santa Ana, the Trustees at their last session decided that a $125,000 bond issue would be necessary to pay for street improvements and a complete sewer system. When the plans for the proposed improvements have been completed a meeting will be called in order that the public may have a thorough understanding of the situation.

UPLAND.

UPLAND, Dec. 31.—Word comes from Washington that the Postoffice Department has accepted the proposal of Charles Ruedy to lease new quarters on the north side of the street, between First and Second avenues, for five years.

EAST NEWPORT.

EAST NEWPORT, Dec. 31.—Judge Bledsoe of Riverside arrived yesterday and will spend the rest of the week at the beach with his family.

Miss Dolly Ballard of Santa Ana is visiting friends here.

COURT OF APPEAL CALENDAR.

The calendar for the January term of the Second District Court of Appeal was completed, yesterday. The term will open the 25th inst., and continue for four days. Iowa Colony Lands

On the Delta, Tulare County, in the Famous San Joaquin Valley, Cal.

ALFALFA.

A source of quick money and large profits to the rancher. Five to seven cuttings per year; an easy average of 2 tons per acre per cutting; a low average price of $10 a ton makes a good substantial profit in alfalfa hay alone. Over 80 tons of alfalfa seed were sold in this section last year; it brought 15c a pound.

ONE OF THE FLOWING WELLS

Alfalfa raising coupled with dairying and stock raising, means wealth. Ranchers all over this section are rolling up fat bank accounts every month with this money making combination.

The Los Angeles Times, Oct. 11, 1908, says:

No finer body of sedimentary land in the world. Covered by the most efficient irrigation system in the State. Directly on the main line of the Santa Fe railroad.

LOCATION.

The holdings of the Iowa Land and Water Company comprise a solid body of nearly 9000 acres of choice delta lands in Tulare county, California. Years ago these lands were the bed of old Tulare Lake—but the waters have receded, and in receding have built up an embankment 17 miles wide, which renders overflow a physical impossibility, as they are 22 feet above the high water mark of 1884. This delta comprises over 50,000 acres midway between Los Angeles and San Francisco, the two best markets on the coast, with the Santa Fe railroad the whole length of the tract—they have advantage of location surpassed by no other agricultural section in the State.

CONTOUR AND SOIL.

Rich sedimentary soil of a sediment formation extends down nearly 80 feet. No sand, no gravel, not a trace of alkali or hardpan in the entire body and as level as a floor. No better soil was ever located. It is so rich there is no such thing as exhausting it.

WATER.

A finer irrigation system does not exist in the country today than we have installed on these lands. Steel cased artesian wells, 10 inches in diameter and 1175 feet deep, flowing 14 inches crown above the casing furnish an abundance of the purest mountain spring water. No need of expensive dams or flumes—no cost for maintenance of pumping plants. Experts claim that with all the lands in this basin under irrigation the annual surplus of water from the underground basin will be still 300 times more than will ever be used.

From the wells the water is turned into the main ditch 30 feet wide and easily carrying a flow of 3000 miners' inches. From this main ditch laterals feed every subdivision with a river of water. Flowing wells with plenty of the best and purest water for domestic purposes can be had at a depth of about 290 feet. Surface wells at 18 feet.

THE PRODUCTS.

Ever-increasing profits can be made in alfalfa, dairying, sugar beets, orchards, vineyards and truck gardening. Immense crops of every California product—with the exception of citrus fruits only—can be grown here.

SUGAR BEETS.

It has been fully demonstrated that these lands grow as large crops of beets carrying the highest percentage of sugar as any locality in the world. From 10 to 20 tons per acre is the average crop. The cost of growing and harvesting varies from $20 to $30 per acre. Even at the low price of $5 per ton a net profit of from $25 to $65 per acre can be realized.

The $1,000,000 beet sugar factory recently completed at Corcoran, 12 miles north, furnishes a ready market at best prices. This factory has a daily capacity of 600 tons, and can handle the full crop from 10,000 acres. The freight rate on beets from our lands to the factory is about $6 per car. A switch for loading on the lands.

GRAPES.

These lands are surrounded by some of America's most famous vineyards. The conditions of climate and soil here are even more adapted to grape culture than the world renowned Fresno district, where bearing vineyards sell from $350 to $1000 per acre and pay an annual income of from $100 to $300 per acre. Vineyarding is among the easiest branches of farm industry to handle. Common sense cultivation and careful handling is all that is required.

The first year there is no profit from the vines, but vegetables grown between the rows will bring substantial returns. The second year the vines will pay expenses. The third year a very satisfactory profit—and thereafter the net profits will make the industrious farmer independent for life. There are three ways of marketing grapes—table grapes, raisins and grapes for wine making.

WHEAT.

Wheat, barley and flax pay quick profits. They require very little work. A crop of from 20 to 40 bags per acre can be relied on, representing a net income of from $20 to $40 per acre. After heading the grain the straw plowed under is a first-class fertilizer. Indeed, if desired, one can grow three crops a year, barley, millet and potatoes planted in the order named, and a heavy crop of each secured.

SIX THOUSAND A DAY.

Ranchers and Creamery Operators in San Joaquin Valley Getting Los Angeles Money.

Six thousand dollars a day of Los Angeles money—more rather than less—is paid to ranchmen and creamery operators in the lower San Joaquin valley in the counties of Kern, Tulare, Kings and Fresno, who ship all their products to this city. They all ship butter, some also sweet cream.

CORN.

Kaffir and Egyptian corn, growing heavy crops on these lands furnish the best fattening feed for beef and pork. From $20 to $40 per acre is easily assured. Indian corn also produces good crops.

MARKET GARDENING.

Advantages of soil, water, climate and easy access to railroads make this a truck gardener's paradise. Any vegetable can be grown to immense profit. A crop of onions now growing on an adjacent field will pay the grower several hundred dollars per acre.

FRUITS.

Deciduous fruits reach a perfection in this locality excelled by none. peaches, pears, apricots and figs are especially profitable. Strawberries, blackberries, raspberries, gooseberries and currants will pay steady and very satisfactory profits.

EUCALYPTUS.

The growing of this hardwood tree will become a very important industry here. Several hundred acres will be planted this coming season.

CLIMATE.

The climate is ideal. This is indeed a land of sunshine, where the rancher can enjoy blue skies and warm sunshine 300 days in the year. The rainy season begins about Nov. 1, and the rains are practically over by the middle of April. From 5 to 8 inches of rain falls. Even in midwinter a temperature as low as 32 degrees is practically unheard of. The summers are ideal. Although the thermometer reaches 95 degrees sometimes at midday, the absolute absence of humidity in the air makes the day far more bearable than a temperature of 80 degrees in the Eastern States. There is always a cool breeze and the nights are always cool the year round.

MARKETS.

As said above, the main line of the Santa Fe runs the whole length of our tract, with a station right on the land. This furnishes easiest access to Los Angeles and San Francisco, the two biggest markets on the coast.

SURROUNDINGS.

The character of the people who will be your neighbors is of the highest grade—all thrifty, enterprising American farmers.

There is no pioneering to be done here; schools, churches and city privileges are at hand.

PRICES AND TERMS.

This land is READY for the farmer to move on—plant his seed and start farming at once. All the preliminary work was done before we offered it for sale. We have no promises to make. We sell the land completely prepared to fulfill our every claim for it.

To start active settlement we are offering limited acreage to actual settlers at $65 per acre, with title to water and all water rentals absolutely free. It is our intention to advance this land as improvements and sales are made to $150 per acre.

Improved lands in this section are selling as high as $200 to $500 per acre.

THE IOWA LAND & WATER CO.,
228 W. Second St., Los Angeles, Cal.

The men who comprise this company are substantial business men of high standing in their communities. Our references are any commercial agency or any bank of Los Angeles—especially the Broadway Bank and Trust Company of Los Angeles.

We ask homeseekers to investigate fully our entire proposition. It is without a single doubt the best land offering in the State today.

Make arrangements to see this land NOW.

LOS ANGELES STOCK EXCHANGE.

PROFIT-TAKING LOWERS PRICES.

UNION OIL ISSUES FALL BELOW PAR AGAIN.

Industrials and Other Oil Shares Hold Firm and Some Make Fractional Gains, Though Union Provident Eases Off Slightly—Exchange Will Be Open Tomorrow.

There was a firm tone about the local investment market on the Los Angeles Stock Exchange yesterday, and trading was very active. Prices, as a rule, hold well, with declines apparent on an attempt at profit-taking in the Union Oil issues. Other oils were firm, and fractionally higher. The industrials closed about as usual, as did also the bonds and bank stocks.

People who purchased Union Oil stock around 90.00, and have been waiting until it went to par, gave orders to their brokers to sell at that level. The free offerings had the effect of softening the market. Bidding was about ¾ of a point below Wednesday's close, and the asked price shows a 2-point drop. The stock closed at 98.50@99.00. Sales of ten shares at 99.00 were recorded in Union.

With the softening in Union, Union Provident eased off slightly, closing with a decline of 1 and 2¼ points, respectively, in the bid and asked price of 97.00@97.75, after sales of ten shares at 97.50. United Petroleum was unchanged in the bid, and up 3 points in the asking at 99.00@104.00.

There was a slight recovery in Associated Oil, this closing at 37.75@38.00, both quotations up ⅝ of a point. Sales amounted to twenty shares at 37.87½.

Perseus Oil sold at 1.35, a total of 5000 shares changing hands, and 8800 Globe sold at 15½. There was keen biddling for Rice Ranch Oil. The stock showed a net rise of 3 points in the bid. The asking price was about 12 points above the last offering, closing at 90@1.09. News of several new wells are being brought in, rumors that the company will go on a dividend basis about March 1, partly explain the reason for the demand.

One $1000 Mission Transportation bond was reported sold off board at 97. The bond closed at 94@96 on the board. There were some changes in closing bond quotations, but no other sales were reported.

Bond houses report a strong demand for local issues, due to easing money conditions. Eastern buying of local bonds is good and municipal issues are in very strong demand.

Bank stocks remained about unchanged with no trading.

The industrial issues were quiet, with one or two fractional changes in closing quotations. Edison preferred was quoted at 86.00@89.00, showing a 1-point decline in the asking. The common was up ¼ and 1¼ respectively, at 70.00@71.50. Home preferred was quoted at 53.50@55.00, up ½ point in the asking. Seaside Water was offered 4 points below Wednesday's market, closing at 40.00@55.00.

Interest was manifested in the mining call, several sales of Boston coppers being effected. Granby sold at 107.25; North Butte at 85.75; and Old Dominion at 58.00. Tamarack sold at 81.50, and Greene Cananea at 12.62½. There was some small attention paid to the local list, but trading was light.

Contrary to expectations, the members voted to open tomorrow, instead of adjourning until Monday morning. This action was taken because of the New York Exchange, and the Chicago grain markets, will be open for the short half-day session.

To Boom Use of Cotton.

NEW ORLEANS, Dec. 31.—In furtherance of the campaign for increasing the consumption of cotton, it was announced today that the directorate of the New Orleans Cotton Exchange yesterday adopted strong resolutions favoring the substitution of cotton for various imported products used in the manufacture of bagging, twine, rope, etc.

New York Dairy Market.

NEW YORK, Dec. 31.—Butter and cheese, firm and unchanged. Eggs, firm; western firsts, 33; seconds, 30@31.

THE MARKETS.

LOCAL PRODUCE MARKET.

The principal topic on the Produce Exchange yesterday morning was the consequences of the Italian earthquake. The members of the organization again showed their liberality by collecting and donating, in the name of the Produce Exchange, $300 to help relieve the suffering of the unfortunate people of Italy and Sicily. At the time of the San Francisco earthquake the exchange tendered the Relief Committee of that city more than a thousand dollars.

Business was fairly active for the day previous to New Year's. The stock on hand was more than adequate to fill the call for it. In perishable goods, dealers made heavy cuts after the early-morning trading, in order to prevent total loss from holding over until next Monday. There will be no session of the Produce Exchange today or tomorrow, and the business for the new year will be started on Monday. On Saturday, there will be only the half-day market as usual.

Egg receipts are beginning to climb, and yesterday total arrivals were 111 cases. There was little demand for local stock, which was held very tight and high. Twenty-five cases of April storage selects were sold and the price on this grade was pushed up a cent, making the margin from 33 to 34 cents on them.

Butter was the usual featureless commodity that it has been for several months. Arrivals were 12,168 pounds. Oregon triplet cheese was in good call, but there was very little of it on hand from offerings. There were no reported arrivals of cheese.

A car of Early Rose potatoes, which arrived several days ago from the North and which have been standing in warehouse, were offered at a tempting price, but the bait would not draw. Arrivals were only 321 sacks.

Australian Brown onions were well offered. Garlic was in good demand and there was little obtainable, the present supply being limited. Onion receipts were only 16 sacks.

A car of No. 1 pink beans were slated among receipts and offered below 3.00, but could find no buyers. A few small whites were also placed on sale. Total receipts were 841 sacks.

Sweet potato arrivals were 179 sacks. The market showed some improvement in the demand and a firm price.

Smith cider apples were the chief offerings in the apple list. The smallest arrivals since the beginning of the apple season early last June, were reported. Only 4 boxes were received over the railroads.

Fish were again present in preponderant amount, and the market was slow on account of the holiday today, when most people prefer to eat roasts instead of the Friday fish. There were no changes in meat quotations.

NEVADA EXCHANGE.

LOCAL MINING MARKET BOOMS.

PRICES IN GENERAL RANGE FRACTIONALLY HIGHER.

Close Before New Year's Day Marks Record in Recent Trading, and Active Interest Shown in Better Class of Stock — Goldfield Consolidated Holds Spotlight.

The business on the Los Angeles-Nevada Exchange yesterday was very large. The market was about as it has been, with changes to a higher level. Trading was carried on at fairly firm prices in the majority of cases, and indicated active interest in the best class of stocks.

More Goldfield Consolidated was handled on the floor than for the week preceding. Prices, while weaker than the opening of the week, were higher than on Wednesday. The stock sold at 8.75@8.77½ on the morning call, and 600 shares changed hands. The price advanced to 8.87½ on the informal session, when 200 shares were sold. It closed at 8.87½@8.95, netting a 7½-point gain in the bid. The asking price was unchanged.

Trading in Combination Fraction was good. The stock was handled at 1.35 to the extent of 1300 shares on the early session. It closed at 1.35@1.37, showing a gain of 1 point in each quotation compared with the previous close.

Daisy sold to the extent of 1100 shares, with prices ranging from 69 to 71. The close was 70@71, up 1 point in each quotation.

Four hundred shares of Florence were sold on the early call, changing hands at 4.45, with the closing bid of the day at 4.47½@4.57½, up 2½ points in each quotation. The stock was not handled on the informal session. Jumbo Extension sold at 24, and Sandstorm at 20. Atlanta changed hands at 17, and Blue Bull at 15. Great Bend came in for some attention, changing hands at 25, and Trinity sold at 16½.

Eureka regained the loss of Wednesday, selling up 2½ to 2¾, with trading amounting to 48,000 shares. Searchlight Parallel sold at 3@3¼. Standard No. 1 was traded in at 5. Baby Florence sold at 1, Consolidated Mines at 1¾. Homestake at 10. Lige Harris at 48.00 @50.00 per thousand shares, and Milltown Fraction at 1¼. Crown Point Globe changed hands at 12½, and Jim Butler at 18.

There was some trading in one or two oils. Fullerton was sold at 80, only 100 shares changing hands, and 1000 Globe Oil sold at 16½.

The exchange will be closed today and tomorrow, opening as usual on Monday morning.

SAN FRANCISCO LIST.

SLIGHT WORK FOR HOLIDAY.

MANY NORTHERN BROKERS STAY OFF BOARD.

Disappointment Felt in Small Gain Made by Goldfield Consolidated Answered by Statement Showing That New Mill Is Being Limbered up Before Milling High-Grade Ore.

[Special Service to The Times by R. F. Taylor, 524 Citizens' National Bank Bldg., Member Los Angeles-Nevada Mining Exchange.]

SAN FRANCISCO, Dec. 31.—There is not much to be said about the market today. Many of the brokers were off the floor taking advantage of the holidays. Goldfield Consolidated sold down to 8.75, closed at 8.85 bid. Florence and Combination Fraction were unchanged and the balance of the list closed about where they were yesterday. The exceptions were Booth and Daisy, which were up two points each.

There appears to be a feeling of disappointment because Goldfield Consolidated has not made bigger gains since the mill started, but it must be taken into consideration that at least 30 days' time will be needed to get the machinery limbered up, and the management feel justified in running through the high grade ore. Profit takers have been in evidence, but every share of stock offered has been rapidly absorbed.

Tonopah Mines have suffered materially during the past three months on account of the low price of silver. This has curtailed shipments, but intelligent development work is being carried on by all the prominent properties in the district.

Conditions in the Bullfrog district are more hopeful than at any time during the past year. The Shoshone, Homestake and Keane Wonder are all operating their mills successfully and making money. The enormous strike on the Bullfrog Pioneer, the extent of which is not yet fully known, has directed attention to this great milling camp.

The building of custom mills and company mills in the Manhattan district is bringing that section of Nevada to the front, and the operators there are looking to the future with great confidence.

The Rawhide Coalition fiasco had a bad effect on the market, but nothing which the promoters did can take away from the value of this property which is pronounced by conservative mining men to be a milling proposition of more than ordinary values. Sooner or later Coalition, Queen and other like propositions must get into strong hands.

Following are the bid and asked prices, with sales on the formal close.

Yesterday's Forecast and Report.

LOCAL OFFICE, U. S. WEATHER BUREAU, Los Angeles, Dec. 31.—[Reported by A. B. Wollaber, Local Forecaster.] At 5 o'clock a.m. the barometer registered 30.04; at 5 p.m., 30.02. Thermometer for the corresponding hours showed 42 deg. and 55 deg. Relative humidity, 5 a.m., 96 per cent.; 5 p.m., 73 per cent. Wind, 5 a.m., northwest, velocity 2 miles; 5 p.m., northwest, velocity 4 miles. Maximum temperature, 62 deg.; minimum, 41 deg. Barometer reduced to sea level.

Weather Conditions.—Fair weather with scattering cloudiness prevails this morning over the Pacific Slope, with considerable fog in the coast districts of Southern California. East of the Rocky Mountains snow has occurred in Montana, the Dakotas, Minnesota and along the shores of the lower lakes, while on the immediate coast of the Atlantic rain has fallen from Maine to the Carolinas. The weather continues clear and cold in the Middle Western States, temperatures of zero and below being reported in all of the Northern States between the Great Lakes and the Rocky Mountains. A slight disturbance is central off the northern coast of California, but it is not thought that this storm will develop sufficient energy to cause anything but some cloudiness in Los Angeles and vicinity during the next thirty-six hours. The weather is expected to continue fair over the citrus belt, with little change in temperature.

Forecasts.—Local forecast for Los Angeles and vicinity: Generally fair, possibly with some cloudiness or fog, tonight and Friday; variable winds.

SAN FRANCISCO, Dec. 31.—A storm of moderate intensity is moving in slowly from the Pacific over Northern California. Conditions are favorable for rain New Year's day over the central and northern counties, reaching the South by Saturday. It is much warmer over most of California. In the San Joaquin Valley the temperature has risen 15 deg. and the tule fog has cleared away. Southeast storm signals are displayed along the coast from Point Lobos to Eureka. Forecasts:

San Francisco and vicinity: Showers Friday, with fresh south winds.

Santa Clara Valley: Showers Friday; fresh south winds.

Sacramento Valley: Cloudy Friday, with showers; fresh south winds.

Los Angeles and vicinity: Increasing cloudiness Friday; probably showers by night; light north winds, changing to south.

San Joaquin Valley: Cloudy Friday, with showers; fresh south winds.

Arizona: Partly cloudy Friday; Saturday, increasing cloudiness, with rain or snow in north portion.

GENERAL EASTERN.

WHEAT SHY OF THE NEW YEAR.

CLOSING QUOTATIONS FOR 1908 SHOW LOSSES.

Liquidation of Pre-holiday Character Causes Slump in Prices and News of Day Is of Bearish Character—Liverpool Is Weak and the Stocks in Northwest Increase.

[ASSOCIATED PRESS NIGHT REPORT.]

CHICAGO, Dec. 31.—General liquidation of a pre-holiday character caused a slump in the price of wheat here today, closing quotations showing net losses of ⅛ to 1¼@1⅜. The great majority of traders in the wheat pit who were "long" were inclined to "even up" at the end of the year and in anticipation of the holiday tomorrow, and in consequence the market lacked any substantial support and was weak throughout the entire day. News of the day also favored such selling, the bulk of the gossip being of a bearish nature. The Liverpool market was weak, notwithstanding an advance here yesterday. Stocks of wheat at Minneapolis and Duluth increased 850,000 bushels and the total exports of wheat and flour for the week from the United States and Canada were equal to only 3,116,000 bushels, compared with 5,119,000 bushels for the same week a year ago.

The distant deliveries displayed the greatest weakness, as the desire of shorts in December to cover sales caused the December delivery to close almost where it left off the previous day. Materialization of the predicted cold wave had little effect. With the exception of December, the market closed at almost the bottom, with May at 1.07⅞@1.07⅝, and July, 98⅞@99.

The slump in wheat was one of the chief reasons for a weak corn market. The market closed weak, with prices ⅝ to 1 below the previous close, with May at 61⅛, and July at 61¼@61⅜.

Oats closed weak, with prices ¼ to ⅜ lower, compared with yesterday. Final quotations on May were at 51⅝@51¼, and on July at 46¼.

The weakness of grain offset an advance of 5@10 in the price of live hogs and caused moderate weakness in provisions during the final hour of the day. At the close, prices were unchanged to 10 lower.

The Board of Trade and the Butter and Egg Board will be closed tomorrow.

Cash quotations were as follows: Flour was firm; No. 2 spring wheat, 1.03½; No. 2 corn, 58@58½; No. 2 yellow, 58½@59⅝; No. 2 white oats, 51; No. 3 white, 48⅝@51⅛; No. 2 rye, 74; good feeding barley, 54; fair to choice malting, 61@64; No. 1 northwestern flaxseed, 1.51½; clover, contract grades, 9.20; short ribs, sides (loose,) 7.87½@8.37½; mess pork, per bbl., 14.62½@14.75; lard, per 100 lbs., 9.45; short clear sides (boxed,) 8.50@8.75.

SMALL TRADE ON STOCK EXCHANGE.

LAST DAY OF YEAR QUIET ONE IN WALL STREET.

Fear of July Reduction Causes Some Special Pressure on United States Steel—Rates for Call Loans Easy—Harriman Figures in New York Central Rumors.

[ASSOCIATED PRESS NIGHT REPORT.]

NEW YORK, Dec. 31.—The last day of the year on the stock exchange was a dull one. Only a small volume of business was done, and there were few important price changes. Business was in the hands of small traders for the most part. The strong advance in New York Central was attributed to the belief that E. H. Harriman was to become an active counselor in its affairs, rumor assigning him to the chairmanship of the board. There was some special pressure on United States Steel and this was explained as being due to apprehension of harm from the reduction of steel duties. Trade authorities testify there is some hesitation among consumers of iron and steel products about making purchases owing to the belief that the proposed changes in the tariff will bring some price adjustments. The close of the year saw no flurry in the money market. Rates for call loans, in fact, were rather easier than in the last few days. The week's currency movement has been in favor of New York, the sub-treasury operations contributing over $2,000,000 to the banks, while the interior has sent an excess of that much or more over what has gone out from here. The rate of premium for the New York exchange at Chicago has fallen somewhat in the last two days. It is not expected money rates will relapse to greater ease immediately after New Year's. The New York money settlements usually make their influence felt for a day or two after the immediate period for the large payments. Confidence remains unabated, however, in a coming period of great ease in the money market. Bonds were irregular. Total sales, par value, $8,152,000. United States bonds were unchanged on call.

CLEARINGS APPROACH NORMAL.

Normal Conditions in Business Are Reflected by the Records of Clearinghouse Association.

Normal conditions are again reflected in the business and commercial world by the bank clearings of the last two months of the old year. A total of $505,588,756 passed through the local clearinghouse association during the twelve months of 1908, this amount being $76,281,871 less than the aggregate of 1907. In 1906 the total clearings amounted to $578,635,517, and considering that during the early part of last year the entire country was in a financially depressed condition, the showing may be regarded as first-class.

The last two months of 1908 show a return to normal business, and are indicative of a steady and sure growth to times of healthy business activity. A great prospect for better business is in sight throughout 1909, due without a doubt to the fact that there will be no political change in the national administration.

The tabulated statement below shows the clearings for the year by months, and also comparisons with corresponding months in 1907 and 1906:

	1908.	1907.	1906.
January	$38,183,968	$58,241,089	$46,833,869
February	36,677,215	53,195,399	45,283,827
March	41,133,998	56,283,587	53,158,379
April	43,411,800	56,386,217	50,628,948
May	42,286,824	52,825,885	47,320,065
June	41,933,957	45,836,027	45,589,050
July	44,071,685	45,849,341	44,857,143
August	37,793,570	46,626,284	46,197,178

December	50,588,389	29,529,199	53,715,330
Totals	$505,588,756	$581,870,627	$578,635,517

The year's record in quarterly showings is as follows, together with comparisons with the two former years:

	1908.	1907.	1906.
First quarter	$115,995,179	$167,830,055	$145,306,076
Second quarter	127,638,591	153,048,129	142,948,064
Third quarter	121,140,158	138,790,760	135,097,839
Fourth quarter	140,814,798	117,211,683	157,283,538
Totals	$505,588,756	$581,870,627	$578,635,517

Many Business Laurels for New Hamburger's.

Great Store's Move Proves Wisdom Far-sighted.

Past Year of Activity Has Beaten the Best.

"A year ago, when we decided to build on our present location, we thought we were ten years ahead of the city; now we find the city has pretty nearly grown up to us, and we are almost exercising our full capacity in trade," said Sales Manager D. H. Schuhmann of Hamburger's department store, the largest west of Chicago, last night in summing up the business of the year.

"When we removed to our new location at Broadway and Eighth streets from North Spring and Franklin streets, we jumped from one end of the business town to the other, an acrobatic shifting of trade, which few persons believed us capable of accomplishing. We not only induced the public to follow us, but developed many new patrons, and our year's business has been away beyond our expectations.

"Los Angeles has risen nobly to our assistance, and richly deserves the best service we can give it, but we claim the greater part of the credit is due the company, which, by business integrity, sagacious planning, and an active trade campaign through judicious advertising, has been able not only to weather the financial stress affecting all business in the last year, but has built up a stupendous concern, the like of which has not been conceived of for any town in the country the size of Los Angeles."

NO FARM LIKE IT.

Thirteen acres of floor space is used daily by the Hamburger Company, in which 2300 persons are employed, and over which tens of thousands of persons roam daily in search of necessities, comforts and luxuries of life.

It is the proud boast of the company officials that a family may "live" off Hamburger's—that all one requires in life may be secured there except the lumber and mortar to build the house. This ambition is not yet quite accomplished, but in three weeks the establishment of a grocery department, a meat market, and a bakery will complete the facilities.

In this greatest of up-to-date stores in the West, one may buy anything from a toothpick to a theater box—for not one of the least of its attractions is the complete playhouse built on one of the floors, in which are given performances every day except Sunday. Also there are such establishments as a restaurant, dental parlors, barber shop, photograph gallery, print shop, candy factory, drug laboratory, etc.

And all this great "White City," not in miniature, but in its stupendous reality—block above block, so to speak—which one would think sufficient to supply the needs of all Southern California, is but one of the great business houses of the city, all prosperous and doing better every month.

As a trade index, the Hamburger management keeps a chart—a weather map of business activities—instead of compiling mere figures. The degrees are marked off by thousands of dollars, and sections represent certain lump business traffic. By this chart the managers find that despite the great trade of last year in their old establishment, the business on the best day of this year has been 50 per cent. greater than the business of the best day last year—the day before Christmas in each year.

WINNING FIGHT.

And this, too, when the management had to fight against an off year in business, prejudices of location and newly organized facilities. Now that the business is well started and soon will be fully equipped, the company believes it will do a business unprecedented in any city west of the Mississippi in 1909.

"We have given the people not only a 'white' store, but 'white' treatment," says Mr. Schuhmann. "We have done what we said we would—equipped our store fully with an entire new stock. We disposed of all the old stock—first by ordinary sale, then by auction, and then in lots to the smaller merchants. We are a brand new concern with all the business reliability and staunchness of our old trade back of us. How can we help but be successful. We were put to a tremendous expense to buy, build, equip our store and to advertise. The figures were so stupendous that the townspeople shook their heads and said we would never do it. But we have accomplished the feat and are on solid ground."

Probably nothing strikes the observer more impressively than the great show windows—fifty-seven in all—covering 800 feet of frontage. Above looms the great white building of six stories, surmounted by rows of arc lights at night, its massiveness accentuated in the brilliance.

Three of the heads of great departments held a quiet little half hour of jollification last night—William C. Bailie, superintendent; D. H. Schuhmann, sales manager, and William C. Tummond, chief accountant. A large share of the work has fallen to them, and the successful termination of the year brings to them the highest commendation of their employers, and to the minor heads the credit is passed along.

WILL INVEST HERE.

Actress Will Have a String of Flat Houses Clear Across the Country.

Before she leaves Los Angeles Rose Melville expects to close a deal for a piece of property only a few minutes' walk from the retail district, upon which she purposes to erect a flat building. Miss Melville, who is playing "Sis Hopkins" at the Majestic this week, is a business woman as well as an actress, and her hobby, if she may be said to have one outside of her stage work and her automobile, is flat buildings.

In her home town, South Bend, Ind., the finest apartment house is the Melville, which she built and still owns. She has a flat building in New York, another in Buffalo and still another in Chicago. In addition she owns a considerable acreage of rice lands near Lake City, La., and a big ranch a few miles from Jamestown, N. D.

Rose Melville is today one of the wealthiest women of the American stage. She did not make all of her money by acting, though the sums paid to her for impersonating Sis Hopkins on the stage proved the foundation for her present fortune. She is a shrewd investor and has the knack of making her money work for her. Following her second season as Sis she built that flat building in South Bend and it has proved a profitable investment ever since.

According to her manager, Miss Melville has been paid $400,000 for her share of the profits of Sis. Allowing for the usual managerial exaggeration it is probable that $200,000 would be a very conservative estimate, as she not only receives a large salary, but also a majority percentage of the company's profits. The play has been on the road now ten seasons. Last year, the worst in a decade for theaters, her profits were in excess of $35,000.

SEE IT IN.

The detective force of the District Attorney's office and their friends watched the New Year come over the border last night, and greeted it with proper spirits for the occasion. Immediately after the introduction of 1909 the hosts and their guests sat down to an elaborate dinner in the home of Chief Detective S. L. Browne, No. 1232 Echo Park Road, at which covers were laid for fifty. The detectives present were, besides Mr. Browne, James Campbell, Robert Mehl and Messrs. Rambus, Webber, Duni and Drysdale.

HIKE!

TO CUT DOWN RECORD TIME.

Hope of Marathon Runners in Run to Venice.

No Chance for Laggards Who May Appear Late.

Course to Be Patrolled by a Corps of Judges.

Twenty-nine athletes, some of known ability and others who have never participated in local contests, are ready for the second Los Angeles-Venice Marathon race, which is to be held today under the auspices of the Los Angeles Athletic Club.

The race is scheduled to begin at 9:30 o'clock and unless something unforeseen occurs there will be no delay in getting the men away as the starter has been instructed not to wait for any entrants who are not ready at appointed time.

The runners will start from the headquarters of the Los Angeles Athletic Club at No. 534½ South Spring street and the route is over the following course: South on Spring street to Main street, south on Main street to West Adams street, west on Adams street to Fredericks Road, north on Fredericks Road to St. Mark's boulevard, west to four tanks, crossing canals and through the Midway, Venice, to Windward avenue, finishing at the Los Angeles Athletic Club annex in the new Venice bath-house.

It is expected that the distance of 15.6 miles will be covered by the winner in about 1 hour 45 minutes. Edward Dietrich, the winner of the race over the same course on Admission Day, believes that he will be able to reduce his previous time of 2hr. 1m. at least ten minutes.

Dietrich, Charles Boscha, who finished second in the last race, H. L. Becker of San Diego, and Joseph K. Korinek of Chicago, are looked upon as probable winners, although one of the dark horses may spring a surprise and run away with the race.

PRACTICE WORK.

Becker claims to have covered the course in practice in less than two hours and it is said that he has had much experience in long distance running. Boscha believes he will be able to do much better than he did before, as he says he did not judge the distance properly and held back too much. Korinek has given several good performances in practice and seems to have had a great deal of stamina.

Milton L. White of Whittier College will be the only college representative in the race. White has a good record as a two-miler and has been training hard for the contest. Paul Reinwald is one of the best known pedestrians and mountain climbers in the South but he has not had much experience in long distance running. Henry H. Wheeler is more than 50 years of age but he has a good recent record as a mountain climber.

From the Midway, Venice, to the finishing point at the L. A. A. C. annex the course will be roped off, and the management of the race has arranged to have a number of special officers to keep the road clear. When the runners reach Main and Adams streets each man will be met by a trainer on a bicycle who will accompany him on the long run. The rules require the trainer to stay behind his man in order that there will be no pacing.

The names of the officials follow: Referee, Capt. J. B. Franklin; starter, Robert A. Rowan; marshal, D. C. Van Court; clerk of the course, Al Treloar; judges at finish, Charles Eyton, E. C. Carver, James Morley; timers, Les Henry, Sam Coulter, J. G. Stafford; judges of the course, E. B. Wilson, Robert Brain, Charles Fox, M. S. Copps, Walla Wheeler, T. C. Wynne, Dr. T. O. Treen, Dr. R. Blake Griffith, Frank A. Wolfe, Clark Jargstorff.

An afternoon crowd at Hamburger's.

REAL MARATHON DISTANCE.

VENICE TO PASADENA FOR PROFESSIONALS.

NINE runners have registered for the professional Marathon race that is to begin at Venice this morning at 11 o'clock and finish at Tournament Park. It is expected that the men will cover the course in about four hours, and if this arrangement is carried out the finish of the race will occur during the chariot races that are to be held at Tournament Park this afternoon. After reaching the park, the runners are to do three laps around the track, giving the spectators an opportunity to see them in action.

Five silver cups have been donated by Pasadena business men and they will be awarded to the first five men to finish. Every runner who finishes within five hours after the start will be given $10.

Eugene Estoppey of Pasadena is promoting the race and will be one of the contestants. He has been conspicuous in Southern California for some time as a long distance runner and pedestrian. He was a member of the U. S. C. track team two years ago, but did not make good as a distance man owing to an injury and other circumstances.

The distance to be covered by the Tournament of Roses runners is about twenty-five miles and the contest will be the longest foot race ever held in Southern California. The names of the officials follow: Starter, Charles Fox; timer, George Freeth; judges at finish, Lieut. Harrison, Lieut. Hunt, Quartermaster W. B. Corday, First Sergeant Armand, Sergeants Burbank, Balch and Clerk of Company I, N. G. C.

The following runners have registered for the race: Eugene Estoppey, Pasadena; Joseph Barbieri, Pasadena; Lawrence S. S. Jensen, Nevada; John McFadden, Los Angeles; Reid Clark, Los Angeles; James Hunt, Venice; Harry Leach, Los Angeles; H. Banks, Hollywood; John Brown, Venice.

LAWYER CRIES WHEN ARRESTED.

PROMINENT OHIO ATTORNEY IS CALLED SWINDLER.

Lives in San Bernardino Under an Assumed Name—Says He Will Easily Defeat Prosecution Which Charges Forgery and Peculations Amounting to $30,000.

[BY DIRECT WIRE TO THE TIMES.]

SAN BERNARDINO, Dec. 31.—[Exclusive Dispatch.] Israel S. Donnell, for many years a prominent attorney of Mansfield, O., was arrested today by Under Sheriff McNabb and Deputy Sheriff Ward on telegraphic instructions from the Ohio authorities, where he is under indictment for alleged fraud, forgery and obtaining money by false pretense, his peculations, it is asserted, amounting to $30,000.

Since December 17, he has been residing here at No. 653 West Sixth street as W. W. Woodford. He admits his identity, and says he will easily defeat the prosecution. When arrested he was much affected, and cried like a child. He is penniless.

FIGHTING SCALE.

The orange growers of Highland have just organized their protective association, aimed to prevent the bringing into their section trees, boxes, or anything likely to be infected with scale. The district includes East and West Highland, Del Rosa, Arrowhead and Mt. Vernon groves, and has no scale whatever.

RAMPAGEOUS RANCHER.

Benjamin Ryan, an insane rancher, held the community in the Harlem Springs district in terror all last night. This forenoon he escaped to town, and was found in a bath tub in the rear of a local barber shop. He surrendered without a fight. Ryan had been released from the asylum at Patton on parole.

PILES OF MUSTY FILES.

Record-breaking Bunch of 'Em Gathered in the County Recorder's Office During Last Year.

This county made a record during the year ended last night in the number of documents handled in the office of the Recorder.

The statistics completed at the close of business yesterday showed that 7942 more documents were filed in the office than there were working minutes in the year, or a grand total of 138,712 documents. In this calculation, of course, the half-holiday Saturday was eliminated from the count. This probably beats the record of any other county in the United States.

The work done by the office during October, November and December, 1908, was 17 per cent. greater than for the corresponding months of 1907.

The only papers showing a decrease were the marriage licenses. But 4452 of these were issued during the year, 534 less than in 1907.

During 1908, the Superior Court granted 787 interlocutory decrees of divorce, a decrease of seventy-nine compared with 1907.

The Baltimore Refrigerator and Heating Company was Wednesday night placed in the hands of a receiver. The concern has an authorized capital of $2,000,000. It defaulted, it is alleged, in the payment of interest on the coupons which matured recently.
